## SCHEDULE 2

*(introduced by section 3(1)(b))*

### METHOD FOR CALCULATING MULTIPLIER

- 1 As respects each date on which, but for this Act, a payment of the casualty would have fallen due, a value shall, subject to paragraphs 2 and 3 below, be calculated, rounded to three decimal places, in accordance with the formula—

$$\frac{1}{1.1^n}$$

---

*Status: This is the original version (as it was originally enacted).*

---

where  $n$  is the period, in years, between the relevant date and the date of the payment; and the sum of all the values so calculated shall be the multiplier for the purposes of section 3(1)(b) of this Act.

- 2 For the purposes of paragraph 1 above, for any case where the period is—
  - (a) less than  $\frac{1}{2}$  year (or is nil), the value shall be 1;
  - (b)  $\frac{1}{2}$  but less than 1 year, the value shall be 0.953.
- 3 For the purposes of reckoning  $n$  in paragraph 1 above, where the period is more than one year,  $n$  shall be the whole number of years in question (with any time in excess of that number being ignored).
