  - (b) submit the plan to the Keeper for agreement, and
  - (c) ensure that its public records are managed in accordance with the plan as agreed with the Keeper.
- (2) An authority’s records management plan must—
  - (a) identify—
    - (i) the individual who is responsible for management of the authority’s public records, and
    - (ii) (if different) the individual who is responsible for ensuring compliance with the plan, and
  - (b) include, in particular, provision about—

    - (ii) maintaining the security of information contained in the authority’s public records, and
    - (iii) the archiving and destruction or other disposal of the authority’s public records.
- (3) An authority’s records management plan may make different provision for the management of different kinds of public records (taking account, for example, of the different levels of risk associated with the management of different kinds of records).
- (4) The Keeper must issue guidance to authorities about the form and content of records management plans.

 have a common records management plan for both or, as the case may be, all of the authorities in the group.
