In this Act—

“flood” means the temporary covering by water from any source of land not normally covered by water, but does not include a flood solely from a sewerage system (and related expressions such as “flooding” are to be construed accordingly),

“flood risk” means the combination of the probability of a flood and of the potential adverse consequences, associated with a flood, for human health, the environment, cultural heritage and economic activity,

“flood solely from a sewerage system” means the temporary covering of land by sewage caused solely by a failure in or blockage of a sewerage system which is not connected with any loading on the system by external hydraulic factors (for example by heavier than usual rainfall or higher than usual river levels).

4 SEPA

In this Act, “SEPA” means the Scottish Environment Protection Agency.

5 Responsible authorities

- (1) For the purposes of this Act, responsible authorities are—
- (a) local authorities,

Status: This is the original version (as it was originally enacted).

- (b) Scottish Water, and
 - (c) such other public bodies and office-holders (or public bodies or office-holders of such descriptions) as the Scottish Ministers may designate by order.
- (2) Before making an order under subsection (1)(c), the Scottish Ministers must consult—

PART 3

FLOOD RISK ASSESSMENT, MAPS AND PLANS

Purpose of Part

7 General purpose of Part 3

The purpose of this Part is to make provision for or in connection with establishing a framework for the assessment and mapping of flood risks and the planning in relation to the management of such risks, including making provision, and enabling provision to be made, for or in connection with implementing the Directive.

Flood risk management districts

- (3) The Scottish Ministers must send SEPA a copy of any order under subsection (1)(b) and any map referred to in the order.
- (4) SEPA must, whether a flood risk management district is—
- (a) an area designated as a river basin district by order under section 4(1) of the 2003 Act, or

(b) an area designated by order under subsection (1)(b),
make copies of the order concerned and the map to which the order refers available
for public inspection.

 - (a) maps at the appropriate scale of the flood risk management district which show—
 - (i) borders of any river basin, sub-basin and coastal area in the district,
 - (ii) topography and land use, and
 - (iii) such other information as the Scottish Ministers may specify by regulations,
 - (b) where—
 - (i) SEPA considers there is reliable information that any flood has occurred in the flood risk management district which had significant adverse consequences for human health, the environment, cultural heritage or economic activity there, and
 - (ii) a similar future flood in the district with significant adverse consequences for such matters there is still probable,a description of the flood which has occurred (including its extent and conveyance routes and an assessment of the adverse consequences mentioned in sub-paragraph (i) that the flood entailed),
 - (c) where—
 - (i) SEPA considers there is reliable information that a significant flood has occurred in the flood risk management district, and
 - (ii) significant adverse consequences for the district of any similar future flood there might be envisaged,a description of the flood which has occurred, and
 - (d) an assessment of the potential adverse consequences of any future flood for human health, the environment, cultural heritage and economic activity in the flood risk management district taking into account as far as possible issues such as—
 - (i) the topography,

 - (iii) natural features and characteristics of any river basin or coastal area in the district,
 - (iv) the effectiveness of any existing artificial flood protection structure,

Status: This is the original version (as it was originally enacted).

- (v) the position of any populated area and area of economic activity, and
- (vi) long-term developments, including any impact of climate change on the occurrence of floods.

(5) A flood risk assessment, and any map included in it by virtue of subsection (4)(a), may also include such other information as SEPA considers appropriate.

10 Flood risk assessments: review

(1) SEPA must—

- (a) by 22nd December 2018 or such earlier date as the Scottish Ministers may direct (“the operative date”), review and where appropriate update each flood risk assessment prepared under section 9, and
- (b) by the end of the period of 6 years beginning with the operative date, and of each subsequent period of 6 years, review and where appropriate update the latest flood risk assessment updated after review under this section.

(2) Section 9(3) to (5) applies in relation to the review and updating of a flood risk assessment.

11 Flood risk assessments: regulations

The Scottish Ministers may by regulations make further provision as to the preparation of a flood risk assessment under section 9, or the review or updating of such an assessment under section 10, including provision as to criteria to be applied and the methods and procedures to be followed in those matters.

12 Flood risk assessments: availability for public inspection

SEPA must make available for public inspection copies of the flood risk assessment for the time being applicable to each flood risk management district.

Identification of potentially vulnerable areas and local plan districts

13 SEPA to identify potentially vulnerable areas and local plan districts

(1) SEPA must prepare and submit to the Scottish Ministers a document identifying for each flood risk management district any area in the district for which it considers that significant flood risk—

- (a) exists, or
- (b) is likely to occur.

(2) The document must be submitted to the Scottish Ministers by such date as they may direct, and after carrying out such consultation as may be required by regulations under section 15.

(3) The document must also identify areas (consisting of one or more river basins, sub-basins or coastal areas) around the areas in the flood risk management district identified under subsection (1) for the purpose of preparing local flood risk management plans (see section 34).

(4) SEPA’s identification—

- (a) of any area under subsection (1) is to be based on the flood risk assessment prepared by it under section 9 for the district in which the area is situated,
 - (b) of any area under subsection (3) is to be based on—
 - (i) that assessment, and
 - (ii) such other information as SEPA considers appropriate, and
 - (c) of any area under subsection (1) or (3) is to identify the area by reference to a map at the appropriate scale prepared for the purposes of and included in the document.
- (5) After considering the document, the Scottish Ministers may—
- (a) approve it (in whole or in part and with or without modifications), or
 - (b) reject it.
- (6) Before determining whether or not to approve the document, the Scottish Ministers may request such further information and carry out such further investigations and consultation as they consider appropriate.
- (7) The Scottish Ministers must advise SEPA in writing of the reasons for their determination under subsection (5).
- (8) Where the Scottish Ministers reject the document, they must return it to SEPA and direct SEPA to resubmit it by such date as the direction may specify with—
- (a) such modifications (if any) as the direction may specify, and
 - (b) any further modification which SEPA considers appropriate.
- (9) An area referred to in subsection (1) and identified in a document approved under this section or section 14 is referred to in this Part as a “potentially vulnerable area”.
- (10) An area referred to in subsection (3) and identified in such a document is referred to in this Part and Part 4 as a “local plan district”.

14 Potentially vulnerable areas and local plan districts: review

- (1) SEPA must, after carrying out such consultation as may be required by regulations under section 15—
- (a) by such date as the Scottish Ministers may direct, review and where appropriate update the document approved under section 13, and
 - (b) by the end of the period of 6 years beginning with that date, and of each subsequent period of 6 years (or, in each case, such lesser period as the Scottish Ministers may direct) review and where appropriate update the latest document approved under this section.
- (2) SEPA must submit to the Scottish Ministers each updated document.
- (3) Any review by SEPA under subsection (1) is to be based—
- (a) on the flood risk assessment for the time being applicable to the flood risk management district concerned, and
 - (b) insofar as the review is of the identification of any local plan district, on such other information as SEPA considers appropriate.
- (4) Section 13(4)(c) and (5) to (8) applies in relation to an updated document submitted to the Scottish Ministers under this section.

Status: This is the original version (as it was originally enacted).

15 Potentially vulnerable areas and local plan districts: regulations

The Scottish Ministers may by regulations make provision as to—

- (a) the form and content of a document submitted to them under section 13 or 14,

Assessment of flood risk from sewerage systems

16 Scottish Water to assess flood risk from sewerage systems

- (1) Scottish Water must, for each potentially vulnerable area and any other area identified by SEPA, prepare an assessment—
 - (a) identifying where in the area it considers that a flood is likely to originate from a sewerage system,
 - (b) estimating the volume of sewage which is likely to be released in the event of such a flood, and
 - (c) containing such other information as the Scottish Ministers may specify in regulations.
- (2) An assessment under subsection (1) must be prepared by such date as the Scottish Ministers may direct.
- (3) Before identifying an area for the purposes of subsection (1), SEPA must consult—
 - (a) Scottish Water, and
 - (b) any other responsible authority which has functions exercisable in or in relation to the area.
- (4) An assessment prepared under subsection (1) must be in such form as SEPA may determine.
- (5) In determining the form of an assessment under subsection (4), SEPA must seek to ensure that the assessment will integrate with information relating to flood risk held by—
 - (a) itself, and
 - (b) any responsible authority which has functions exercisable in or in relation to the area for which the assessment is prepared.

- (6) Before determining the form of an assessment in accordance with subsections (4) and (5), SEPA must consult the persons mentioned in subsection (5)(b).
- (7) Scottish Water must, if requested, provide a copy of an assessment to SEPA or a responsible authority.
- (8) Scottish Water must, for each potentially vulnerable area and each area for the time being identified by SEPA—
 - (a) by such date as the Scottish Ministers may direct, review and where appropriate update the assessment prepared under subsection (1) for that area,
 - (b) by the end of the period of 6 years beginning with that date, and of each subsequent period of 6 years (or, in each case, such lesser period as the Scottish Ministers may direct) review and where appropriate update the latest assessment reviewed under this subsection for that area.
- (9) Subsections (4) to (7) apply to the updating of assessments as they apply to their preparation.
- (10) Before making regulations under subsection (1)(c), the Scottish Ministers must consult—
 - (a) SEPA,
 - (b) Scottish Water, and
 - (c) such other responsible authorities as they consider appropriate.

Bodies of water etc.: mapping and assessment

17 Local authorities to prepare maps of bodies of water etc.

- (1) Every local authority must prepare a map which shows (or more than one map which, taken together, show) relevant bodies of water and sustainable urban drainage systems in its area.
- (2) Each map must—
 - (a) be prepared by such date as the Scottish Ministers may direct,
 - (b) be prepared at a scale that the authority considers most appropriate, and
 - (c) contain such information and be in such form as the Scottish Ministers may specify in regulations.
- (3) A local authority must, from time to time, review and where appropriate update the map (or maps) prepared for its area under subsection (1).
- (4) A local authority must make available for public inspection the map (or maps) prepared under this section for the time being applicable to its area.
- (5) In this section and section 18—

“relevant body of water”—

 - (a) means—
 - (i) a body of surface water other than a stretch of coastal water, or
 - (ii) a body of underground water forming part of a watercourse (but not including a watercourse which is wholly underground), but
 - (b) does not include sewers and drains which drain into sewers,

Status: This is the original version (as it was originally enacted).

“sustainable urban drainage system” has the meaning given in section 59(1) of the Sewerage (Scotland) Act 1968 (c. 47).

18 Local authorities to assess bodies of water

- (1) Every local authority must, from time to time (or when directed to do so by the Scottish Ministers)—
 - (a) assess the relevant bodies of water (other than canals) in its area for the purpose of ascertaining whether the condition of any such body of water gives rise to a risk of flooding of land within or outwith its area, and
 - (b) where—
 - (i) a body of water gives rise to such a risk, and
 - (ii) the authority considers that clearance and repair works would substantially reduce that risk,prepare a schedule of those clearance and repair works.
- (2) In subsection (1)(b), clearance and repair works are works that consist of any or all of the following—
 - (a) removing obstructions from a body of water,
 - (b) removing things that are at significant risk of becoming such obstructions,
 - (c) repairing artificial structures which form part of the bed or banks of a body of water.
- (3) A schedule prepared under subsection (1)(b) must—
 - (a) indicate when the local authority next intends to carry out an assessment under subsection (1)(a) of the body of water in question,
 - (b) contain such other information and be in such form as the Scottish Ministers may specify in regulations.
- (4) A local authority must make available for public inspection the schedule of clearance and repair works prepared under subsection (1)(b) for the time being applicable to its area.
- (5) Where it appears to a local authority, whether or not as a result of an assessment carried out under subsection (1)(a), that any relevant body of water in its area is in a condition which is likely to cause flooding of land outwith its area, it must notify the local authority for the area in which that land is situated.
- (6) Subsection (5) does not apply where it appears to the first mentioned authority that the second mentioned authority is aware of the likelihood of the flooding.

Artificial structures and natural features: mapping and assessment

19 SEPA to prepare maps of artificial structures and natural features

- (1) SEPA must, for each flood risk management district, prepare a map—
 - (a) showing artificial structures and natural features in the flood risk management district the removal of which SEPA considers would significantly increase the risk of flooding from a body of surface water,
 - (b) indicating, in relation to each structure or feature, whether it was constructed or altered under section 56 of this Act or section 2 of the 1961 Act, and

- (c) containing such other information as the Scottish Ministers may specify in regulations.
- (2) Each map must be prepared—
 - (a) by such date as the Scottish Ministers may direct,
 - (b) at the appropriate scale, and
 - (c) in such form as the Scottish Ministers may specify in regulations.
- (3) SEPA must, from time to time, review and where appropriate update the map prepared under this section for each flood risk management district.
- (4) Before preparing or updating a map under this section, SEPA must consult every local authority whose area (or part of whose area) is in the flood risk management district to which the map relates.
- (5) SEPA must make available for public inspection the map prepared or updated under this section for the time being applicable to each flood risk management district.

Assessment of possible contribution of alteration etc. of natural features and characteristics

20 SEPA to assess possible contribution of alteration etc. of natural features and characteristics

- (1) SEPA must, by 22nd December 2013 or such other date as the Scottish Ministers may direct, assess whether alteration (including enhancement) or restoration of natural features and characteristics of any river basin or coastal area in a flood risk management district could contribute to the management of flood risk for the district.
- (2) For the purposes of this Act, natural features and characteristics include such features and characteristics which can assist in the retention of flood water, whether on a permanent or temporary basis, (such as flood plains, woodlands and wetlands) or in slowing the flow of such water (such as woodlands and other vegetation), those which contribute to the transporting and depositing of sediment, and the shape of rivers and coastal areas.
- (3) SEPA must—
 - (a) by such date as the Scottish Ministers may direct, review and where appropriate update its assessment under subsection (1), and
 - (b) by the end of the period of 6 years beginning with that date, and of each subsequent period of 6 years (or, in each case, such lesser period as the Scottish Ministers may direct) review and where appropriate update the latest assessment reviewed under this subsection.
- (4) Each assessment under subsection (1), and each assessment updated after review under subsection (3) must—
 - (a) take into account the flood risk assessment, any flood hazard maps and flood risk maps and any flood risk management plan for the time being applicable to the flood risk management district, and
 - (b) refer to a map showing where alteration (including enhancement) or restoration of natural features and characteristics of any river basin or coastal area in the district could contribute to management of flood risk in the district.

Status: This is the original version (as it was originally enacted).

- (5) The map referred to in subsection (4)(b) must be prepared at a scale which SEPA considers will assist in—
- (a) the identification of measures under section 27(4)(b), and
 - (b) the inclusion of information in local flood risk management plans under section 34(3)(b)(ii) and (4)(c)(i).
- (6) SEPA must make available for public inspection copies of—
- (a) any assessment under this section for the time being applicable to each flood risk management district, and
 - (b) the map to which the assessment refers.

Flood hazard maps and flood risk maps

21 SEPA to prepare flood hazard maps and flood risk maps

- (1) SEPA must prepare flood hazard maps and flood risk maps in accordance with this section and sections 22 and 23.
- (2) Flood hazard maps and flood risk maps must be prepared—
- (a) by 22nd December 2013,
 - (b) for the potentially vulnerable areas in each flood risk management district,
 - (c) at the appropriate scale, and
 - (d) so as to secure that the maps for the district (taken together) cover all such areas.

22 Flood hazard maps

- (1) A flood hazard map (or more than one such map taken together) must (except to the extent subsections (2) to (6) provide otherwise), show—
- (a) the geographical areas which could be flooded by each of the following types of flood—
 - (i) floods with a low probability (or which would be an extreme event),
 - (ii) floods with a medium probability, and
 - (iii) floods with a high probability, and
 - (b) the following elements for each of those types of flood—
 - (i) the flood extent,
 - (ii) water depths or water level, whichever is appropriate,
 - (iii) where appropriate, the flow velocity or the relevant water flow, and
 - (iv) such other elements as the Scottish Ministers may specify by regulations.
- (2) But a flood hazard map need not show information referred to in subsection (1) as respects a flood with a high probability where SEPA considers such a flood would be unlikely to have significant adverse consequences for the area which could be flooded by it.
- (3) And—
- (a) where a geographical area shown in a flood hazard map is or includes a coastal area which SEPA considers is adequately protected from coastal floods,

- subsection (4) applies instead of subsection (1) as respects any coastal flood (of the coastal area) with a medium or high probability,
- (b) where a geographical area shown in a flood hazard map is or includes an area at risk of flooding from groundwater, subsection (5) applies instead of subsection (1) as respects any flood (of the area at such risk) with a medium or high probability and which would be from groundwater, and
 - (c) subsection (6) applies instead of subsection (1) as respects any flood from a sewerage system which is not a flood solely from a sewerage system.
- (4) Where subsection (3)(a) applies, the map—
- (a) may, where SEPA considers it appropriate, and
 - (b) must, to the extent that the Scottish Ministers direct,
- show for any such coastal area information referred to in subsection (1) as respects any such flood of that area.
- (5) Where subsection (3)(b) applies, the map—
- (a) may where SEPA considers it appropriate, and
 - (b) must, to the extent that the Scottish Ministers direct,
- show for the area at such risk information referred to in subsection (1) as respects any such flood of that area.
- (6) Where subsection (3)(c) applies, the map—
- (a) may where SEPA considers it practicable, and
 - (b) must to the extent that the Scottish Ministers direct,
- show information referred to in subsection (1) as respects any flood in the area from a sewerage system which is not a flood solely from a sewerage system.
- (7) To the extent (if any) that, in pursuance of subsections (2) to (6), a flood hazard map does not show information referred to in those subsections, the map must include a statement explaining that the information is not shown in it.
- (8) Before giving a direction under subsection (4)(b), (5)(b) or (6)(b), the Scottish Ministers must consult SEPA.
- (9) In this section—
- (a) as respects a flood—
 - “low probability” (or “extreme event”) means such probability as may be specified as such by the Scottish Ministers by order,
 - “medium probability” means such probability involving a return period of 100 years or more (or an annual probability of occurrence of not more than 1%) as may be specified as such by the Scottish Ministers by order,
 - “high probability” means such probability as may be specified as such by the Scottish Ministers by order,
 - (b) “groundwater” has the same meaning as in section 3(4) of the 2003 Act.

23 Flood risk maps

- (1) The potential adverse consequences associated with each type of flood for which any information referred to in section 22(1) is shown in a flood hazard map must be shown in a flood risk map (or more than one flood risk map taken together) by reference to the matters mentioned in subsection (2).

Status: This is the original version (as it was originally enacted).

- (2) The matters are—
- (a) the indicative number of inhabitants who potentially could be affected,
 - (b) the type of economic activity in the area which could be flooded,
 - (c) installations referred to in Annex 1 to Directive [2008/1/EC](#) of the European Parliament and of the Council concerning integrated pollution prevention and control, which might cause accidental pollution if any type of flood referred to in subsection (1) occurred,
 - (d) any of the following protected areas or bodies of water which potentially could be affected, if any type of flood referred to in subsection (1) occurred—
 - (i) areas for the abstraction of water intended for human consumption identified by order under section 6(1) of the 2003 Act,
 - (ii) areas referred to in section 7(4)(a) of that Act (areas designated for the protection of economically significant aquatic species),
 - (iii) bodies of water referred to in section 7(4)(b) of that Act (bodies of water designated as recreational waters),
 - (iv) areas referred to in section 7(4)(c) of that Act (nutrient-sensitive areas),
 - (v) areas referred to in section 7(4)(d) of that Act (areas designated for the protection of habitats or species where the maintenance or improvement of the status of the water is an important factor in such protection),
 - (vi) areas classified pursuant to Article 4 of Council Directive [79/409/EEC](#) on the conservation of wild birds,
 - (vii) special areas of conservation designated under regulation 8(1) of the [Conservation \(Natural Habitats, &c.\) Regulations 1994 \(SI 1994/2716\)](#), and
 - (viii) sites of special scientific interest which have been notified in terms of section 3 of the [Nature Conservation \(Scotland\) Act 2004 \(asp 6\)](#),
 - (e) any area which is within a protected area or body of water referred to in paragraph (d)(i) to (viii) and could be affected by pollution from any installation referred to in paragraph (c), and
 - (f) such other information as the Scottish Ministers may specify by regulations.
- (3) Where SEPA considers it appropriate, a flood risk map may also show the potential adverse consequences associated with any type of flood referred to in subsection (1) by reference to any of the following—
- (a) information indicating any areas where floods with a high content of transported sediments or debris floods (or a combination of such floods) can occur,
 - (b) such other sources of pollution as SEPA consider may be significant,
 - (c) such other available and readily derivable information as SEPA considers appropriate.

- (2) In subsection (1), a “limiting provision” is one which—
- (a) prohibits or prevents the local authority from doing anything or limits its powers in that respect, and
 - (b) is expressed in an enactment (whenever passed or made).
- (3) The absence from an enactment of provision conferring any power does not of itself make that enactment a limiting provision.

58 Limits of general power: statutory undertakings

- (1) A local authority may not exercise the power under section 56 in a way which—
- (a) damages any works or property belonging to a statutory undertaker, or
 - (b) interferes with the carrying on of its statutory undertaking,

- (2) The local authority must also display a notice of the proposed flood protection scheme in a prominent position in the locality in which the operations are to be carried out.
- (3) A notice given under sub-paragraph (1) or (2) must—
 - (a) contain a general description of the effect of the proposed scheme including—

 - (ii) a summary of the benefits which the local authority considers are likely to be derived from carrying out the operations,
 - (b) state where and at what times the scheme documents can be inspected in pursuance of paragraph 2, and
 - (c) state that objections can be made about the proposed scheme to the local authority before the expiry of the period of 28 days beginning with the date notice is first published under sub-paragraph (1)(a).

Public inspection of scheme proposal

- 2 (1) The local authority must make a copy of the scheme documents available for public inspection in a place in the authority’s area.

Status: This is the original version (as it was originally enacted).

- (2) Where the proposed operations are to be carried out in another local authority's area, the authority must also make the scheme documents available for public inspection in a place in the other authority's area.
- (3) The scheme documents must be available for inspection at all reasonable times during the period from the date notice is given under paragraph 1(1)(a) until the date a decision is made under paragraph 4(1), 7(4) or, as the case may be, 9(1).

Objections

- 3 (1) Any person may object to a proposed flood protection scheme.
- (2) An objection is valid if it—
 - (a) is made in writing,
 - (b) sets out the name and address of the objector, and
 - (c) is made before the expiry of the period of 28 days beginning with the date notice of the scheme is first published under paragraph 1(1)(a).
- (3) An objection which is made by electronic means is to be treated as being in writing if it is received in a form which is legible and capable of being used for subsequent reference.
- (4) In this schedule, a “late objection” is an objection that would be a valid objection but for the fact that it was made after the end of the period specified in sub-paragraph (2) (c).

Decision where no valid objections received

- 4 (1) Where, in relation to a proposed flood protection scheme, the local authority receives no valid objections the local authority must, after the expiry of the period referred to in paragraph 3(2)(c), either—
 - (a) confirm the proposed scheme, or
 - (b) reject the proposed scheme.
- (2) But if, before the local authority makes its decision under sub-paragraph (1), it receives a late objection it must treat that objection as a valid objection for the purposes of sub-paragraph (1) and paragraph 5 if satisfied that it was reasonable for the objector to make the objection after the deadline for doing so.

Preliminary decision following objections

- 5 (1) Where, in relation to a proposed flood protection scheme, the local authority receives a valid objection, it must make a preliminary decision to—
 - (a) confirm the proposed scheme without modification,
 - (b) confirm the proposed scheme with modifications, or
 - (c) reject the proposed scheme.
- (2) Before making the decision under sub-paragraph (1), the local authority—
 - (a) must consider—
 - (i) any valid objections (unless withdrawn), and

Status: This is the original version (as it was originally enacted).

- (ii) any late objection if the authority is satisfied that it was reasonable for the objector to make the objection after the deadline for doing so, and
 - (b) may also consider any other matters it considers appropriate.
- (3) The local authority must give notice of its decision under sub-paragraph (1) to every person who made an objection which it considered.
- (4) A person who made such an objection is referred to in this schedule as a “relevant objector”.
- (5) Where any relevant objector is a person to whom sub-paragraph (6) applies, the local authority must also give to the Scottish Ministers notice of its decision together with—
 - (a) the scheme documents,
 - (b) a summary of the objections received by the local authority,
 - (c) copies of those objections, and
 - (d) copies of any other material considered by the local authority.
- (6) This sub-paragraph applies to any person—
 - (a) having any interest in any land on which the proposed operations are to be carried out,
 - (b) whose interest in any other land may be affected by any of the operations or by any alteration in the flow of water caused by any of the operations, or
 - (c) referred to in paragraph 1(1)(e) or (f).

Ministerial call-in

- 6 (1) Where the Scottish Ministers receive a notice under paragraph 5(5) and any relevant objector is a local authority or a National Park authority, the Scottish Ministers must consider the proposed flood protection scheme.
- (2) Otherwise, the Scottish Ministers must, within 28 days of receipt, advise the local authority proposing the scheme either—
 - (a) that they will not consider the proposed scheme, or
 - (b) that they will consider the proposed scheme.
- (3) In making their decision under sub-paragraph (2), the Scottish Ministers must have regard to—
 - (a) the extent of the proposed operations,
 - (b) the likely reduction in flood risk that will result from the completion of those operations,
 - (c) the nature of the objections made,
 - (d) the likely effect on the objectors of the scheme being confirmed, and
 - (e) the extent to which the objections appear to raise issues of disputed fact.
- (4) The Scottish Ministers may extend the period mentioned in sub-paragraph (2) by up to 28 days if—
 - (a) they require more time to consider their decision under that sub-paragraph, and
 - (b) the period has not expired.

Status: This is the original version (as it was originally enacted).

- (5) The Scottish Ministers must notify the local authority proposing the scheme of any decision under sub-paragraph (4) to extend the period as soon as reasonably practicable after making that decision.
- (6) The local authority proposing the scheme must provide such further information as the Scottish Ministers request for the purpose of making their decision under sub-paragraph (2).

Ministerial consideration of proposed scheme

- 7
- (1) This paragraph applies where the Scottish Ministers are required under paragraph 6(1), or decide under paragraph 6(2), to consider the proposed scheme.
 - (2) The Scottish Ministers must cause a public local inquiry to be held unless all objections made by relevant objectors have been withdrawn.
 - (3) Subsections (2) to (9) of section 210 of the Local Government (Scotland) Act 1973 (c. 65) (which relate to the holding of local inquiries) apply in relation to a public local inquiry held under sub-paragraph (2) as they apply in relation to local inquiries held under that section.
 - (4) After considering the material received under paragraph 5(5) and the report of the person who held the public local inquiry (if one was held), the Scottish Ministers must—
 - (a) confirm the scheme without modification,
 - (b) confirm the scheme with modifications, or
 - (c) reject the scheme.
 - (5) The Scottish Ministers may not confirm a scheme with modifications unless they have—
 - (a) given notice of the proposed modification to the relevant objectors and anyone else the Scottish Ministers consider is affected by them at least 28 days before confirming the scheme,
 - (b) given those persons an opportunity to make objections about the proposed modifications, and
 - (c) considered any objections so made.
 - (6) The Scottish Ministers must notify the local authority of their decision as soon as reasonably practicable after making it.

Local authority hearing to consider proposed scheme

- 8
- (1) This paragraph applies where—
 - (a) the local authority has made a preliminary decision in relation to a proposed scheme under paragraph 5, and
 - (b) paragraph 7 does not apply.
 - (2) Before making a final decision under paragraph 9, the local authority—
 - (a) must, if it has notified the Scottish Ministers under paragraph 5(5) but they have decided not to consider the proposed scheme,
 - (b) may, in any other case,
 hold a hearing to consider the proposed scheme.

- (3) The local authority must—
 - (a) invite to the hearing each objector who has made a valid objection (unless withdrawn) or a late objection which the authority intends to consider, and
 - (b) give notice of the hearing in the manner set out in paragraphs 1(1)(a) and (b).
- (4) An invitation under sub-paragraph (3)(a) must be given not less than 28 days before the proposed hearing.
- (5) Notices given under sub-paragraph (3)(b) must be published at least 21 days before the proposed hearing.

Final decision following preliminary decision

- 9
- (1) Unless paragraph 7 applies, the local authority must make a final decision in relation to the proposed scheme by—
 - (a) confirming the proposed scheme without modifications,
 - (b) confirming the proposed scheme with modifications, or
 - (c) rejecting the proposed scheme.
 - (2) Before making a final decision, a local authority must consider—
 - (a) any valid objections (unless withdrawn),
 - (b) any late objection if the authority is satisfied that it was reasonable for the objector to make the objection after the deadline for doing so, and
 - (c) any representations made at a hearing held under paragraph 8.
 - (3) A local authority may not confirm a scheme with modifications unless it has—
 - (a) given notice of the proposed modifications to the relevant objectors and anyone else who the local authority considers is affected by them at least 28 days before confirming the scheme,
 - (b) given those persons an opportunity to make objections about the proposed modifications, and
 - (c) considered any objections so made.

Notice of final decision

- 10
- (1) Where—
 - (a) a local authority makes a decision under paragraph 4(1) or 9(1), or
 - (b) the Scottish Ministers make a decision under paragraph 7(4),the local authority must give notice of the decision in accordance with sub-paragraph (2).
 - (2) Notice must be given—
 - (a) to every person given notice in relation to the proposed scheme under paragraph 1(1)(d) to (f),
 - (b) to every relevant objector,
 - (c) to anyone else who was notified under paragraph 7(5)(a) or 9(3)(a), and
 - (d) where the decision is to confirm the proposed scheme (with or without modifications), in the manner set out in paragraph 1(1)(a) to (c).

Status: This is the original version (as it was originally enacted).

Commencement of scheme

- 11 A scheme becomes operative 6 weeks after notice of its confirmation is published in a newspaper circulating in the local authority's area under paragraph 10(2)(d).

Appeals

- 12 (1) A decision to confirm a proposed scheme made by a local authority or the Scottish Ministers (other than a decision under paragraph 5(1)) may be appealed by any person affected by the confirmed scheme.
- (2) An appeal must be made before the expiry of the period of 6 weeks beginning with the day notice is published under paragraph 10(2)(d) in a newspaper circulating in the local authority's area.
- (3) An appeal under this paragraph is to be made by way of summary application to the sheriff of an appropriate sheriffdom.
- (4) An "appropriate sheriffdom" is a sheriffdom in which some or all of the proposed operations are to be carried out.
- (5) The grounds on which a decision can be appealed are—
- (a) that the confirmed scheme breaches the restriction in subsection (3) of section 61 or does not comply with the requirement in subsection (4) of that section,
 - (b) that, in reaching the decision, the local authority or, as the case may be, the Scottish Ministers erred in law, or
 - (c) that there was a failure to comply with a procedural requirement contained in this schedule or regulations made under it.
- (6) The sheriff may, on the application of the appellant, suspend the operation of the scheme, or of any part of it, either generally or insofar as it affects any interest in land which the appellant has, pending determination of the appeal.
- (7) If the sheriff is satisfied that the interests of the applicant have been substantially prejudiced by—
- (a) the confirmed scheme breaching the restriction in subsection (3) of section 61 or not complying with the requirement in subsection (4) of that section,
 - (b) an error of law, or
 - (c) a failure to comply with a procedural requirement contained in this schedule or regulations made under it,
- then the sheriff may uphold the appeal and quash the scheme, or any part of it, either generally or insofar as it affects any interest in land which the appellant has.

Assessment of environmental effects

- 13 The Scottish Ministers may by regulations make provision about the consideration to be given, before a flood protection scheme is confirmed under paragraph 4, 7 or 9, to the likely environmental effects of the operations proposed in the scheme.

Further provision

- 14 (1) The Scottish Ministers may by regulations make further provision about the procedure to be followed in connection with flood protection schemes.
- (2) Regulations may, in particular, make provision about—
- (a) the form and manner in which objections are to be made, including specifying circumstances in which objections are to be considered withdrawn,
 - (b) the procedure to be followed at a hearing held under paragraph 8,
 - (c) the form of any notice given under this schedule and the manner in which it is to be given.
