of 18 October 1982

on the list of establishments in the Swiss Confederation approved for the purposes of exporting fresh meat to the Community

(82/734/EEC)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

continue their exports of fresh meat to those Member States prepared to accept them;

Having regard to the Treaty establishing the European Economic Community,

Whereas it will therefore be necessary to re-examine and, if necessary, amend this Decision;

Having regard to Council Directive 72/462/EEC of 12 December 1972 on health and veterinary inspection problems upon importation of bovine animals and swine and fresh meat from third countries <sup>(1)</sup>, and in particular Articles 4 (1) and 18 (1) (a) and (b) thereof,

Whereas, in relation to the particular case of cold stores, the Community standards which must be met are at present the subject of certain adjustments, the final form of which may not be accurately foreseen; whereas, consequently, it is necessary to hold this matter in abeyance and to leave to a later date all decisions concerning these establishments;

Having regard to the proposal from the Commission,

Whereas it should be recalled that imports of fresh meat are also subject to other Community veterinary rules, particularly as regards health protection requirements, including the special provisions for Denmark, Ireland and the United Kingdom;

Whereas establishments in third countries cannot be authorized to export fresh meat to the Community unless they satisfy the general and special conditions laid down in Directive 72/462/EEC;

Whereas Switzerland has forwarded, in accordance with Article 4 (3) of Directive 72/462/EEC, a list of the establishments authorized to export fresh meat to the Community;

Whereas the conditions for the importation of fresh meat from establishments appearing in the Annex remain subject to veterinary provisions laid down and to the general provisions of the Treaty; whereas, in particular, the importation from third countries and the re-exportation to other Member States of certain categories of meat, such as cuts weighing less than 3 kg, or meat containing residues of certain substances, which are not yet covered by harmonized Community rules, remain subject to the health legislation of the importing Member State;

Whereas Community on-the-spot visits have shown that the hygiene standards of many of these establishments are sufficient and they may therefore be entered on a first list, drawn up according to Article 4 (1) of the said Directive, of establishments from which importation of fresh meat may be authorized;

Whereas, in the absence of any favourable opinion from the Standing Veterinary Committee, the Commission is unable to adopt the measures it had envisaged on this matter under the procedure provided for in Article 29 of Directive 72/462/EEC,

Whereas the case of the other establishments proposed by Switzerland has to be re-examined on the basis of additional information regarding their hygiene standards and their ability to adapt quickly to Community rules;
