Whereas a group of Commission experts has conducted an inspection visit to Turkey to verify the conditions under which live bivalve molluscs, echinoderms, tunicates and marine gastropods are produced and placed on the market;

Whereas Turkish legislation makes the Ministry of Agriculture and Rural Affairs responsible for inspecting the health of live bivalve molluscs, echinoderms, tunicates and marine gastropods and monitoring the hygiene and sanitary conditions of production; whereas the same legislation empowers the Ministry of Agriculture and Rural Affairs to authorize or prohibit the harvesting of bivalve molluscs, echinoderms, tunicates and marine gastropods from certain zones;

Whereas the competent Turkish authorities have provided official assurances regarding compliance with the requirements specified in Chapter V of the Annex to Directive 91/492/EEC and with requirements equivalent to those prescribed in that Directive for the classification of producing and relaying zones, approval of dispatch centres and public health control and production monitoring; whereas in particular any possible change in harvesting zones will be communicated to the Community;

Whereas Turkey is eligible for inclusion in the list of third countries fulfilling the conditions of equivalence referred to in Article 9 (3) (a) of Directive 91/492/EEC;

Whereas the procedure for obtaining a health certificate referred to in Article 9 (3) (b) (i) of Directive 91/492/EEC must include the definition of a model certificate, the language(s) in which it must be drawn up, the qualifications of the signatory and the health mark to be affixed to packaging;

Whereas, accordance with Article 9 (3) (b) (ii) of Directive 91/492/EEC, the production areas from which bivalve molluscs, echinoderms, tunicates and marine gastropods may be harvested and exported to the Community must be designated;

Whereas, in accordance with Article 9 (3) (c) of Directive 91/492/EEC, a list of the establishments from which the import of bivalve molluscs, echinoderms, tunicates and marine gastropods is authorized should be established; whereas such establishments may appear on the list only if they are officially approved by the competent Turkish authorities; whereas it is the duty of the competent Turkish authorities to ensure that
