

CORRIGENDA

Corrigendum to corrigendum to Commission Decision 2004/436/EC of 29 April 2004 amending Decision 94/984/EC as regards the animal health conditions and veterinary certification for fresh poultrymeat transiting or being temporarily stored in the Community

(Official Journal of the European Union L 189 of 27 May 2004)

Decision 2004/436/EC should read as follows:

‘COMMISSION DECISION

of 29 April 2004

amending Decision 94/984/EC as regards the animal health conditions and veterinary certification for fresh poultrymeat transiting or being temporarily stored in the Community

(notified under document number C(2004) 1650)

(2004/436/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption ⁽¹⁾, in particular Article 8(5), third indent, and Article 9(2)(b) and (4)(c),

Whereas:

(1) Council Directive 91/494/EEC of 26 June 1991 on animal health conditions governing intra-Community trade in and imports from third countries of fresh poultrymeat ⁽²⁾ lays down the general animal health conditions for imports into the Community from third countries.

(2) Commission Decision 94/984/EC ⁽³⁾ lays down animal health conditions and veterinary certificates for the importation of fresh poultrymeat from certain third countries.

(3) Council Directive 97/78/EC ⁽⁴⁾ lays down the principles governing the organisation of veterinary checks on products entering the Community from third countries and certain provisions for transit are already provided for in Article 11 such as the use of ANIMO messages and of the common veterinary entry document.

(4) However, it is necessary in order to safeguard the disease situation in the Community to further ensure that consignments of fresh poultrymeat transiting through the Community, comply with the animal health import conditions applicable for authorised countries in regard to the relevant species concerned.

(5) Council Decision 79/542/EEC of 21 December 1979 drawing up a list of third countries or parts of third countries, and laying down animal and public health, and veterinary certification conditions for the importation into the Community of certain live animals and their fresh meat ⁽⁵⁾, has recently been amended to include transit conditions and a derogation for transit through Russia with a reference to the specific border inspection posts designated for this latter purpose.

⁽¹⁾ OJ L 18, 23.1.2003, p. 11.

⁽²⁾ OJ L 268, 24.9.1991, p. 35. Directive as last amended by Directive 1999/89/EC (OJ L 300, 23.11.1999, p. 17).

⁽³⁾ OJ L 378, 31.12.1994, p. 11. Decision as last amended by Decision 2004/118/EC (OJ L 36, 7.2.2004, p. 34).

⁽⁴⁾ OJ L 24, 30.1.1998, p. 9. Directive as last amended by the Act of Accession of 2003.

⁽⁵⁾ OJ L 146, 14.6.1979, p. 15. Decision as last amended by Commission Decision 2004/372/EC (OJ L 118, 23.4.2004, p. 45).

- (6) In the light of experience, it appears that the presentation to the border inspection post, pursuant to Article 7 of Directive 97/78/EC, of the original veterinary documents established in the exporting third country to fulfil the regulatory requirement of the third country of destination, is not sufficient to ensure that the animal health conditions required for the safe introduction into the territory of the Community of the products concerned are effectively satisfied; it is therefore appropriate to establish a specific model of animal health certificate to be used in transit situations for the products concerned.
- (7) It is further appropriate to clarify the implementation of the condition laid down in Article 11 of Directive 97/78/EC, that transit is only allowed from third countries whose products are not prohibited for introduction in the territory of the Community, by making reference to the list of third countries annexed to Decision 94/984/EC.
- (8) However specific conditions for transits via the Community of consignments to and from Russia should be foreseen due to the geographical situation of Kaliningrad and taking into account climatic problems impeding the use of some ports at certain times of the year.
- (9) Commission Decision 2001/881/EC ⁽¹⁾ draws up a list of border inspection posts agreed for veterinary checks on animals and animal products from third countries and it is appropriate to specify the border inspection posts designated for the control of such transits taking into account this Decision.
- (10) Decision 94/984/EC should be amended accordingly.
- (11) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,
- country either by transit immediately or after storage in accordance with Articles 12(4) or 13 of Directive 97/78/EC, and not intended for importation into the EC shall comply with the following requirements:
- (a) they shall come from the territory of a third country or a part thereof listed in Annex I of this Decision for the import of fresh poultrymeat;
