

## ANNEX IV

### MINIMUM SAFETY AND HEALTH REQUIREMENTS FOR CONSTRUCTION SITES Referred to in Article 9 (a) and Article 10 (1) (a) (i) of the Directive

#### PART B

#### SPECIFIC <sup>XI</sup>MINIMUM REQUIREMENTS FOR] ON-SITE WORKSTATIONS

##### Section II

##### **On-site outdoor workstations**

5. Falls from a height
- 5.1. Falls from a height must be physically prevented in particular by means of solid cradles which are sufficiently high and have at least an end-board, a main handrail and an intermediate handrail or an equivalent alternative.
- 5.2. In principle, work at a height must be carried out only with appropriate equipment or using collective protection devices such as cradles, platforms or safety nets.

If the use of such equipment is not possible because of the nature of the work, suitable means of access must be provided and safety harnesses or other anchoring safety methods must be used.
