

Directive 2000/76/EC of the European Parliament and of the Council of 4 December 2000 on the incineration of waste (repealed)

Article 1	Objectives
Article 2	Scope
Article 3	Definitions
Article 4	Application and permit
Article 5	Delivery and reception of waste
Article 6	Operating conditions
Article 7	Air emission limit values
Article 8	Water discharges from the cleaning of exhaust gases
Article 9	Residues
Article 10	Control and monitoring
Article 11	Measurement requirements
Article 12	Access to information and public participation
Article 13	Abnormal operating conditions
Article 14	Review clause
Article 15	Reporting
Article 16	Adaptation to technical progress or new findings
Article 17	Committee procedure
Article 18	Repeal
Article 19	Penalties
Article 20	Transitional provisions
Article 21	Implementation
Article 22	Entry into force
Article 23	Addressees

ANNEX I

.....

ANNEX II

DETERMINATION OF AIR EMISSION LIMIT
VALUES FOR THE CO-INCINERATION OF WASTE

.....
.....
.....
.....
.....

- II.1. Special provisions for cement kilns co-incinerating waste
 - II.1.1. C — total emission limit values
 - II.1.2. C — total emission limit values for SO₂ and TOC...
 - II.1.3. Emission limit value for CO

- II.2. Special provisions for combustion plants co-incinerating waste
 - II.2.1. Daily average values
 - Cproc:
 - II.2.2. C — total emission limit values
- II.3. Special provisions for industrial sectors not covered under II.1 or...
 - II.3.1. C — total emission limit values:

ANNEX III

Measurement techniques

- 1.
- 2.
- 3. At the daily emission limit value level, the values of...

ANNEX IV

Emission limit values for discharges of waste water from the cleaning of exhaust gases

.....
.....

ANNEX V

AIR EMISSION LIMIT VALUES

- (a) Daily average values
- (b) Half-hourly average values
- (c) All average values over the sample period of a minimum...
- (d) Average values shall be measured over a sample period of...
- (e) The following emission limit values of carbon monoxide (CO) concentrations...
- (f) Member States may lay down rules governing the exemptions provided...

ANNEX VI

Formula to calculate the emission concentration at the standard percentage oxygen concentration

.....
.....
