

Directive 2002/46/EC of the European Parliament and of the Council
of 10 June 2002 on the approximation of the laws of the Member
States relating to food supplements (Text with EEA relevance)

Article 10

To facilitate efficient monitoring of food supplements, Member States may require the manufacturer or the person placing the product on the market in their territory to notify the competent authority of that placing on the market by forwarding it a model of the label used for the product.
