

Directive 2005/36/EC of the European Parliament and of the Council of 7 September 2005 on the recognition of professional qualifications (Text with EEA relevance)

TITLE III

**FREEDOM OF ESTABLISHMENT**

CHAPTER III

**Recognition on the basis of coordination of minimum training conditions**

Section 1

**General Provisions**

*Article 21*

**Principle of automatic recognition**

1 Each Member State shall recognise evidence of formal qualifications as doctor giving access to the professional activities of doctor with basic training and specialised doctor, as nurse responsible for general care, as dental practitioner, as specialised dental practitioner, as veterinary surgeon, as pharmacist and as architect, listed in Annex V, points 5.1.1, 5.1.2, 5.2.2, 5.3.2, 5.3.3, 5.4.2, 5.6.2 and 5.7.1 respectively, which satisfy the minimum training conditions referred to in Articles 24, 25, 31, 34, 35, 38, 44 and 46 respectively, and shall, for the purposes of access to and pursuit of the professional activities, give such evidence the same effect on its territory as the evidence of formal qualifications which it itself issues.

Such evidence of formal qualifications must be issued by the competent bodies in the Member States and accompanied, where appropriate, by the certificates listed in Annex V, points 5.1.1, 5.1.2, 5.2.2, 5.3.2, 5.3.3, 5.4.2, 5.6.2 and 5.7.1 respectively.

The provisions of the first and second subparagraphs do not affect the acquired rights referred to in Articles 23, 27, 33, 37, 39 and 49.

2 Each Member State shall recognise, for the purpose of pursuing general medical practice in the framework of its national social security system, evidence of formal qualifications listed in Annex V, point 5.1.4 and issued to nationals of the Member States by the other Member States in accordance with the minimum training conditions laid down in Article 28.

The provisions of the previous subparagraph do not affect the acquired rights referred to in Article 30.

3 Each Member State shall recognise evidence of formal qualifications as a midwife, awarded to nationals of Member States by the other Member States, listed in Annex V, point 5.5.2, which complies with the minimum training conditions referred to in Article 40 and satisfies the criteria set out in Article 41, and shall, for the purposes of access to and pursuit of the professional activities, give such evidence the same effect on its territory as the evidence of formal qualifications which it itself issues. This provision does not affect the acquired rights referred to in Articles 23 and 43.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

[<sup>F14</sup> In respect of the operation of pharmacies that are not subject to territorial restrictions, a Member State may, by way of derogation, decide not to give effect to evidence of formal qualifications referred to in point 5.6.2 of Annex V, for the setting up of new pharmacies open to the public. For the purposes of this paragraph, pharmacies which have been open for less than three years shall also be considered as new pharmacies.

That derogation may not be applied in respect of pharmacists whose formal qualifications have already been recognised by the competent authorities of the host Member State for other purposes and who have been effectively and lawfully engaged in the professional activities of a pharmacist for at least three consecutive years in that Member State.]

5 Evidence of formal qualifications as an architect referred to in Annex V, point 5.7.1, which is subject to automatic recognition pursuant to paragraph 1, proves completion of a course of training which began not earlier than during the academic reference year referred to in that Annex.

[<sup>F16</sup> Each Member State shall make access to, and pursuit of, the professional activities of doctors, nurses responsible for general care, dental practitioners, veterinary surgeons, midwives and pharmacists subject to possession of evidence of formal qualifications referred to in points 5.1.1, 5.1.2, 5.1.4, 5.2.2, 5.3.2, 5.3.3, 5.4.2, 5.5.2 and 5.6.2 of Annex V respectively, attesting that the professional concerned, over the duration of his training, has acquired, as appropriate, the knowledge, skills and competences referred to in Articles 24(3), 31(6), 31(7), 34(3), 38(3), 40(3) and 44(3).

In order to take account of generally acknowledged scientific and technical progress, the Commission shall be empowered to adopt delegated acts in accordance with Article 57c to update the knowledge and skills referred to in Articles 24(3), 31(6), 34(3), 38(3), 40(3), 44(3) and 46(4) to reflect the evolution of Union law directly affecting the professionals concerned.

Such updates shall not entail an amendment of existing essential legislative principles in Member States regarding the structure of professions as regards training and conditions of access by natural persons. Such updates shall respect the responsibility of the Member States for the organisation of education systems, as set out in Article 165(1) of the Treaty on the Functioning of the European Union (TFEU).]

#### **Notification procedure**

1 Each Member State shall notify the Commission of the laws, regulations and administrative provisions which it adopts with regard to the issuing of evidence of formal qualifications in the professions covered by this Chapter.

In the case of evidence of formal qualifications referred to in Section 8, notification in accordance with the first subparagraph shall also be addressed to the other Member States.

2 The notification referred to in paragraph 1 shall include information about the duration and content of the training programmes.

3 The notification referred to in paragraph 1 shall be transmitted via IMI.

4 In order to take due account of legislative and administrative developments in the Member States, and on condition that the laws, regulations and administrative provisions notified pursuant to paragraph 1 of this Article are in conformity with the conditions set out in this Chapter, the Commission shall be empowered to adopt delegated acts in accordance with Article 57c in order to amend points 5.1.1 to 5.1.4, 5.2.2, 5.3.2, 5.3.3, 5.4.2, 5.5.2, 5.6.2 and 5.7.1 of Annex V, concerning the updating of the titles adopted by the Member States for evidence of formal qualifications and, where appropriate, the body which issues the evidence of formal qualifications, the certificate which accompanies it and the corresponding professional title.

5 Where the legislative, regulatory and administrative provisions notified pursuant to paragraph 1 are not in conformity with the conditions set out in this Chapter, the Commission shall adopt an implementing act in order to reject the requested amendment of points 5.1.1 to 5.1.4, 5.2.2, 5.3.2, 5.3.3, 5.4.2, 5.5.2, 5.6.2 or 5.7.1 of Annex V.]

### Article 23

#### Acquired rights

1 Without prejudice to the acquired rights specific to the professions concerned, in cases where the evidence of formal qualifications as doctor giving access to the professional activities of doctor with basic training and specialised doctor, as nurse responsible for general care, as dental practitioner, as specialised dental practitioner, as veterinary surgeon, as midwife and as pharmacist held by Member States nationals does not satisfy all the training requirements referred to in Articles 24, 25, 31, 34, 35, 38, 40 and 44, each Member State shall recognise as sufficient proof evidence of formal qualifications issued by those Member States insofar as such evidence attests successful completion of training which began before the reference dates laid down in Annex V, points 5.1.1, 5.1.2, 5.2.2, 5.3.2, 5.3.3, 5.4.2, 5.5.2 and 5.6.2 and is accompanied by a certificate stating that the holders have been effectively and lawfully engaged in the activities in question for at least three consecutive years during the five years preceding the award of the certificate.

2 The same provisions shall apply to evidence of formal qualifications as doctor giving access to the professional activities of doctor with basic training and specialised doctor, as nurse responsible for general care, as dental practitioner, as specialised dental practitioner, as veterinary surgeon, as midwife and as pharmacist, obtained in the territory of the former German Democratic Republic, which does not satisfy all the minimum training requirements laid down in Articles 24, 25, 31, 34, 35, 38, 40 and 44 if such evidence certifies successful completion of training which began before:

- a 3 October 1990 for doctors with basic training, nurses responsible for general care, dental practitioners with basic training, specialised dental practitioners, veterinary surgeons, midwives and pharmacists, and
- b 3 April 1992 for specialised doctors.

The evidence of formal qualifications referred to in the first subparagraph confers on the holder the right to pursue professional activities throughout German territory under the same conditions as evidence of formal qualifications issued by the competent German authorities referred to in Annex V, points 5.1.1, 5.1.2, 5.2.2, 5.3.2, 5.3.3, 5.4.2, 5.5.2 and 5.6.2.

3 Without prejudice to the provisions of Article 37(1), each Member State shall recognise evidence of formal qualifications as doctor giving access to the professional activities of doctor with basic training and specialised doctor, as nurse responsible for general care, as veterinary surgeon, as midwife, as pharmacist and as architect held by Member States nationals and issued by the former Czechoslovakia, or whose training commenced, for the Czech Republic and Slovakia, before 1 January 1993, where the authorities of either of the two aforementioned Member States attest that such evidence of formal qualifications has the same legal validity within their territory as the evidence of formal qualifications which they issue and, with respect to architects, as the evidence of formal qualifications specified for those Member States in Annex VI, point 6, as regards access to the professional activities of doctor with basic training, specialised doctor, nurse responsible for general care, veterinary surgeon, midwife, pharmacist with respect to the activities referred to in Article 45(2), and architect with respect to the activities referred to in Article 48, and the pursuit of such activities.

Such an attestation must be accompanied by a certificate issued by those same authorities stating that such persons have effectively and lawfully been engaged in the activities in question within their territory for at least three consecutive years during the five years prior to the date of issue of the certificate.

4 Each Member State shall recognise evidence of formal qualifications as doctor giving access to the professional activities of doctor with basic training and specialised doctor, as nurse responsible for general care, as dental practitioner, as specialised dental practitioner, as veterinary surgeon, as midwife, as pharmacist and as architect held by nationals of the Member States and issued by the former Soviet Union, or whose training commenced

- a for Estonia, before 20 August 1991,
- b for Latvia, before 21 August 1991,
- c for Lithuania, before 11 March 1990,

where the authorities of any of the three aforementioned Member States attest that such evidence has the same legal validity within their territory as the evidence which they issue and, with respect to architects, as the evidence of formal qualifications specified for those Member States in Annex VI, point 6, as regards access to the professional activities of doctor with basic training, specialised doctor, nurse responsible for general care, dental practitioner, specialised dental practitioner, veterinary surgeon, midwife, pharmacist with respect to the activities referred to in Article 45(2), and architect with respect to the activities referred to in Article 48, and the pursuit of such activities.

Such an attestation must be accompanied by a certificate issued by those same authorities stating that such persons have effectively and lawfully been engaged in the activities in question within their territory for at least three consecutive years during the five years prior to the date of issue of the certificate.

With regard to evidence of formal qualifications as veterinary surgeons issued by the former Soviet Union or in respect of which training commenced, for Estonia, before 20 August 1991, the attestation referred to in the preceding subparagraph must be accompanied by a certificate issued by the Estonian authorities stating that such persons have effectively and lawfully been engaged in the activities in question within their territory for at least five consecutive years during the seven years prior to the date of issue of the certificate.

[<sup>F</sup>45 Without prejudice to Article 43b, each Member State shall recognise evidence of formal qualifications as doctor giving access to the professional activities of doctor with basic training and specialised doctor, as nurse responsible for general care, as dental practitioner, as specialised dental practitioner, as veterinary surgeon, as midwife, as pharmacist and as architect

held by nationals of the Member States and issued by the former Yugoslavia, or whose training commenced,

- a for Slovenia, before 25 June 1991; and
- b for Croatia, before 8 October 1991;

where the authorities of the aforementioned Member States attest that such evidence has the same legal validity within their territory as the evidence which they issue and, with respect to architects, as the evidence of formal qualifications specified for those Member States in Annex VI, point 6, as regards access to the professional activities of doctor with basic training, specialised doctor, nurse responsible for general care, dental practitioner, specialised dental practitioner, veterinary surgeon, midwife, pharmacist with respect to the activities referred to in Article 45(2), and architect with respect to the activities referred to in Article 48, and the pursuit of such activities.

Such an attestation must be accompanied by a certificate issued by those same authorities stating that such persons have effectively and lawfully been engaged in the activities in question within their territory for at least three consecutive years during the five years prior to the date of issue of the certificate.]

6 Each Member State shall recognise as sufficient proof for Member State nationals whose evidence of formal qualifications as a doctor, nurse responsible for general care, dental practitioner, veterinary surgeon, midwife and pharmacist does not correspond to the titles given for that Member State in Annex V, points 5.1.1, 5.1.2, 5.1.3, 5.1.4, 5.2.2, 5.3.2, 5.3.3, 5.4.2, 5.5.2 and 5.6.2, evidence of formal qualifications issued by those Member States accompanied by a certificate issued by the competent authorities or bodies.

The certificate referred to in the first subparagraph shall state that the evidence of formal qualifications certifies successful completion of training in accordance with Articles 24, 25, 28, 31, 34, 35, 38, 40 and 44 respectively and is treated by the Member State which issued it in the same way as the qualifications whose titles are listed in Annex V, points 5.1.1, 5.1.2, 5.1.3, 5.1.4, 5.2.2, 5.3.2, 5.3.3, 5.4.2, 5.5.2 and 5.6.2.

#### Article 24

#### Basic medical training

1 Admission to basic medical training shall be contingent upon possession of a diploma or certificate providing access, for the studies in question, to universities.

[<sup>F12</sup> Basic medical training shall comprise a total of at least five years of study, which may in addition be expressed with the equivalent ECTS credits, and shall consist of at least 5 500 hours of theoretical and practical training provided by, or under the supervision of, a university.

For professionals who began their studies before 1 January 1972, the course of training referred to in the first subparagraph may comprise six months of full-time practical training at university level under the supervision of the competent authorities.]

3 Basic medical training shall provide an assurance that the person in question has acquired the following knowledge and skills:

- a adequate knowledge of the sciences on which medicine is based and a good understanding of the scientific methods including the principles of measuring biological functions, the evaluation of scientifically established facts and the analysis of data;
- b sufficient understanding of the structure, functions and behaviour of healthy and sick persons, as well as relations between the state of health and physical and social surroundings of the human being;
- c adequate knowledge of clinical disciplines and practices, providing him with a coherent picture of mental and physical diseases, of medicine from the points of view of prophylaxis, diagnosis and therapy and of human reproduction;
- d suitable clinical experience in hospitals under appropriate supervision.

## Article 25

### Specialist medical training

[<sup>F1</sup> Admission to specialist medical training shall be contingent upon completion and validation of a basic medical training programme as referred to in Article 24(2) in the course of which the trainee has acquired the relevant knowledge of basic medicine.]

2 Specialist medical training shall comprise theoretical and practical training at a university or medical teaching hospital or, where appropriate, a medical care establishment approved for that purpose by the competent authorities or bodies.

The Member States shall ensure that the minimum duration of specialist medical training courses referred to in Annex V, point 5.1.3 is not less than the duration provided for in that point. Training shall be given under the supervision of the competent authorities or bodies. It shall include personal participation of the trainee specialised doctor in the activity and responsibilities entailed by the services in question.

3 Training shall be given on a full-time basis at specific establishments which are recognised by the competent authorities. It shall entail participation in the full range of medical activities of the department where the training is given, including duty on call, in such a way that the trainee specialist devotes all his professional activity to his practical and theoretical training throughout the entire working week and throughout the year, in accordance with the procedures laid down by the competent authorities. Accordingly, these posts shall be the subject of appropriate remuneration.

[<sup>F3a</sup> Member States may provide, in national legislation, for partial exemptions from parts of the specialist medical training courses listed in point 5.1.3 of Annex V, to be applied on a case-by-case basis provided that that part of the training has been followed already during another specialist training course listed in point 5.1.3 of Annex V, for which the professional has already obtained the professional qualification in a Member State. Member States shall ensure that the granted exemption equates to not more than half of the minimum duration of the specialist medical training course in question.]

Each Member State shall notify the Commission and the other Member States of the national legislation concerned for any such partial exemptions.]

4 The Member States shall make the issuance of evidence of specialist medical training contingent upon possession of evidence of basic medical training referred to in Annex V, point 5.1.1.

[<sup>F15</sup> The Commission shall be empowered to adopt delegated acts in accordance with Article 57c concerning the adaptation of the minimum periods of training referred to in point 5.1.3 of Annex V to scientific and technical progress.]

## Article 27

### Acquired rights specific to specialised doctors

1 A host Member State may require of specialised doctors whose part-time specialist medical training was governed by legislative, regulatory and administrative provisions in force as of 20 June 1975 and who began their specialist training no later than 31 December 1983 that their evidence of formal qualifications be accompanied by a certificate stating that they have been effectively and lawfully engaged in the relevant activities for at least three consecutive years during the five years preceding the award of that certificate.

2 Every Member State shall recognise the qualification of specialised doctors awarded in Spain to doctors who completed their specialist training before 1 January 1995, even if that training does not satisfy the minimum training requirements provided for in Article 25, in so far as that qualification is accompanied by a certificate issued by the competent Spanish authorities and attesting that the person concerned has passed the examination in specific professional competence held in the context of exceptional measures concerning recognition laid down in Royal Decree 1497/99, with a view to ascertaining that the person concerned possesses a level of knowledge and skill comparable to that of doctors who possess a qualification as a specialised doctor defined for Spain in Annex V, points 5.1.2 and 5.1.3.

[<sup>F32a</sup> Member States shall recognise the qualifications of specialised doctors awarded in Italy, and listed in points 5.1.2 and 5.1.3 of Annex V, to doctors who started their specialist training after 31 December 1983 and before 1 January 1991, despite the training concerned not satisfying all the training requirements set out in Article 25, if the qualification is accompanied by a certificate issued by the competent Italian authorities stating that the doctor concerned has effectively and lawfully been engaged, in Italy, in the activities of a medical specialist in

### Article 28

#### Specific training in general medical practice

[<sup>F1</sup> Admission to specific training in general medical practice shall be contingent upon completion and validation of a basic medical training programme as referred to in Article 24(2) in the course of which the trainee has acquired the relevant knowledge of basic medicine.]

2 The specific training in general medical practice leading to the award of evidence of formal qualifications issued before 1 January 2006 shall be of a duration of at least two years on a full-time basis. In the case of evidence of formal qualifications issued after that date, the training shall be of a duration of at least three years on a full-time basis.

Where the training programme referred to in Article 24 comprises practical training given by an approved hospital possessing appropriate general medical equipment and services or as part of an approved general medical practice or an approved centre in which doctors provide primary medical care, the duration of that practical training may, up to a maximum of one year, be included in the duration provided for in the first subparagraph for certificates of training issued on or after 1 January 2006.

The option provided for in the second subparagraph shall be available only for Member States in which the specific training in general medical practice lasted two years as of 1 January 2001.

3 The specific training in general medical practice shall be carried out on a full-time basis, under the supervision of the competent authorities or bodies. It shall be more practical than theoretical.

The practical training shall be given, on the one hand, for at least six months in an approved hospital possessing appropriate equipment and services and, on the other hand, for at least six months as part of an approved general medical practice or an approved centre at which doctors provide primary health care.

---

The practical training shall take place in conjunction with other health establishments or structures concerned with general medicine. Without prejudice to the minimum periods laid down in the second subparagraph, however, the practical training may be given during a period of not more than six months in other approved establishments or health structures concerned with general medicine.

The training shall require the personal participation of the trainee in the professional activity and responsibilities of the persons with whom he is working.

4 Member States shall make the issuance of evidence of formal qualifications in general medical practice subject to possession of evidence of formal qualifications in basic medical training referred to in Annex V, point 5.1.1.

5 Member States may issue evidence of formal qualifications referred to in Annex V, point 5.1.4 to a doctor who has not completed the training provided for in this Article but who has completed a different, supplementary training, as attested by evidence of formal qualifications issued by the competent authorities in a Member State. They may not, however, award evidence of formal qualifications unless it attests knowledge of a level qualitatively equivalent to the knowledge acquired from the training provided for in this Article.

Member States shall determine, *inter alia*, the extent to which the complementary training and professional experience already acquired by the applicant may replace the training provided for in this Article.

The Member States may only issue the evidence of formal qualifications referred to in Annex V, point 5.1.4 if the applicant has acquired at least six months' experience of general medicine in a general medical practice or a centre in which doctors provide primary health care of the types referred to in paragraph 3.

*Article 29*

**Pursuit of the professional activities of general practitioners**

Each Member State shall, subject to the provisions relating to acquired rights, make the pursuit of the activities of a general practitioner in the framework of its national social security system contingent upon possession of evidence of formal qualifications referred to in Annex V, point 5.1.4.

Member States may exempt persons who are currently undergoing specific training in general medicine from this condition.

#### Acquired rights specific to general practitioners

1 Each Member State shall determine the acquired rights. It shall, however, confer as an acquired right the right to pursue the activities of a general practitioner in the framework of its national social security system, without the evidence of formal qualifications referred to in Annex V, point 5.1.4, on all doctors who enjoy this right as of the reference date stated in that point by virtue of provisions applicable to the medical profession giving access to the professional activities of doctor with basic training and who are established as of that date on its territory, having benefited from the provisions of Articles 21 or 23.

The competent authorities of each Member State shall, on demand, issue a certificate stating the holder's right to pursue the activities of general practitioner in the framework of their national social security systems, without the evidence of formal qualifications referred to in Annex V, point 5.1.4, to doctors who enjoy acquired rights pursuant to the first subparagraph.

2 Every Member State shall recognise the certificates referred to in paragraph 1, second subparagraph, awarded to nationals of Member States by the other Member States, and shall give such certificates the same effect on its territory as evidence of formal qualifications which it awards and which permit the pursuit of the activities of a general practitioner in the framework of its national social security system.

*Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.*

---

The amendments referred to in the second subparagraph shall not entail an amendment of existing essential legislative principles in Member States regarding the structure of professions as regards training and conditions of access by natural persons. Such amendments shall respect the responsibility of the Member States for the organisation of education systems, as set out in Article 165(1) TFEU.]

3 [F<sup>1</sup>The training of nurses responsible for general care shall comprise a total of at least three years of study, which may in addition be expressed with the equivalent ECTS credits, and shall consist of at least 4 600 hours of theoretical and clinical training, the duration of the theoretical training representing at least one third and the duration of the clinical training at least one half of the minimum duration of the training. Member States may grant partial exemptions to professionals who have received part of their training on courses which are of at least an equivalent level.]

The Member States shall ensure that institutions providing nursing training are responsible for the coordination of theoretical and clinical training throughout the entire study programme.

[F<sup>14</sup> Theoretical education is that part of nurse training from which trainee nurses acquire the professional knowledge, skills and competences required under paragraphs 6 and 7. The training shall be given by teachers of nursing care and by other competent persons, at universities, higher education institutions of a level recognised as equivalent or at vocational schools or through vocational training programmes for nursing.]

[F<sup>15</sup> Clinical training is that part of nurse training in which trainee nurses learn, as part of a team and in direct contact with a healthy or sick individual and/or community, to organise, dispense and evaluate the required comprehensive nursing care, on the basis of the knowledge, skills and competences which they have acquired. The trainee nurse shall learn not only how to work in a team, but also how to lead a team and organise overall nursing care, including health education for individuals and small groups, within health institutes or in the community.]

This training shall take place in hospitals and other health institutions and in the community, under the responsibility of nursing teachers, in cooperation with and assisted by other qualified nurses. Other qualified personnel may also take part in the teaching process.

Trainee nurses shall participate in the activities of the department in question insofar as those activities are appropriate to their training, enabling them to learn to assume the responsibilities involved in nursing care.

[F<sup>16</sup> Training for nurses responsible for general care shall provide an assurance that the professional in question has acquired the following knowledge and skills:

- a comprehensive knowledge of the sciences on which general nursing is based, including sufficient understanding of the structure, physiological functions and behaviour of healthy and sick persons, and of the relationship between the state of health and the physical and social environment of the human being;
- b knowledge of the nature and ethics of the profession and of the general principles of health and nursing;
- c adequate clinical experience; such experience, which should be selected for its training value, should be gained under the supervision of qualified nursing staff and in places where the number of qualified staff and equipment are appropriate for the nursing care of the patient;
- d the ability to participate in the practical training of health personnel and experience of working with such personnel;

### Article 36

#### Pursuit of the professional activities of dental practitioners

1 For the purposes of this Directive, the professional activities of dental practitioners are the activities defined in paragraph 3 and pursued under the professional qualifications listed in Annex V, point 5.3.2.

2 The profession of dental practitioner shall be based on dental training referred to in Article 34 and shall constitute a specific profession which is distinct from other general or specialised medical professions. Pursuit of the activities of a dental practitioner requires the possession of evidence of formal qualifications referred to in Annex V, point 5.3.2. Holders of such evidence of formal qualifications shall be treated in the same way as those to whom Articles 23 or 37 apply.

3 The Member States shall ensure that dental practitioners are generally able to gain access to and pursue the activities of prevention, diagnosis and treatment of anomalies and diseases affecting the teeth, mouth, jaws and adjoining tissue, having due regard to the regulatory provisions and rules of professional ethics on the reference dates referred to in Annex V, point 5.3.2.

## Article 37

### Acquired rights specific to dental practitioners

1 Every Member State shall, for the purposes of the pursuit of the professional activities of dental practitioners under the qualifications listed in Annex V, point 5.3.2, recognise evidence of formal qualifications as a doctor [<sup>F6</sup>issued in Italy, Spain, Austria, the Czech Republic, Slovakia and Romania] to persons who began their medical training on or before the reference date stated in that Annex for the Member State concerned, accompanied by a certificate issued by the competent authorities of that Member State.

The certificate must show that the two following conditions are met:

- a that the persons in question have been effectively, lawfully and principally engaged in that Member State in the activities referred to in Article 36 for at least three consecutive years during the five years preceding the award of the certificate;
- b that those persons are authorised to pursue the said activities under the same conditions as holders of evidence of formal qualifications listed for that Member State in Annex V, point 5.3.2.

Persons who have successfully completed at least three years of study, certified by the competent authorities in the Member State concerned as being equivalent to the training referred to in Article 34, shall be exempt from the three-year practical work experience referred to in the second subparagraph, point (a).

With regard to the Czech Republic and Slovakia, evidence of formal qualifications obtained in the former Czechoslovakia shall be accorded the same level of recognition as Czech and Slovak evidence of formal qualifications and under the same conditions as set out in the preceding subparagraphs.

2 Each Member State shall recognise evidence of formal qualifications as a doctor issued in Italy to persons who began their university medical training after 28 January 1980 and no later than 31 December 1984, accompanied by a certificate issued by the competent Italian authorities.

The certificate must show that the three following conditions are met:

- a that the persons in question passed the relevant aptitude test held by the competent Italian authorities with a view to establishing that those persons possess a level of knowledge and skills comparable to that of persons possessing evidence of formal qualifications listed for Italy in Annex V, point 5.3.2;
- b that they have been effectively, lawfully and principally engaged in the activities referred to in Article 36 in Italy for at least three consecutive years during the five years preceding the award of the certificate;
- c that they are authorised to engage in or are effectively, lawfully and principally engaged in the activities referred to in Article 36, under the same conditions as the holders of evidence of formal qualifications listed for Italy in Annex V, point 5.3.2.

Persons who have successfully completed at least three years of study certified by the competent authorities as being equivalent to the training referred to in Article 34 shall be exempt from the aptitude test referred to in the second subparagraph, point (a).

Persons who began their university medical training after 31 December 1984 shall be treated in the same way as those referred to above, provided that the abovementioned three years of study began before 31 December 1994.
