THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 3508/92 of 27 November 1992 establishing an integrated administration and control system for certain Community aid schemes (1), as last amended by Regulation (EC) No 3235/94 (2), and in particular Article 12 thereof,

Having regard to Council Regulation (EEC) No 1765/92 of 30 June 1992 establishing a support scheme for producers of certain arable crops (3), as last amended by Regulation (EC) No 3116/94 (4), and in particular Article 12 thereof,

Whereas in the light of experience and following the adoption of Council Regulation (EC) No 231/94 (3), which introduced certain new elements into the set-aside scheme referred to in Article 7 of Regulation (EEC) No 1765/92, Commission Regulation (EEC) No 3887/92 (6) must be adapted;

Whereas a precise distinction should be drawn between amendments which may be made to aid applications after the time limit for their submission and adjustments of applications in cases of obvious error recognized by the competent authority;

Whereas the method must be specified for calculating the maximum area eligible for compensatory payments to arable crop producers in the case of inadequate set-aside, and provision must be made in this respect for pro rata adjustment for the different crops; whereas, in particular, rules of calculation should be established for cases where the obligation to set aside land is transferred; whereas Article 7 (2) of Commission Regulation (EC) No 762/94 (7) should be repealed in the interests of simplifying the legislation on agriculture, as amended by Regulation (EC) No 2249/94 (8);

Where agricultural parcels are concerned, amendments may be made to the "area" aid application only in particular cases that are properly documented, in particular death, marriage, purchase or sale, on conclusion of a tenancy contract. Member States shall determine the conditions applying thereto. However, a set-aside or forage area parcel may not be added to parcels already declared except in cases which are duly justified under the provisions concerned and on condition that the parcel has already been accounted for as setaside or forage area in the aid application of another farmer, the latter application being corrected accordingly.

Changes of use or aid scheme shall be permitted in all cases. However, a parcel may not be added to parcels declared as set aside.

(b) When a farmer decides during the period within which changes may be introduced, to use a parcel for a crop which falls within the scope of the integrated system which had not been used for such a crop, an "area" aid application may still be introduced within that period.
