## ANNEX I

### GUIDELINES ON

2. Principles of capacity-allocation mechanisms and congestion-management procedures concerning transmission system operators and their application in the event of contractual congestion

[<sup>F1</sup>2.2. *Congestion management procedures in the event of contractual congestion*

2.2.2. *Capacity increase through oversubscription and buy-back scheme*

5. In determining the additional capacity, the transmission system operator shall take into account statistical scenarios for the likely amount of physically unused capacity at any given time at interconnection points. It shall also take into account a risk profile for offering additional capacity which does not lead to excessive buy-back obligation. The oversubscription and buy-back scheme shall also estimate the likelihood and the costs of buying back capacity on the market and reflect this in the amount of additional capacity to be made available.]
