

LOCAL GOVERNMENT (WALES) MEASURE 2009

EXPLANATORY NOTES

COMMENTARY ON SECTIONS

Section 13 - collection of information related to performance

22. **Section 13** relates to the collection of information related to performance. During each financial year a Welsh improvement authority must make arrangements for the collection of information which will allow it to assess its performance in achieving its improvement objectives. The Welsh improvement authority must also make arrangements to collect information which would allow it to measure its performance against performance indicators or standards set by Welsh Ministers and any other indicators or standards which it chooses to use ('self-imposed indicators and standards').
