
STATUTORY RULES OF NORTHERN IRELAND

1998 No. 132

HEALTH AND SAFETY

**Packaging, Labelling and Carriage of Radioactive
Material by Rail Regulations (Northern Ireland) 1998**

Made - - - - 31st March 1998

Coming into operation 1st June 1998

**PACKAGING, LABELLING AND CARRIAGE OF RADIOACTIVE
MATERIAL BY RAIL REGULATIONS (NORTHERN IRELAND) 1998**

Part I

Interpretation and Application

1. Citation, commencement and interpretation
2. Application

Part II

Approved Document

3. Approved Document
4. Duties in relation to the Approved Document

Part III

Approvals

5. Approval of design for special form radioactive material
6. Approval of Type B(U) package designs
7. Approval of Type B(M) package designs
8. Approval of package designs for fissile material
9. Saving and transitional provision for designs approved under earlier international regulations or under previous Regulations
10. Approval of shipments under special arrangement
11. Approval of other shipments

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Part IV

Packaging Requirements

12. Quality assurance programmes
13. Testing
14. Notification and registration of serial numbers
15. Package inspection prior to shipment
16. Notification of shipment

Part V

General Carriage and Operating Requirements

17. General prohibitions
18. Suitability of freight containers, tank containers, tank wagons and wagons
19. Contents limits
20. Transport Index limits
21. Activity limits
22. Radiation level limits
23. Contamination level limits
24. Carriage in tanks
25. Prohibition on over-filling tank containers and tank wagons
26. Openings, valves and caps of tank containers and tank wagons to be securely closed
27. Carriage in bulk

Part VI

Loading and Unloading

28. Prohibition of mixed loading and segregation of radioactive material
29. Loading, stowage and unloading of radioactive material

Part VII

Security Measures and Emergency Arrangements

30. Safe carriage and security
31. Marshalling and formation of trains
32. Prevention of fire, explosion and leakage
33. Emergency arrangements

Part VIII

Information

34. Information to be displayed during carriage
35. Information to be compiled and provided by consignors
36. Carriage Information to be provided by operators
37. Keeping of Carriage Information
38. Keeping of other information
39. Information, instruction and training for train crews and other persons connected with the carriage of radioactive material

Part IX

Miscellaneous

40. Evaluation of radiation emissions
 41. Exemption certificates
 42. Defence
 43. International provisions
 44. Transitional defence
