

## SCHEDULE 4

### Gas Containers

#### Part I

##### **Construction, etc., of system**

10. A gas container propulsion system shall be—
  - (a) so placed or protected as not to be exposed to accidental damage and shall be soundly and properly constructed of suitable and well-finished materials capable of withstanding the loads and stresses likely to be met with in operation and shall be maintained in an efficient, safe and clean condition; and
  - (b) so designed and constructed that leakage of gas is not likely to occur under normal working conditions, whether or not the engine is running.
