## EXPLANATORY NOTE

*(This note is not part of the Regulations.)*

These Regulations, which amend the Food Labelling Regulations (Northern Ireland) 1996, as amended (“the principal Regulations”), implement Commission Directive [2001/101/EC](#) (O.J. No. L310, 28.11.2001, p. 19) as amended by Commission Directive [2002/86/EC](#) (O.J. No. L305, 7.11.2002, p. 19). Directive [2001/101/EC](#) amends Directive [2000/13/EC](#) of the European Parliament and of the Council on the approximation of the laws of the Member States relating to the labelling, presentation and advertising of foodstuffs. The Regulations allow use of the generic name “meat” with the name of the animal species from which it comes (or equivalent terms such as “pork” or “beef”) for skeletal muscles of mammalian and bird species in ingredients lists, subject to certain conditions (regulations 2, 3 and 5). The rules in regulation 19 of the principal Regulations on indications of quantities of certain ingredients or categories of ingredients apply in respect of that generic name. These Regulations also insert a transitional provision in respect of that generic name in implementation of Directive [2002/86/EC](#) for food sold before 1st July 2003 (regulation 4).
