## EXPLANATORY NOTE

*(This note is not part of the Regulations.)*

These Regulations modify Chapter 3 of Part III of the Pensions (Northern Ireland) Order 2005 (“the Order”) (pension protection provisions) as it applies where any liability to provide pensions or other benefits to or in respect of any member or members under an occupational pension scheme that is an eligible scheme (as defined in Article 110 of the Order) is discharged during an assessment period or on the day when that period will begin. An assessment period is defined in Article 116 of the Order and, broadly, is the period beginning with an insolvency event occurring in relation to a scheme’s employer and ending with either the Board of the Pension Protection Fund (“the Board”) assuming responsibility for the scheme or ceasing to be involved with it.

Most discharges of liability during an assessment period are prohibited under Article 119 of the Order. Regulations under Article 119(4) may allow transfers of, or transfer payments in respect of, members' rights and other steps to discharge liability in respect of rights to pensions or other benefits, and under Article 119(9) the Board may validate actions that would otherwise contravene Article 119. The modifications of the Order made by these Regulations apply in cases where a discharge occurs that is so allowed or validated (“a relevant discharge”).

Regulation 1 provides for citation, commencement and interpretation.

Regulation 2 modifies Articles 127 and 142 of the Order so that the actuarial valuations that are used to determine if the Board is to assume responsibility for a scheme under Article 111, 112 or 142 of the Order must take into account the effect of a relevant discharge that occurs before the valuation is approved by the Board. Article 127 is also modified so that the Board need not obtain such valuations if it considers that a relevant discharge may occur.

Regulation 3 inserts paragraph 23A into Schedule 6 to the Order to provide that where a relevant discharge occurs the compensation payable under that Schedule is determined on the basis that the discharge occurred immediately before the assessment period began, and the scheme rules provided for it to occur, and hence for the rights corresponding to the discharged liabilities to cease. Compensation payable before the discharge will not be affected. Similar provision is made for discharges of liability occurring on the assessment date, but before the assessment period begins.

The Pensions (2005 Order) (Commencement No. 1 and Consequential and Transitional Provisions) Order (Northern Ireland) 2005 ([S.R. 2005 No. 48 \(C. 5\)](#)) provides for the coming into operation of Article 151(1) of the Order, one of the enabling provisions under which these Regulations are made, for the purpose of authorising the making of regulations on 25th February 2005 and for all other purposes on 6th April 2005.

As these Regulations are made before the end of the period of six months beginning with the coming into operation of the provisions of the Order by virtue of which they are made, the requirement to consult under Article 289(1) of the Order does not apply by virtue of paragraph (2)(c) of that Article.
