1. Subject to paragraphs 2 and 3, the official controls charge payable by the operator of any premises for any accounting period shall be the lower of—

 - (i) the standard charge incurred in relation to those premises for that period, and
 - (ii) any additional charge incurred in relation to those premises for that period by virtue of paragraph 8; and
- (b) the time costs generated by those premises for that period.

2.—(1) This paragraph applies where the official controls charge calculated under paragraph 1 for any accounting period (amount A), when added to the official controls charge payable in respect of all earlier accounting periods falling within the same financial period (amount B), produces a total (amount C) which is greater than the amount of the official controls charge which would be payable under paragraph 1 if those accounting periods were one accounting period (amount D).

(2) Where this paragraph applies, the official controls charge payable by an operator for an accounting period shall be the amount by which amount D exceeds amount B.

(3) In this paragraph “financial period” means a period commencing on and including the Monday immediately following the last Sunday in March in any year and ending on the last Sunday in March in the following year.

5. The standard charge for any accounting period (expressed in Euros) payable by the operator of a game-handling establishment in respect of wild game dressed there during that period shall be calculated by multiplying the rate given in the following Table applicable to animals of a particular type by the number of animals of that type dressed there in the period.

7. The standard charge (expressed in Euros) shall be converted into sterling by multiplying it by the Euro / sterling conversion rate applicable in the year the official control was carried out.

8.—(1) Where in respect of an accounting period the Agency incurs increased costs because of inefficiency in the operation of premises, it may, in accordance with this paragraph, add an additional charge to the standard charge incurred in relation to the premises for that period.

(2) The additional charge shall be a sum equal to the time costs generated by the inefficiency for the accounting period concerned.

(3) The Agency may not make an additional charge in accordance with this paragraph unless it has notified the operator of its intention to do so.

(4) The notification referred to in sub-paragraph (3) shall be given as soon as is practicable after the Agency has concluded that it wishes to make an additional charge in accordance with this paragraph.

(7) Where, following any such review, it appears to the Agency and the operator that it is appropriate to do so, they may by further agreement vary any working hours or working practices agreed pursuant to sub-paragraph (6).

(8) Where any working hours or working practices have been varied pursuant to sub-paragraph (7) they shall be treated as having been agreed pursuant to sub-paragraph (6).

(9) No additional charge may be made in accordance with this paragraph in respect of any increased costs incurred because of any variation in working hours or working practices which does not alter the working hours or working practices which have been agreed in accordance with sub-paragraph (6).

9.—(1) An operator who does not agree that an additional charge is justified under paragraph 8 may request that the question be determined by a person nominated for the purpose pursuant to sub-paragraph (3)(a).

(2) A request under sub-paragraph (1) shall be made within 1 week of the Agency giving the operator notice under paragraph 8(3).

 - (ii) for which he is paid under his contract of employment or contract for services,shall be counted as if it were time when the inspector was exercising official controls.

13. The Agency shall determine the hourly rate applicable to inspectors, and may determine different rates for different inspectors or different classes of inspector, having regard to the level of qualifications and experience of different inspectors or classes of inspector and to the cost of exercising official controls by different inspectors or classes of inspector.

14. The hourly rate for any inspector or class of inspector shall be calculated so as to reflect—
