

SCHEDULE 1

PART II

Measures applied to adjust for additional needs

Population Adjustment Methodology

7. The Department shall adjust population to address—
 - (a) deprivation in a local government district, by taking the following steps—
 - (i) application of the employment scores with a 50 percent weighting and income scores with a 50 percent weighting, making an adjustment of the proportion that community services expenditure is to total expenditure;
 - (ii) application of the employment scores with a 100 percent weighting, making an adjustment for each of the proportion that economic development expenditure is to total expenditure;
 - (iii) application of the income scores with a 50 percent weighting, making an adjustment of the proportion that tourism expenditure is to total expenditure;
 - (b) an influx of additional population into a local government district, by taking the following steps—
 - (i) application of tourist bed-nights factors with a 50 percent weighting, making an adjustment of the proportion that tourism expenditure is to total expenditure;
 - (ii) application of tourist bed-nights factors with a 50 percent weighting and travel to work factors with a 50 percent weighting, making an adjustment of the proportion that other cleaning expenditure is to total expenditure; and
 - (c) sparsity in a local government district, by taking the following step—

application of mid-year population density data with a 25 percent weighting and private household data with a 75 percent weighting, making an adjustment of the proportion that waste collection expenditure is to total expenditure.
