
DRAFT SCOTTISH STATUTORY INSTRUMENTS

2011 No.

The Waste Management Licensing (Scotland) Regulations 2011

Conditions of site licences: incineration of waste industrial and automotive batteries

13.—(1) A site licence which is granted or varied by the waste regulation authority and which authorises the incineration of waste must contain conditions prohibiting the incineration of waste industrial and automotive batteries.

(2) Such conditions shall not prohibit the incineration of residues of any batteries that have undergone both treatment and recycling, provided that the treatment and recycling—

- (a) used best available techniques, in terms of the protection of health and the environment;
and
- (b) complied, as a minimum, with Community legislation, in particular as regards health and safety and waste management.
