Fire and rescue authority contributions

LA3.—(1) In each financial year a fire and rescue authority must transfer from the Firefighters’ Operating Account into the Firefighters’ Pension Account contributions (“fire and rescue authority employer contributions”) at the rate of 21.8% of the pensionable pay of a firefighter in respect of any period during which pension contributions are paid by the firefighter under rule G2(1)(18) or are treated as being so paid.

(2) For the purposes of paragraph (1), the periods during which pension contributions are treated as being paid by a firefighter are—

- (a) any period of unpaid maternity leave which falls within the first 26 weeks of any period of maternity leave;

(10) Where a fire and rescue authority continues to pay a pension in whole or in part in a case where they have a discretion to withdraw the whole or any part of that pension under rule K4 (withdrawal of pension during service as a regular firefighter) the fire and rescue authority must in a financial year transfer from the Firefighters’ Operating Account into the Firefighters’ Pension Account an amount equal to the amount of pension paid during that financial year to that firefighter.
