(2) Where a person refers a question relating to an invention under subsection (1)(a) above to the comptroller after an application for a patent for the invention has been filed and before a patent is granted in pursuance of the application, then, unless the application is refused or withdrawn before the reference is disposed of by the comptroller, the comptroller may, without prejudice to the generality of subsection (1) above and subject to subsection (6) below.—

- (6) Where on a reference under this section it is alleged that, by virtue of any transaction, instrument or event relating to an invention or an application for a patent, any person other than the inventor or the applicant for the patent has become entitled to be granted (whether alone or with any other persons) a patent for the invention or has or would have any right in or under any patent so granted or any application for any such patent, an order shall not be made under subsection (2)(a), (b) or (d) above on the reference unless notice of the reference is given to the applicant and any such person, except any of them who is a party to the reference.

20B Effect of reinstatement under section 20A U.K.

- (1) The effect of reinstatement under section 20A of an application for a patent is as follows.
- (2) Anything done under or in relation to the application during the period between termination and reinstatement shall be treated as valid.
- (3) If the application has been published under section 16 above before its termination anything done during that period which would have constituted an infringement of the rights conferred by publication of the application if the termination had not occurred shall be treated as an infringement of those rights—
 - (a) if done at a time when it was possible for the period referred to in section 20A(1) above to be extended, or
 - (b) if it was a continuation or repetition of an earlier act infringing those rights.
- (4) If the application has been published under section 16 above before its termination and, after the termination and before publication of notice of the request for its reinstatement, a person—
 - (a) began in good faith to do an act which would have constituted an infringement of the rights conferred by publication of the application if the termination had not taken place, or
 - (b) made in good faith effective and serious preparations to do such an act, he has the right to continue to do the act or, as the case may be, to do the act, notwithstanding the reinstatement of the application and the grant of the patent; but this right does not extend to granting a licence to another person to do the act.

[The right conferred by subsection (4) does not become exercisable until the end of the ^{F36}(4A) period during which a request may be made under this Act, or under the rules, for an extension of the period referred to in section 20A(1).]

- (5) If the act was done, or the preparations were made, in the course of a business, the person entitled to the right conferred by subsection (4) above may—
 - (a) authorise the doing of that act by any partners of his for the time being in that business, and
 - (b) assign that right, or transmit it on death (or in the case of a body corporate on its dissolution), to any person who acquires that part of the business in the course of which the act was done or the preparations were made.
- (6) Where a product is disposed of to another in exercise of a right conferred by subsection (4) or (5) above, that other and any person claiming through him may deal with the product in the same way as if it had been disposed of by the applicant.

[The above provisions apply in relation to the use of a patented invention for the ^{F37}(6A) services of the Crown as they apply in relation to infringement of the rights conferred by publication of the application for a patent (or, as the case may be, infringement of the patent).]

- (7) In this section “termination”, in relation to an application, means—
 - (a) the refusal of the application, or
 - (b) the application being treated as having been refused or withdrawn.]

 - (b) if the Secretary of State determines under paragraph (a) above that the publication of the application or the publication or communication of that information would be prejudicial to the safety of the public, he shall notify the comptroller who shall continue his directions under subsection (2) above until they are revoked under paragraph (e) below;

 - (d) if on consideration of an application at any time it appears to the Secretary of State that the publication of the application or the publication or communication of the information contained in it would not, or would no longer, be prejudicial to [^{F42}national security] or the safety of the public, he shall give notice to the comptroller to that effect; and
 - (e) on receipt of such a notice the comptroller shall revoke the directions and may, subject to such conditions (if any) as he thinks fit, extend the time for doing anything required or authorised to be done by or under this Act in connection with the application, whether or not that time has previously expired.
- (6) The Secretary of State may do the following for the purpose of enabling him to decide the question referred to in subsection (5)(c) above—

- (c) without prejudice to the foregoing, where the invention or any product obtained directly by means of the invention is a specified drug or medicine, may sell or offer to sell the drug or medicine;
- (d) may supply or offer to supply to any person any of the means, relating to an essential element of the invention, for putting the invention into effect;
- (e) may dispose or offer to dispose of anything which was made, used, imported or kept in the exercise of the powers conferred by this section and which is no longer required for the purpose for which it was made, used, imported or kept (as the case may be),

and anything done by virtue of this subsection shall not amount to an infringement of the patent concerned.

- (2) Any act done in relation to an invention by virtue of this section is in the following provisions of this section referred to as use of the invention; and “use”, in relation to an invention, in sections 56 to 58 below shall be construed accordingly.
- (3) So far as the invention has before its priority date been duly recorded by or tried by or on behalf of a government department or the United Kingdom Atomic Energy Authority otherwise than in consequence of a relevant communication made in confidence, any use of the invention by virtue of this section may be made free of any royalty or other payment to the proprietor.
- (4) So far as the invention has not been so recorded or tried, any use of it made by virtue of this section at any time either—
 - (a) after the publication of the application for the patent for the invention; or
 - (b) without prejudice to paragraph (a) above, in consequence of a relevant communication made after the priority date of the invention otherwise than in confidence;

- (5) Where an invention is used by virtue of this section at any time after publication of an application for a patent for the invention but before such a patent is granted, and the terms for its use agreed or determined as mentioned in subsection (4) above include terms as to payment for the use, then (notwithstanding anything in those terms) any such payment shall be recoverable only—

- (6) The authority of a government department in respect of an invention may be given under this section either before or after the patent is granted and either before or after the use in respect of which the authority is given is made, and may be given to any person whether or not he is authorised directly or indirectly by the proprietor of the patent to do anything in relation to the invention.
