Main charges and definitions

1 Charge on transfers.

[^{F1}Inheritance tax] shall be charged on the value transferred by a chargeable transfer.

Textual Amendments

F1 See Finance Act 1986 s. 100(1) and (2)—for any liability to tax arising on and after 25 July 1986 any reference in the legislation to capital transfer tax has effect as a reference to inheritance tax.

2 Chargeable transfers and exempt transfers.

- (1) A chargeable transfer is a transfer of value which is made by an individual but is not (by virtue of Part II of this Act or any other enactment) an exempt transfer.
- (2) A transfer of value made by an individual and exempt only to a limited extent—
 - (a) is, if all the value transferred by it is within the limit, an exempt transfer, and
 - (b) is, if that value is partly within and partly outside the limit, a chargeable transfer of so much of that value as is outside the limit as well as an exempt transfer of so much of that value as is within the limit.
- (3) Except where the context otherwise requires, references in this Act to chargeable transfers, to their making or to the values transferred by them shall be construed as including references to occasions on which tax is chargeable under Chapter III of Part III of this Act (apart from section 79), to their occurrence or to the amounts on which tax is then chargeable.

Status: Point in time view as at 18/11/2015.

Changes to legislation: There are currently no known outstanding effects for the Inheritance Tax Act 1984, PART I. (See end of Document for details)

3 Transfers of value.

- (1) Subject to the following provisions of this Part of this Act, a transfer of value is a disposition made by a person (the transferor) as a result of which the value of his estate immediately after the disposition is less than it would be but for the disposition; and the amount by which it is less is the value transferred by the transfer.
- (2) For the purposes of subsection (1) above no account shall be taken of the value of excluded property which ceases to form part of a person’s estate as a result of a disposition.
- (3) [^{F2} Where the value of a person's estate is diminished, and the value—
 - (a) of another person's estate, or
 - (b) of any settled property, other than settled property treated by section 49(1) below as property to which a person is beneficially entitled,
 is increased] by the first-mentioned person’s omission to exercise a right, he shall be treated for the purposes of this section as having made a disposition at the time (or latest time) when he could have exercised the right, unless it is shown that the omission was not deliberate.
- (4) Except as otherwise provided, references in this Act to a transfer of value made, or made by any person, include references to events on the happening of which tax is chargeable as if a transfer of value had been made, or, as the case may be, had been made by that person; and “transferor” shall be construed accordingly.

[^{F44}8A Transfer of unused nil-rate band between spouses and civil partners

- (1) This section applies where—
- immediately before the death of a person (a “deceased person”), the deceased person had a spouse or civil partner (“the survivor”), and
 - the deceased person had unused nil-rate band on death.
- (2) A person has unused nil-rate band on death if—

$M > VT$

where—

Status: Point in time view as at 18/11/2015.

Changes to legislation: There are currently no known outstanding effects for the Inheritance Tax Act 1984, PART I. (See end of Document for details)

M is the maximum amount that could be transferred by a chargeable transfer made (under section 4 above) on the person's death if it were to be wholly chargeable to tax at the rate of nil per cent. (assuming, if necessary, that the value of the person's estate were sufficient but [F45 that the maximum amount chargeable at nil per cent. under section 8D(2) is equal to the person's residence nil-rate amount and] otherwise having regard to the circumstances of the person); and

VT is the value actually transferred by the chargeable transfer so made (or nil if no chargeable transfer is so made).

- (3) Where a claim is made under this section, the nil-rate band maximum at the time of the survivor's death is to be treated for the purposes of the charge to tax on the death of the survivor as increased by the percentage specified in subsection (4) below (but subject to subsection (5) and section 8C below).
- (4) That percentage is—

$$\frac{E}{\text{NRBMD}} \times 100$$

where—

E is the amount by which M is greater than VT in the case of the deceased person; and

NRBMD is the nil-rate band maximum at the time of the deceased person's death.

- (5) If (apart from this subsection) the amount of the increase in the nil-rate band maximum at the time of the survivor's death effected by this section would exceed the amount of that nil-rate band maximum, the amount of the increase is limited to the amount of that nil-rate band maximum.
- (6) Subsection (5) above may apply either—
- (a) because the percentage mentioned in subsection (4) above (as reduced under section 8C below where that section applies) is more than 100 because of the amount by which M is greater than VT in the case of one deceased person, or
 - (b) because this section applies in relation to the survivor by reference to the death of more than one person who had unused nil-rate band on death.
- (7) In this Act “nil-rate band maximum” means the amount shown in the second column in the first row of the Table in Schedule 1 to this Act (upper limit of portion of value charged at rate of nil per cent.) and in the first column in the second row of that Table (lower limit of portion charged at next rate).

8B Claims under section 8A

- (1) A claim under section 8A above may be made—

Status: Point in time view as at 18/11/2015.

Changes to legislation: There are currently no known outstanding effects for the Inheritance Tax Act 1984, PART I. (See end of Document for details)

- (a) by the personal representatives of the survivor within the permitted period, or
 - (b) (if no claim is so made) by any other person liable to the tax chargeable on the survivor's death within such later period as an officer of Revenue and Customs may in the particular case allow.
- (2) If no claim under section 8A above has been made in relation to a person (P) by reference to whose death that section applies in relation to the survivor, the claim under that section in relation to the survivor may include a claim under that section in relation to P if that does not affect the tax chargeable on the value transferred by the chargeable transfer of value made on P's death.
- (3) In subsection (1)(a) above “the permitted period” means—
- (a) the period of two years from the end of the month in which the survivor dies or (if it ends later) the period of three months beginning with the date on which the personal representatives first act as such, or
 - (b) such longer period as an officer of Revenue and Customs may in the particular case allow.
- (4) A claim made within either of the periods mentioned in subsection (3)(a) above may be withdrawn no later than one month after the end of the period concerned.

8C Section 8A and subsequent charges

- (1) This section applies where—
- (a) the conditions in subsection (1)(a) and (b) of section 8A above are met, and
 - (b) after the death of the deceased person, tax is charged on an amount under any of sections 32, 32A and 126 below by reference to the rate or rates that would have been applicable to the amount if it were included in the value transferred by the chargeable transfer made (under section 4 above) on the deceased person's death.
- (2) If the tax is charged before the death of the survivor, the percentage referred to in subsection (3) of section 8A above is (instead of that specified in subsection (4) of that section)—

$$\left(\frac{E}{\text{NRBMD}} - \frac{\text{TA}}{\text{NRBME}} \right) \times 100$$

where—

E and NRBMD have the same meaning as in subsection (4) of that section;

TA is the amount on which tax is charged; and

NRBME is the nil-rate band maximum at the time of the event occasioning the charge.

Status: Point in time view as at 18/11/2015.

Changes to legislation: There are currently no known outstanding effects for the Inheritance Tax Act 1984, PART I. (See end of Document for details)

- (3) If this section has applied by reason of a previous event or events, the reference in subsection (2) to the fraction

$$\frac{\text{TA}}{\text{NRBME}}$$

is to the aggregate of that fraction in respect of the current event and the previous event (or each of the previous events).

- (4) If the tax is charged after the death of the survivor, it is charged as if the personal nil-rate band maximum of the deceased person were appropriately reduced.
- (5) In subsection (4) above—

“the personal nil-rate band maximum of the deceased person” is the nil rate band maximum which is treated by Schedule 2 to this Act as applying in relation to the deceased person's death, increased in accordance with section 8A above where that section effected an increase in that nil-rate band maximum in the case of the deceased person (as survivor of another deceased person), and

“appropriately reduced” means reduced by the amount (if any) by which the amount on which tax was charged at the rate of nil per cent. on the death of the survivor was increased by reason of the operation of section 8A above by virtue of the position of the deceased person.]
