[^{F12}5 Project licences: general

- (1) A project licence is a licence granted by the Secretary of State which specifies a programme of work and authorises the application, as part of that programme, of specified regulated procedures to animals of specified descriptions at a specified place or specified places.
- (2) A place may not be specified in a project licence unless it is a place at which a person is authorised by a section 2C licence to carry on an undertaking involving the applying of regulated procedures to protected animals.
- (3) But subsection (2) does not apply in any case in which it appears to the Secretary of State, on the basis of a scientific justification, that the programme or procedures authorised by the project licence require a different place to be specified.
- (4) In the circumstances set out in Article 40.4 of the Animals Directive, a project licence may specify a programme of work which consists of multiple generic projects.

Extent Information

E2 In its application to Northern Ireland, this section has effect subject to the modifications set out in s. 29, see s. 29(1)

 - (b) demonstrates that the proposed programme of work would be carried out in compliance with the principles of replacement, reduction and refinement.
- (3) A project summary must not contain—
 - (a) any information of a confidential nature or any information the publication of which may lead to the infringement of any person's intellectual property rights;

Changes to legislation: There are currently no known outstanding effects for the Animals (Scientific Procedures) Act 1986, Cross Heading: Personal and project licences. (See end of Document for details)

- (b) names or addresses or any other information from which the identity of the applicant or any other person can be ascertained.

- (a) the fact that the application is incomplete or incorrect;
 - (b) the additional information that needs to be provided by the applicant to complete or correct the application; and
 - (c) the fact that the period mentioned in subsection (7) will not begin until the Secretary of State has received the additional information.
- (5) Subsections (6) to (9) apply if the Secretary of State receives a complete and correct application for a project licence or receives information from an applicant that completes or corrects an application for a project licence.
- (6) The Secretary of State must as soon as practicable—
- (a) acknowledge receipt of the application or (as the case may be) receipt of the information; and
 - (b) inform the applicant of the effect of subsections (7) to (9).

 - (b) serve on the applicant a notice under section 12(1) indicating the Secretary of State's intention to refuse the project licence.
- (8) On one occasion within the period mentioned in subsection (7), the Secretary of State may by notice to the applicant extend the period by up to 15 working days.
- (9) The Secretary of State may exercise the power in subsection (8) only if, and to the extent that, the Secretary of State considers its exercise is justified by the complexity or multi-disciplinary nature of the proposed programme of work.

5B Determining an application: evaluation of the programme of work

- (1) A project licence must not be granted unless the Secretary of State has carried out in accordance with this section a favourable evaluation of the programme of work to be specified in the licence.
- (2) For this purpose, the evaluation of a programme of work is favourable only if it verifies—
- (a) that carrying out the programme of work is justified from a scientific or educational point of view or is required by law;

Changes to legislation: There are currently no known outstanding effects for the Animals (Scientific Procedures) Act 1986, Cross Heading: Personal and project licences. (See end of Document for details)

- (b) that the purposes of the programme of work justify the use of protected animals; and
 - (c) that the programme of work is designed so as to enable the regulated procedures applied as part of it to be applied in the most humane and environmentally sensitive manner possible.
- (3) In carrying out the evaluation of a programme of work the Secretary of State must—
- (a) evaluate the objectives of the programme of work and its predicted scientific benefits or educational value;
 - (b) assess the compliance of the programme of work with the principles of replacement, reduction and refinement;
 - (c) classify as “non-recovery”, “mild”, “moderate” or “severe” the likely severity of each regulated procedure that would be applied as part of the programme of work;
 - (d) carry out a harm-benefit analysis of the programme of work to assess whether the harm that would be caused to protected animals in terms of suffering, pain and distress is justified by the expected outcome, taking into account ethical considerations and the expected benefit to human beings, animals or the environment;
 - (e) assess any scientific justification which is relevant (by virtue of sections 5(3), 15A(7) or 17(2), paragraphs 1(4), 2(4) or 3(3) of Schedule 2B or paragraph 25(2), (3) or (5) of Schedule 2C) to the question of whether or on what terms a project licence may be granted in respect of the programme of work;
 - (f) assess whether there is any justification for an exemption under paragraph 26(2) of Schedule 2C;
 - (g) assess whether carrying out the programme of work would give rise to any scientific reason for an exemption under paragraph 11(5) of Schedule 2C;
 - (h) determine, on the assumption that a project licence is granted in respect of the programme of work, whether and (if so) when the programme should be retrospectively assessed under section 5F.
- (4) In carrying out the evaluation of a programme of work the Secretary of State must consider—
- (a) expertise in the area of science for which it is intended that protected animals will be used (including expertise in the application of the principles of replacement, reduction and refinement when working in that area of science);
 - (b) expertise in experimental design (including expertise in statistics where appropriate);
 - (c) expertise in veterinary practice in laboratory animal science or, where appropriate, expertise in wildlife veterinary practice;
 - (d) expertise in animal husbandry and care in relation to the species of protected animals that are intended to be used.
- (5) For the purposes of subsection (3)(c) a series of regulated procedures applied to an animal for a particular purpose is to be treated as constituting a single regulated procedure.
- (6) When classifying the likely severity of a regulated procedure under subsection (3)(c) the Secretary of State must use the criteria in Annex 8 of the Animals Directive.
- (7) The Secretary of State must determine that a programme of work should be retrospectively assessed under section 5F if the programme would involve—

Changes to legislation: There are currently no known outstanding effects for the Animals (Scientific Procedures) Act 1986, Cross Heading: Personal and project licences. (See end of Document for details)

- (a) the application of regulated procedures to primates; or
 - (b) the application of regulated procedures the likely severity of which has been classified under section (3)(c) as “severe”.
- (8) The evaluation of a programme of work must be carried out with a degree of detail appropriate for the type of programme and must be carried out in an impartial manner.
- (9) The Secretary of State must publish information as to the process by which he proposes to evaluate programmes of work under this section.
