CARE STANDARDS ACT 2000

EXPLANATORY NOTES

COMMENTARY ON SECTIONS

Part IV: Social Care Workers

Training

Section 65 Post registration training

166. It is common in other professions for continued registration with a regulatory body to be linked to continuing professional education and development. Continuing education is no less needed in social care, where safe, legal practice depends on an individual's updated knowledge of research advances and developments in best practice. *Section 65* therefore makes provision for the Council to be able to make rules requiring registered persons to undertake additional training. The Council will consult relevant persons before making or later varying these rules.
