## EXPLANATORY NOTES

### COMMENTARY

#### **Part 35: the Registrar of Companies**

#### **Delivery of documents to the registrar**

#### *Section 1070: Agreement for delivery by electronic means*

1375. This section sets out the power of the registrar to make agreements with companies to deliver information only electronically. The agreements could cover all documents (to the extent that electronic means of filing are available) or just selected documents. It is envisaged that the agreements will be in a standard form and contain detailed provisions for communications between the registrar and the company (including possible use of codes and encryption). The agreements need not be available to be entered into by everyone in the same form or at all.
