

SCHEDULES

SECOND SCHEDULE

GENEVA CONVENTION FOR THE AMELIORATION OF THE CONDITION OF WOUNDED, SICK AND SHIPWRECKED MEMBERS OF ARMED FORCES AT SEA

CHAPTER III.—HOSPITAL SHIPS

ARTICLE 22

Military hospital ships, that is to say, ships built or equipped by the Powers specially and solely with a view to assisting the wounded, sick and shipwrecked, to treating them and to transporting them, may in no circumstances be attacked or captured, but shall at all times be respected and protected, on condition that their names and descriptions have been notified to the Parties to the conflict ten days before those ships are employed.

The characteristics which must appear in the notification shall include registered gross tonnage, the length from stem to stern and the number of masts and funnels.

ARTICLE 23

Establishments ashore entitled to the protection of the Geneva Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field of 12th August, 1949, shall be protected from bombardment or attack from the sea.

ARTICLE 24

Hospital ships utilised by national Red Cross societies, by officially recognised relief societies or by private persons shall have the same protection as military hospital ships and shall be exempt from capture, if the Party to the conflict on which they depend has given them an official commission and in so far as the provisions of Article 22 concerning notification have been complied with.

These ships must be provided with certificates of the responsible authorities, stating that the vessels have been under their control while fitting out and on departure.

ARTICLE 25

Hospital ships utilised by national Red Cross societies, officially recognised relief societies, or private persons of neutral countries shall have the same protection as military hospital ships and shall be exempt from capture, on condition that they have placed themselves under the control of one of the Parties to the conflict, with the previous consent of their own governments and with the authorisation of the Party to the conflict concerned, in so far as the provisions of Article 22 concerning notification have been complied with.

Changes to legislation: There are currently no known outstanding effects for the Geneva Conventions Act 1957, CHAPTER III.—HOSPITAL SHIPS. (See end of Document for details)

ARTICLE 26

The protection mentioned in Articles 22, 24 and 25 shall apply to hospital ships of any tonnage and to their lifeboats, wherever they are operating. Nevertheless, to ensure the maximum comfort and security, the Parties to the conflict shall endeavour to utilise, for the transport of wounded, sick and shipwrecked over long distances and on the high seas only hospital ships of over 2,000 tons gross.

ARTICLE 27

Under the same conditions as those provided for in Articles 22 and 24 small craft, employed by the State or by the officially recognised lifeboat institutions for coastal rescue operations, shall also be respected and protected, so far as operational requirements permit.

The same shall apply so far as possible to fixed coastal installations used exclusively by these craft for their humanitarian missions.

ARTICLE 28

Should fighting occur on board a warship, the sick-bays shall be respected and spared as far as possible. Sick-bays and their equipment shall remain subject to the laws of warfare, but may not be diverted from their purpose, so long as they are required for the wounded and sick. Nevertheless, the commander into whose power they have fallen may, after ensuring the proper care of the wounded and sick who are accommodated therein, apply them to other purposes in case of urgent military necessity.

ARTICLE 29

Any hospital ship in a port which falls into the hands of the enemy shall be authorised to leave the said port.

ARTICLE 30

The vessels described in Articles 22, 24, 25 and 27 shall afford relief and assistance to the wounded, sick and shipwrecked without distinction of nationality.

The High Contracting Parties undertake not to use these vessels for any military purpose.

Such vessels shall in no wise hamper the movements of the combatants.

During and after an engagement, they will act at their own risk.

ARTICLE 31

The Parties to the conflict shall have the right to control and search the vessels mentioned in Articles 22, 24, 25 and 27. They can refuse assistance from these vessels, order them off, make them take a certain course, control the use of their wireless and other means of communication, and even detain them for a period not exceeding seven days from the time of interception, if the gravity of the circumstances so requires.

They may put a commissioner temporarily on board whose sole task shall be to see that orders given in virtue of the provisions of the preceding paragraph shall be carried out.

As far as possible, the Parties to the conflict shall enter in the log of the hospital ship, in a language he can understand, the orders they have given the captain of the vessel.

Parties to the conflict may, either unilaterally or by particular agreements, put on board their ships neutral observers who shall verify the strict observation of the provisions contained in the present Convention.

ARTICLE 32

Vessels described in Articles 22, 24, 25 and 27 are not assimilated to warships as regards their stay in a neutral port.

ARTICLE 33

Merchant vessels which have been transformed into hospital ships cannot be put to any other use throughout the duration of hostilities.

ARTICLE 34

The protection to which hospital ships and sick-bays are entitled shall not cease unless they are used to commit, outside their humanitarian duties, acts harmful to the enemy. Protection may, however, cease only after due warning has been given, naming in all appropriate cases a reasonable time limit, and after such warning has remained unheeded.

In particular, hospital ships may not possess or use a secret code for their wireless or other means of communication.

ARTICLE 35

The following conditions shall not be considered as depriving hospital ships or sick-bays of vessels of the protection due to them:

- (1) The fact that the crews of ships or sick-bays are armed for the maintenance of order, for their own defence or that of the sick and wounded.
- (2) The presence on board of apparatus exclusively intended to facilitate navigation or communication.
- (3) The discovery on board hospital ships or in sick-bays of portable arms and ammunition taken from the wounded, sick and shipwrecked and not yet handed to the proper service.
- (4) The fact that the humanitarian activities of hospital ships and sick-bays of vessels or of the crews extend to the care of wounded, sick or shipwrecked civilians.
- (5) The transport of equipment and of personnel intended exclusively for medical duties, over and above the normal requirements.

Changes to legislation:

There are currently no known outstanding effects for the Geneva Conventions Act 1957,
CHAPTER III.—HOSPITAL SHIPS.
