

Factories Act 1961

1961 CHAPTER 34

PART IV

HEALTH, SAFETY AND WELFARE (SPECIAL PROVISIONS AND REGULATIONS)

Special provisions

63 Removal of dust or fumes

- (1) In every factory in which, in connection with any process carried on, there is given off any dust or fume or other impurity of such a character and to such extent as to be likely to be injurious or offensive to the persons employed, or any substantial quantity of dust of any kind, all practicable measures shall be taken to protect the persons employed against inhalation of the dust or fume or other impurity and to prevent its accumulating in any workroom, and in particular, where the nature of the process makes it practicable, exhaust appliances shall be provided and maintained, as near as possible to the point of origin of the dust or fume or other impurity, so as to prevent its entering the air of any workroom.
- (2) No stationary internal combustion engine shall be used unless—
 - (a) provision is made for conducting the exhaust gases from the engine into the open air; and
 - (b) the engine (except when used for the purpose of being tested) is so partitioned off from any workroom or part of a workroom in which persons are employed, other than persons attending to the engine, as to prevent any injurious fumes from the engine entering the air of the room or part of the room.
