Provided that—

- (a) In the case of a policy other than a policy for the whole term of life issued before the person whose life is assured attained the age of ten years, the date of the policy may be assumed to be one year after the actual date, and, if it is so assumed, the term of the policy may be assumed to be one year less than the actual term:
- (b) In the case of a policy for the whole term of life issued before the person whose life is assured attained the age of ten years, no account shall be taken of any period for which the policy was in force before the anniversary of the date of the issue of the policy next preceding the date on which the age of eleven years was attained:
- (c) In the case of a substituted policy, the net premium shall be calculated with reference to such sum as, according to the practice of the society or company for the time being, would have been assured by the premiums payable if the person upon whose life the substituted policy is issued had not been assured with the society or company before the issue of that policy

- 4 In the case of a policy issued for a term other than the whole term of life, the remaining term at the date at which the value of the policy is required to be ascertained shall be obtained by deducting from the original term of the policy the duration of the policy in completed years at that date.
