General information about the school's examinations must also be provided (regulation 6 and Schedules 1 and 2).

The governing body of every maintained secondary school is required to provide certain information to parents on request (Part 1 of Schedule 2) and certain information in the school prospectus (Part 2

of Schedule 2) (regulation 5). The governing body's duties in relation to this apply only to the extent that information has been made available to it by the Secretary of State (regulation 9).

If the information in the school prospectus does not include the results of the examinations most recently held, those results must be published as a supplement when they become available and in any event at least two weeks before the time by which parents must apply for admission to or express a preference for a secondary school (regulation 8).

The governing body must publish with their annual report to parents corresponding local and national examination results if they are available at the time of the publication of the report (regulation 7).
