

## SCHEDULE 5

### PARTICULARS TO BE INCLUDED IN A SAFETY CASE FOR THE ABANDONMENT OF A FIXED INSTALLATION

7. A description of any pipe-line with the potential to cause a major accident, including—
  - (a) the fluid which it conveys;
  - (b) its dimensions and layout;
  - (c) its contained volume at declared maximum allowable operating pressure; and
  - (d) any apparatus and works intended to secure safety.
