

## SCHEDULE 1

Regulation 4

## EXCLUDED ELECTRICAL DEVICES

1. Any plug, socket or adaptor which incorporates any other electrical device (other than a F fuse link, switch or indicator light).
2. Any plug or socket forming part of a ceiling-rose connector (that is to say a connector designed to hold up overhead electric lighting fittings).
3. Any plug or socket forming part of a luminaire comprising a track system for electric lights and their fittings.
4. Any non-UK plug supplied loose which is manufactured to comply with the safety provisions of IEC 884-1 and which is marked with or accompanied by a warning that it is not suitable for connection to a mains socket in the United Kingdom.
5. Any non-rewirable or any moulded-on Europlug (that is to say any plug conforming with BS EN 50075) which is designed for the purpose of connecting to a shaver supply unit conforming to BS 3535: Part 1 any electrical shaver, toothbrush or similar appliance; and for the purposes of this paragraph the expression "shaver supply unit" shall have the meaning given to it in BS 3535: Part 1.
6. Any travel adaptor (that is to say an adaptor which enables a plug designed for use in the United Kingdom to be connected to a socket used outside the United Kingdom).

## SCHEDULE 2

Regulations 4 and 10

## SPECIFIED BRITISH STANDARDS

| (1)<br>Item No. | (2)<br>Electrical devices                                                                                         | (3)<br>British Standard |
|-----------------|-------------------------------------------------------------------------------------------------------------------|-------------------------|
| 1               | Standard plugs; sockets with which standard plugs may be engaged.                                                 | BS 1363.                |
| 2               | Round-pin plugs; sockets and adaptors with which round-pin plugs may be engaged.                                  | BS 546.                 |
| 3               | 2-pin reversible plugs and shaver sockets.                                                                        | BS 4573.                |
| 4               | Fuse links which are suitable for use in a standard plug.                                                         | BS 1362.                |
| 5               | Cartridge fuse-links (rated up to 5 amperes) which are suitable for use in a round-pin plug conforming to BS 546. | BS 646.                 |
| 6               | Adaptors except those in item 2.                                                                                  | BS 5733.                |

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

## SCHEDULE 3

Regulation 11

### EXCLUDED APPLIANCES

1. Any fixed luminaire, being a luminaire which cannot easily be moved from one place to another, either because it can only be removed with the use of a tool, or because it is intended for use out of easy reach.
2. Any ceiling-rose connector (that is to say a connector designed to hold up overhead electric lighting fittings).
3. Any electric light designed and intended to be located within a recess in a wall or ceiling.
4. Any appliance which is fitted with an rcd plug.
5. Any appliance which is fitted with a plug transformer.
6. Any appliance which is fitted with a plug other than a standard plug which is designed to engage with a compatible portable multiple socket outlet.
7. Any appliance which is intended to be permanently connected to the fixed wiring of the mains system other than by means of a plug and socket.
