 - (ii) shall exclude from that Quality of Service Report any matter which the Director directs should be excluded.

65.4 Notwithstanding paragraph 8 of this Licence, the Licensee shall offer to include, as a minimum, in each agreement between the Licensee and an Operator for the provision of any Standard Service or any Private Leased Circuit, or both, which is or are included in the Quality Schedule whether subsisting before the date on which this Condition comes into force or otherwise:

65.7 If, as a result of any investigation, assessment, examination or review referred to in paragraph 65.6, the Director is satisfied that the Licensee has done or is doing any of the things referred to in (a) and (b) of that paragraph or he has insufficient information to conclude whether or not the Licensee has done or is doing any of the things referred to in (a) and (b) of that paragraph, he may direct with effect from the date specified in the direction (not being a date earlier than the date of the direction), without prejudice to his other powers under this Licence, that the Quality Schedule shall be amended, provided that any direction given pursuant to this paragraph shall relate to the results of the relevant investigation, assessment, examination or review referred to in paragraph 65.6 in respect of which the direction is given and shall not require any change to the Quality Schedule beyond that reasonably required to remedy or prevent the undue preference or undue discrimination, or to remedy any defect in the procedures set out in the Quality Schedule, which shall have given rise to the lack of information revealed by the relevant investigation.

68.4 The Licensee’s obligations under this Condition consist solely of an obligation to provide funds for the Service and do not extend to either the provision of or funds for any textphones or other apparatus on the customer’s side of the Network Termination Point.

68.6 The financial limits referred to in paragraph 68.1 above for years subsequent to the year 1st August 1996 to 31st July 1997 shall be reviewed by the Director in consultation with the Licensee at the same time as the Director reviews the price control provisions contained in Condition 70, the Director first having given written notice to the Licensee of his intention to review those financial limits. In the absence of contrary agreement between the Director and the Licensee, the financial limit applicable to each of those subsequent years shall be the successive amounts produced by increasing the sum of £10 million year by year (that is to say, cumulatively) on 30th June 1994 and each anniversary of that date by the percentage equal to the amount of the change in the Retail Prices Index during each previous yearly period.

- (d) if the Controlling Percentage for that Year (established in accordance with paragraph 69.13) is zero or positive, any Percentage Change which has taken place in the aggregate of the relevant Charges (calculated in accordance with paragraphs 69.15 and 69.16) at the end of each Period does not constitute an increase by more than the Controlling Percentage; or
- (e) if that Percentage is negative, there is no Percentage Change in the aggregate of the relevant Charges by way of increase and, before the end of that Year, there is such a Change by way of reduction of not less than that Percentage.

69.7 Where, for the purpose of complying with paragraphs 69.6 to 69.21, the Licensee is required to reduce, or to limit any increase in, its Charges in any Relevant Year the Licensee shall take all reasonable steps to ensure that the combined effect on accrued revenue of the Licensee of all individual changes shall be no less than, in the case of a required reduction, that which would have been produced had all of those changes been made at exactly the same time and no later than on 1st April in that Year, or more than, in the case of a limited increase, that which would have been produced had all of those changes been made at exactly the same time and no earlier than on 1st April in that Year, and accordingly 1st April in that Year shall be the latest or, as the case may be, earliest weighted average date (within the meaning of paragraph 69.8) in that Year for the purposes of the making of reductions or increases in Charges. For the purpose of establishing whether or not the Licensee has complied with the obligation imposed on it by this paragraph, a calculation shall be carried out by employing the formula set out in paragraph 69.8.

69.8 The formula mentioned in paragraph 69.7 is:

$$WAD = \sum_{i=1}^n \frac{R_i}{RC} \times D_i \leq 0$$

Where:

- WAD = the weighted average date
- R_i = the revenue change associated with the i th price change made in the Relevant Year
- RC = the total revenue change required in the Relevant Year to achieve compliance with paragraph 69.6
- D_i = the date on which the i th price change takes effect expressed as a numeric entity on a scale ranging from 1st October = -182 to 30th September = -183, except in a leap year when 1st October = -183

n = number of price changes during the Relevant Year.

69.9 To the extent that the Licensee has made, during any Relevant Year, any changes in Charges beyond those necessary for compliance with paragraph 69.6, those changes shall be relevant in applying paragraphs 69.7 and 69.8 to changes in the Relevant Year immediately following the Relevant Year in which those changes were made. In applying the formula referred to in paragraph 69.8 to such changes, subject to paragraph 69.10, that formula shall apply with the meaning of D_i amended as follows:

D_i = the date on which the i th price change takes effect expressed as a numeric entity on a scale ranging from 1st October = -547 to 30th September = -183, except in a leap year when 1st October = -548, or in a year which precedes a leap year when 1st October = -548 and 30th September = -184.

69.10 If, in relation to any change in Charges to which paragraph 69.9 applies, the Director is of the opinion that D_i should not equal the date on which that change takes effect as described in that paragraph, but should equal 1st October in the immediately following Relevant Year (expressed as a numeric entity where 1st October = -182, or in a leap year -183), he shall so direct the Licensee as soon as practicable after receipt by the Director of notification by the Licensee of the change. Where the Director has given such a direction the formula referred to in paragraph 69.8 shall apply with D_i = -182, or in a leap year -183 to any change in Charges to which that direction relates.

69.11 Where, notwithstanding the obligation imposed on the Licensee by paragraph 69.6, there has taken place a change in Charges of a kind not permitted under paragraph 69.6(d) or 69.6(e), the Licensee shall make such adjustments in Charges (or leave them unchanged), for the period, whether in the year in question or the following year (and whether or not that year is a Relevant Year), as may be reasonably required to satisfy the Director that the matter has been remedied. Such adjustments shall not be relevant for the purpose of establishing compliance with paragraph 69.6 in a following Relevant Year.

69.12 Where notwithstanding the obligation imposed on the Licensee by paragraph 69.7, the effect on accrued revenue of the changes in Charges fails, in the opinion of the Director, to meet the requirements of that paragraph, the Licensee shall make such adjustments in Charges (or leave them unchanged), for the period, whether in the year in question or the following year (and whether or not that year is a Relevant Year), as may be reasonably required to satisfy the Director that the matter has been remedied.

69.13 Subject to paragraphs 69.14, 69.18 and 69.19, the Controlling Percentage in relation to any Relevant Year is the amount of the change in the Retail Prices Index in the period of 12 months ending on 30 June immediately before the beginning of that Year, expressed as a percentage (rounded to two decimal places) of that Index as at the beginning of that period ("RPI"), reduced by 8.

69.14 If the difference between Charges at the beginning and at the end of any Relevant Year is such that the relevant Percentage Change is less (in the case of a permitted increase), or greater (in the case of a required reduction), than the change permitted, or required, in accordance with paragraph 69.6, then the Controlling Percentage for the following Relevant Year shall be established in accordance with paragraph 69.13, but increased by the amount of such deficiency or excess (as the case may be).

69.15 Unless the Director directs with respect to any particular Charge that an alternative method or period other than the Relevant Financial Year be used in any Relevant Year, the amount of a Percentage Change which has taken place at any time during a Relevant Year shall be the amount of the change in each Charge which has taken place between the beginning of the Relevant Year and that time, multiplied by the amount of the revenue reasonably believed by the Licensee to have accrued during the Relevant Financial Year in

Status: This is the original version (as it was originally made).

respect of the Standard Service for which that Charge is charged, dividing in each case the amounts so produced by the Charge at the beginning of the Relevant Year for the Service to which each such amount relates, and taking the aggregate of the results, expressed as a percentage of all the revenue reasonably believed to have accrued for the relevant Standard Services during the Relevant Financial Year. The Director may direct that an alternative method or period be used where, in his opinion, the method (or period) set out in this paragraph would not accurately reflect the change in the Charge in question.

69.16 Notwithstanding paragraph 69.15, if the Licensee has notified the Director in writing both of its intention to increase during a Period one or more Charges and of its intention within three months of the first such increase to reduce one or more Charges then, unless:

- (a) the Director dissents within 28 days of such notification on the ground that undue advantage is being taken of this paragraph; or
- (b) the reduction as so notified is not introduced;

for the purposes of paragraph 69.15, when determining the amount of a Percentage Change which has taken place at the end of the said Period and each subsequent Period, it shall be assumed that any such reduction had taken place during the first mentioned Period.

69.17 Where the Licensee makes a material change (other than to a Charge) to any Service for which a Charge is charged or to the date on which its financial year ends or there is a material change in the basis of the Retail Prices Index, paragraphs 69.6 to 69.21 shall have effect subject to such reasonable adjustment to take account of the change as the Director may determine to be appropriate in the circumstances. For the purposes of this paragraph a material change to any Service includes the introduction of a new Service wholly or substantially in substitution for that existing Service.

69.18 If the Licensee imposes a specific charge or an increased charge in relation to any goods or service which up to the time when the charge or increased charge is first imposed had been provided without charge or at a lower charge and the Director determines that some or all of the costs properly attributable to that service had previously been attributed to services to which paragraph 69.6 applies and that it would be proper in the circumstances for the newly introduced or increased charge to be controlled, that charge shall, unless the Director determines otherwise, be a Charge within the same relevant paragraph 69.6(a), 69.6(b) or 69.6(c) and this Condition shall have effect subject to the following provisions:

- (a) the Licensee shall produce a forecast of the revenue expected to accrue as a result of the Charge or increased Charge for the goods or service over the period of twelve months from the date of introduction or increase of the Charge;
- (b) the forecast shall be expressed as a percentage of the total amount of revenue reasonably believed by the Licensee to have accrued in respect of the relevant aggregate Charges during the Relevant Financial Year which relates to the Relevant Financial Year during which the Charge is introduced or increased;
- (c) the Controlling Percentage for that Relevant Year shall be reduced by that percentage;
- (d) an adjustment shall be made to the Controlling Percentage for that Relevant Year in respect of which it is first possible, from the Relevant Financial Year accounts, to take into account a comparison between the first twelve months' actual accrued revenue from the Charge and the forecast referred to in sub-paragraph (a), whereby the Controlling Percentage for that Relevant Year shall be increased or reduced (as the case may be) by the difference between the forecast amount referred to in sub-paragraph (a) and the amount of actual accrued revenue (the difference to be expressed as a percentage of the total amount of revenue

accrued in respect of the relevant aggregate Charges during the Relevant Financial Year which relates to that Relevant Year);

- (e) further adjustments shall be made to the Controlling Percentage referred to in sub-paragraph (d):
 - (i) where there is any difference between the forecast referred to in sub-paragraph (a) and the actual accrued revenue referred to in sub-paragraph (d), in order to compensate for the extent to which, by virtue of that difference, Charges in previous Relevant Years have been too high or too low (as the case may be), and
 - (ii) where there has been any variation in the Charge for the goods or service between the Relevant Year referred to in sub-paragraph (b) and the Relevant Year referred to in sub-paragraph (d) which the Director, after consultation with the Licensee, determines should be taken into account for the purposes of calculating the Controlling Percentage; and
- (f) the adjustments referred to in sub-paragraphs (d) and (e) shall be made in the manner which the Director determines to be appropriate in the circumstances.

69.19 If the Charge or increased Charge for any goods or service covered by paragraph 69.18 is altered following its introduction but before the adjustment referred to in paragraph 69.18(d) can be made then, in respect of that Charge, in calculating the amount of a Percentage Change under paragraph 69.15, the forecast set out in paragraph 69.18(a) shall be substituted for the amount referred to in paragraph 69.20(a).

69.20 The Licensee shall no later than the time at which it notifies or should have notified the Director under paragraph 69.4 of any change to any Charge inform the Director in writing of:

- (a) the amount of revenue which the Licensee reasonably believes to have accrued in the Relevant Financial Year for each Service in respect of which a Charge is charged; and
- (b) the amount of each Charge at the beginning of the Relevant Year.

69.21 The Licensee shall as soon as practicable after the end of each Period in which there has been a change in a Charge inform the Director in writing of:

- (a) the changes made or new charges imposed in relation to any other Charge in the same group of aggregate Charges, whether under paragraph 69.6(a), 69.6(b) or 69.6(c), during that Period specifying its nature and amount and the Service for which the Charge is charged; and
- (b) the amount of the Percentage Change in the relevant aggregate Charges which has taken place during the Period and whether by way of increase or reduction.

69.22 The Licensee shall secure that each discrete charge for any Prospectively Competitive Standard Service, including charges disaggregated by time of day, distance or route, namely:

- (a) Inter-tandem Conveyance Standard Services;
- (b) Inter-tandem Transit Conveyance Standard Services;
- (c) international direct dialled Conveyance Standard Services; and
- (d) directory information Standard Services, namely, the non-conveyance element of the directory enquiry service and the international directory enquiry service, entries on to NIS/OSIS, use of the directory assistance database (DAS), supply of phonebooks and supply of customised phonebooks,

Status: This is the original version (as it was originally made).

does not increase in the first Relevant Year from the Interim Charge (or, in the case of sub-paragraph (d), the amount applied to a non-conveyance element thereof) determined by the Director under this Condition in effect on 30th September 1997 for the year ending 31st March 1998 (to which the retail tariff gradient in effect on 1st October 1997 has been applied by more than RPI and during any following Relevant Year by more than RPI (taking out of account, where applicable, any payment by the Licensee to a person operating a telecommunication system outside the United Kingdom). For the purposes of compliance with this paragraph:

- (e) the Licensee shall secure that any increase of a charge shall be proportionately no more than the proportion of RPI which is derived by multiplying RPI by a fraction, the numerator of which is the number of days which have elapsed from the beginning of the Relevant Year to the effective date of the charge change and the denominator of which is 365 (or, in a leap Year, 366), plus any proportion of RPI in previous Relevant Years which has not been taken up by charge increases; and
- (f) the charges for the Services described in sub-paragraph (b) shall be deemed to be in each case the charge that the Licensee would offer to or charge an Operator for the Service in question if the amount applied to product management, policy and planning (PPP) were taken out of account.

69.23 Except to the extent the Director otherwise consents (on the grounds that the quality and security of the Service would be endangered), the Licensee shall secure that each discrete charge for the non-conveyance element of a Public Emergency Call Service does not increase from the amount applied to that element of the Interim Charge for access to emergency operator assistance determined by the Director under this Condition in effect on 30th September 1997 for the year ending 31st March 1998 during any Relevant Year by more than RPI as specified in paragraph 69.22(e).

69.24 Paragraphs 69.6 to 69.22 shall not apply to such extent as the Director may determine.

69.25 This Condition shall be without prejudice to the powers of the Director elsewhere under this Licence to determine:

- (a) Final Charges for the financial years ending on 31st March 1996, 31st March 1997 and 31st March 1998 (where Interim Charges were determined before 1st October 1997);
- (b) Interim Charges for the financial year ending on 31st March 1998; and
- (c) any requests for determination or waiver made before 1st October 1997 (which are not withdrawn);

and shall be without prejudice to any related obligations of the Licensee in Condition 78 in effect on 30th September 1997, except that:

- (d) in the case of the determination of Final Charges for the year ending on 31st March 1998 the determination shall:
 - (i) be based on the audited information appearing by virtue of Conditions 69.8 and 69.10 in effect on 1st October 1997 in the Licensee's Interim Financial Statement for the relevant Businesses for the financial year ending on 31st March 1998; and
 - (ii) apply only to the period from 1st April 1997 to 30th September 1997;
- (e) where a tariff gradient is applied to the charges for Standard Services in effect on 1st October 1997, that gradient shall be the Licensee's retail tariff gradient in effect on that date; and

- (f) charges for Standard Services in effect on 1st October 1997 shall be subject to paragraphs 69.4 and 69.5 and Conditions 47.7, 47.8 and 47.9.

CONTROL OF GENERAL PRICES

70.1 The Licensee shall take all reasonable steps to secure that, during any Relevant Year, the amount of General Prices remains such that:

- (a) if the Controlling Percentage for that Year (determined in accordance with paragraph 70.9) is zero or positive, any Percentage Change which has taken place in the aggregate of all General Prices (determined in accordance with paragraphs 70.11 and 70.12) at the end of each Period does not constitute an increase by more than the Controlling Percentage; or
- (b) if that Percentage is negative, there is no Percentage Change in General Prices by way of increase and, before the end of that Year, there is such a Change by way of reduction of not less than that Percentage.

70.2 Where, for the purpose of complying with this Condition, the Licensee is required to reduce, or to limit any increase in, its General Prices in any Relevant Year the Licensee shall take all reasonable steps to ensure that the combined effect on accrued revenue of the Licensee of all individual changes in General Prices shall be no less than, in the case of a required reduction, that which would have been produced had all of those changes been made at exactly the same time and no later than on 1st February in that Year, or more than, in the case of a limited increase, that which would have been produced had all of those changes been made at exactly the same time and no earlier than on 1st February in that Year, and accordingly 1st February in that Year shall be the latest or, as the case may be, earliest weighted average date (within the meaning of paragraph 70.3) in that Year for the purposes of the making of reductions or increases in General Prices. For the purpose of establishing whether or not the Licensee has complied with the obligation imposed on it by this paragraph, a calculation shall be carried out by employing the formula set out in paragraph 70.3.

70.3 The formula mentioned in paragraph 70.2 is—

$$\text{WAD} = \sum_{i=1}^n \frac{R_i}{\text{RC}} \times D_i \leq 0$$

Where:

- WAD = the weighted average date
- R_i = the revenue change associated with the i th price change made in the Relevant Year
- RC = the total revenue change required in the Relevant Year to achieve compliance with paragraph 70.1
- D_i = the date on which the i th price change takes effect expressed as a numeric entity on a scale ranging from 1st August = -184 to 31st July = 180, except in a leap year when 31st July = 181.

70.4 To the extent that the Licensee has made, during any Relevant Year, any reductions in General Prices beyond those necessary for compliance with this Condition, or, as the case may be, any increases in such Prices less than those permitted, those changes shall be relevant in applying paragraphs 70.2 and 70.3 to price changes in the Relevant Year immediately following the Relevant Year in which those changes were made. In applying the formula referred to in paragraph 70.3 to such changes, subject to paragraph 70.5, that formula shall apply with the meaning of D_i amended as follows:

Status: This is the original version (as it was originally made).

D_i = the date on which the i th price change takes effect expressed as a numeric entity on a scale ranging from 1st August = -549 to 31st July = -185, except in a leap year when 1st August = -550.

70.5 If, in relation to any change in General Prices to which paragraph 70.4 applies, the Director is of the opinion that D_i should not equal the date on which that price change takes effect as described in that paragraph, but should equal 1st August in the immediately following Relevant Year (expressed as a numeric entity where 1st August = -184), he shall so direct the Licensee as soon as practicable after receipt by the Director of notification by the Licensee of the price change and the Director shall include in his direction the reasons for his opinion. Where the Director has given such a direction the formula referred to in paragraph 70.3 shall apply with $D_i = -184$ to any change in General Prices to which that direction applies.

70.6 Where the Licensee decides that a charge (or group of charges) for any of the things included within the definition of General Prices is to be offered only:

- (a) in combination with another such charge (or group of charges) or with an additional periodic fee; and
- (b) in two or more such combinations,

the Licensee shall nominate one charge (or group of charges) in such combinations (including the fee, if any) to be the General Price for the purposes of this Condition (the Reference Price). The Licensee shall offer the Reference Price for the conveyance of Messages to residential customers in combination with the Reference Price for the use and Ordinary Maintenance of residential Exchange Lines.

70.7 Where, notwithstanding the obligation imposed on the Licensee by paragraph 70.1 (or paragraph 70.1 of Condition 70 having effect on 31st July 1997), there has taken place a change in General Prices (or General Prices as defined in that Condition 70) of a kind not permitted under paragraph 70.1(a) or 70.1(b) (or paragraph 70.1(a) or 70.1(b) of Condition 70 having effect on 31st July 1997), the Licensee shall make such adjustments in General Prices (or leave them unchanged), for such period, whether in the year in question or the following year (and whether or not that year is a Relevant Year), as may be reasonably required to satisfy the Director that the matter has been remedied. Such adjustments shall not be relevant for the purposes of establishing compliance with paragraph 70.1 in a following Relevant Year.

70.8 Where, notwithstanding the obligation imposed on the Licensee by paragraph 70.2 (or paragraph 70.1(a) of Condition 70 having effect on 31st July 1997), the effect on accrued revenue of the changes in General Prices (or General Prices as defined in that Condition 70) fails, in the opinion of the Director, to meet the requirements of that paragraph, the Licensee shall make such adjustments in General Prices (or leave them unchanged), for such period, whether in the year in question or the following year (and whether or not that year is a Relevant Year), as may be reasonably required to satisfy the Director that the matter has been remedied.

70.9 Subject to paragraphs 70.10, 70.14 and 70.15 and Conditions 74.4 and 74.5, the Controlling Percentage in relation to any Relevant Year is the amount of the change in the Retail Prices Index in the period of 12 months ending on 30 June immediately before the beginning of that Year, expressed as a percentage (rounded to two decimal places) of that Index as at the beginning of that period ("RPI"), reduced by 4.5.

70.10 If the difference between General Prices charged at the beginning and at the end of any Relevant Year is such that the relevant Percentage Change in General Prices is less (in the case of a permitted increase), or greater (in the case of a required reduction),

than the change permitted, or required, in accordance with paragraph 70.1, then the Controlling Percentage for the following Relevant Year shall be determined in accordance with paragraph 70.9 but increased by the amount of such deficiency or excess (as the case may be).

70.11 The amount of a Percentage Change in General Prices which has taken place at any time during a Relevant Year is determined by taking the amount of the change in each General Price which has taken place between the beginning of the Relevant Year and that time, multiplying that amount by the amount of the revenue reasonably believed by the Licensee to have accrued during the Relevant Financial Year in respect of the service for which that Price is charged from customers whose bills from the Licensee are equal to or less than the Threshold, dividing in each case the amounts so produced by the Price charged at the beginning of the Relevant Year for the service to which each such amount relates, and taking the aggregate of the results, expressed as a percentage of all the revenue reasonably believed to have accrued for such services from such customers during the Relevant Financial Year. The Threshold is the highest bill of residential customers in the eighth decile of all residential customers (ranked on the basis of the amount billed by the Licensee to all residential customers for the services for which General Prices are charged, the highest bill being at the top of the tenth decile) in the Relevant Financial Year.

70.12 Notwithstanding paragraph 70.11, if the Licensee has notified the Director in writing both of its intention to increase during a Period one or more General Prices and of its intention within three months of the first such increase to reduce one or more General Prices then, unless:

- (a) the Director dissents within 28 days of such notification on the ground that undue advantage is being taken of this paragraph; or
- (b) the reduction as so notified is not introduced,

for the purposes of paragraph 70.11, when determining the amount of a Percentage Change which has taken place at the end of the said Period and each subsequent Period, it shall be assumed that any such reduction had taken place during the first mentioned Period.

70.13 Where the Licensee makes a material change (other than to the amount of a General Price) to any service for which a General Price is charged or to the date on which its financial year ends or there is a material change in the basis of the Retail Prices Index, this Condition shall have effect subject to such reasonable adjustment to take account of the change as the Director may, after consultation with the Licensee, determine to be appropriate in the circumstances; and for the purposes of this paragraph a material change to any service includes the introduction of a new service wholly or substantially in substitution for that existing service.

70.14 If the Licensee imposes a specific charge or an increased charge in relation to any goods or service which up to the time when the charge or increased charge is first imposed had been provided without charge or at a lower charge and the Director determines, after consultation with the Licensee, that some or all the costs properly attributable to that service had previously been attributed to services to which General Prices apply and that it would be proper in the circumstances for the newly introduced or increased charge to be controlled, that charge shall, unless the Director determines otherwise, be a General Price and this Condition shall have effect subject to the following provisions:

- (a) the Licensee shall produce a forecast of the revenue expected to accrue as a result of the charge or increased charge for the goods or service over a period of twelve months from the date of introduction or increase of the charge;
- (b) the forecast shall be expressed as a percentage of the total amount of revenue reasonably believed by the Licensee to have accrued in respect of General Prices

Status: This is the original version (as it was originally made).

- during the Relevant Financial Year which relates to the Relevant Year during which the charge is introduced or increased;
- (c) the Controlling Percentage for that Relevant Year shall be reduced by that percentage;
 - (d) an adjustment shall be made to the Controlling Percentage for that Relevant Year in respect of which it is first possible, from the Relevant Financial Year accounts, to take into account a comparison between the first 12 months' actual accrued revenue from the charge and the forecast referred to in sub-paragraph (a), whereby the Controlling Percentage for that Relevant Year shall be increased or reduced (as the case may be) by the difference between the forecast amount referred to in sub-paragraph (a) and the amount of actual accrued revenue (the difference to be expressed as a percentage of the total amount of revenue accrued in respect of General Prices during the Relevant Financial Year which relates to that Relevant Year);
 - (e) further adjustments shall be made to the Controlling Percentage referred to in sub-paragraph (d) and adjusted as specified therein:
 - (i) where there is any difference between the forecast referred to in sub-paragraph (a) and the actual accrued revenue referred to in sub-paragraph (d), in order to compensate for the extent to which, by virtue of that difference, General Prices in previous Relevant Years have been too high or too low (as the case may be); and
 - (ii) where there has been any variation in the charge for the service between the Relevant Year referred to in sub-paragraph (b) and the Relevant Year referred to in sub-paragraph (d) which the Director, after consultation with the Licensee, determines should be taken into account for the purposes of calculating the Controlling Percentage; and
 - (f) the adjustments referred to in sub-paragraphs (d) and (e) shall be made in the manner which the Director determines to be appropriate in the circumstances, after consultation with the Licensee.

70.15 If the charge or increased charge for any goods or service covered by paragraph 70.14 is altered following its introduction but before the adjustment referred to in paragraph 70.14(d) can be made then, in respect of that charge, in calculating the amount of a Percentage Change in General Prices in paragraph 70.11, the forecast set out in paragraph 70.14(a) shall be substituted for the amount referred to in paragraph 70.16(a).

70.16 The Licensee shall no later than the time at which it notifies or should have notified the Director under Condition 7 of any amendment of any charge which is a General Price inform the Director in writing of:

- (a) the amount of revenue which the Licensee reasonably believes to have accrued in the Relevant Financial Year for each service in respect of which a General Price is charged; and
- (b) the amount of each General Price at the beginning of the Relevant Year.

70.17 Without prejudice to its obligations under Condition 7 in relation to General Prices, the Licensee shall as soon as practicable after the end of each Period in which there has been a change in a General Price inform the Director in writing of:

- (a) the changes made or new charges imposed in relation to any General Price during the Period specifying its nature and amount and the service for which the Price is charged; and

- (b) the amount of the Percentage Change in General Prices which has taken place during the Period and whether by way of increase or reduction.

70.18 In this Condition any reference to “service” which is not part of the expression “goods or service” shall be taken to include a reference to goods for the purposes of paragraphs 70.14 and 70.15. References to accrued revenue are references to the revenue attributable to General Prices but with the addition of the revenue attributable to Discounted General Prices where the revenue is grossed up so as to leave the discount out of account (or grossed down where the revenue is greater than that attributable to the relevant General Price), and cognate expressions shall be construed accordingly.

70.19 This Condition shall not apply to such extent as the Director may determine upon request by the Licensee.

FURTHER PROVISIONS RELATING TO GENERAL PRICES

71.1 In this Condition:

- (a) a “General Price (Type A)” means a proposed General Price which is less than the aggregate (the “Aggregate Cost”) of the Retail Cost, the Delivery Outpayment Cost (if applicable), the Conveyance Outpayment Cost (if applicable) and the Network Cost which are attributable in each case to the provision of the relevant Retail Service before the implementation of the proposed change in General Price;

other than a proposed General Price which is less than the Aggregate Cost:

- (i) as a result of the application of any law (including a regulatory control, which includes a voluntary commitment in the nature of a regulatory control) other than the provisions of Condition 70.1 to 70.13 as a result of any regulatory or other action by Government, by the Director or by any other regulatory agent but is set at the highest level to which the Licensee is permitted to raise that General Price; or
 - (ii) for any reason, but which would be greater than the General Price before the implementation of the proposed change in General Price; and
- (b) a “General Price (Type B)” means a proposed General Price which is not a General Price (Type A).

71.2 The Licensee shall, as soon as practicable after the coming into force of this Condition, publish in accordance with paragraphs 71.7 and 71.8 details of the matters which it and the Director have agreed, on or before the date on which this Condition comes into force, should be excluded from the definition of “General Price” in paragraph 71.1.

71.3 Where the Licensee proposes a change to a General Price, whether through the introduction of a Special Offer or otherwise, it shall send to the Director, in the manner and at the time specified in paragraphs 71.7 and 71.8 as the case may be, a written notice (a “Price Change Notice”) specifying:

- (a) the General Price before the implementation of the proposed change in that General Price;
- (b) the General Price after the implementation of the proposed change in that General Price;
- (c) the following elements attributable to the provision of the relevant Retail Service both before the implementation of the proposed change in that General Price and after the implementation of that proposed change identifying separately:
 - (i) the Retail Cost;
 - (ii) the Delivery Outpayment Cost (if applicable);

Status: This is the original version (as it was originally made).

- (iii) the Conveyance Outpayment Cost (if applicable);
- (iv) the Network Cost showing separately the Transfer Charge for each Network Component and each Network Part used for the provision of the relevant Retail Service;
- (d) in the case of a change in a proposed General Price through the introduction of a Special Offer, the period of time not exceeding three months for which the Licensee proposes to offer the new General Price; and
- (e) any charge for a Standard Service which the Licensee is required to notify to an Operator in accordance with paragraph 71.11 or 71.14.

71.4 In the case of a General Price (Type A) the Licensee shall send the Price Change Notice to the Director before the publication of any notice required under Condition 7, 55 or 58 as the case may be of a change in a General Price. The Licensee shall not publish a notice pursuant to Condition 7 relating to the proposed new General Price or make that new General Price available to any customer unless the Director has given his prior written consent, which shall not be unreasonably withheld.

71.5 In the case of a General Price (Type B) the Licensee shall send the Price Change Notice to the Director as soon as reasonably practicable before it publishes any notice required under Condition 7, 55 or 58 as the case may be of the change in the General Price.

71.6 As soon as the Licensee becomes aware that the Delivery Outpayment Cost attributable to the provision of a Retail Service, assessed in the manner notified by the Director to the Licensee from time to time as an average over a period of three months, has for any reason been at a level such that had the General Price for that Retail Service been a proposed General Price it would have been a General Price (Type A), the Licensee shall, as soon as practicable after it has become so aware, send to the Director a Price Change Notice. Following receipt of the Price Change Notice, the Director may direct the Licensee to increase that General Price to a level not above the level at which, had that General Price been a proposed General Price it would have been a General Price (Type B) and, notwithstanding Condition 70, the Licensee shall increase that General Price accordingly.

71.7 Subject to paragraph 71.9, the Licensee shall send a copy of the Price Change Notice to any person who may (after the publication of the notice in accordance with Condition 7, 55 or 58 as the case may be of a change in a General Price) request one, on payment of a reasonable charge. The Licensee shall, subject to paragraph 71.9, send a copy of the Price Change Notice so requested within seven working days after receiving payment of that charge.

71.8 At the same time as the Licensee publishes a notice in accordance with Condition 7, 55 or 58 as the case may be of a change in General Price, it shall make available and continue to make available in a publicly accessible part of every Major Office of the Licensee in the place as is required by Condition 7, 55 or 58 as the case may be a notice of the address and telephone number of the person to whom any request for a copy of the Price Change Notice may be made.

71.9 The Licensee shall be entitled to exclude from any Price Change Notice which it is obliged to send to any person who may require one pursuant to paragraph 71.7 any matter to the exclusion of which the Director shall have consented following representations to him on the matter by the Licensee on the basis that if the matter were made available in accordance with paragraph 71.7 it would or might, in the opinion of the Director, seriously and prejudicially affect the interests of the Licensee.

71.10 In the case of a change to a General Price, otherwise than through the introduction of a Special Offer, if the Network Cost attributable to the provision of the relevant Retail

Service after the implementation of the proposed change in a General Price is different from the Network Cost attributable to the provision of the relevant Retail Service before the implementation of the proposed change in a General Price, the charged offered or payable by each relevant Operator for any relevant Standard Service shall be changed by the Licensee in accordance with Condition 69 as necessary to take account of the difference and to take effect from the date on which the proposed General Price takes effect.

71.11 In the case of a change to a General Price through the introduction of a Special Offer, if the Network Cost attributable to the provision of the relevant Retail Service after the implementation of the proposed change in a General Price is different from the Network Cost attributable to the provision of the relevant Retail Service before the implementation of the proposed change in a General Price, the charge offered or payable by each relevant Operator for any relevant Standard Service shall be changed by the Licensee in accordance with Condition 69 as necessary to take account of the difference and to take effect from the date on which the proposed General Price takes effect for the duration of the Special Offer.

71.12 Notwithstanding paragraphs 71.10 and 71.11 where the Director gives his written consent pursuant to paragraph 71.4, he shall, following a representation by the Licensee at the same time that it sends a Price Change Notice to the Director pursuant to paragraph 71.3, consider whether the charges specified in each of sub-paragraphs (a) in paragraphs 71.10 and 71.11 should not be revised in the case of any Standard Service which is not comprised within the same category of services as the relevant Retail Service. If he concludes that those charges should not be revised in the case of any Standard Service, he shall consent thereto and notify the Licensee at the same time as he gives his consent pursuant to paragraph 71.4 and paragraphs 71.10 and 71.11 shall be applied accordingly.

71.13 The Licensee shall not be entitled to introduce a Special Offer which the Director determines to be the same as or similar to a previous Special Offer in relation to the same Retail Service unless a period of three months has elapsed from the expiry of that previous Special Offer in relation to that Retail Service.

71.14 This Condition is without prejudice to Conditions 47.7, 47.8 and 47.9.

- (a) during the Year 1999—2000, 3.40 pence per minute;
 - (b) during the Year 2000—2001, the amount in pence per minute that is the product of 3.40 multiplied by the sum of 100% and the Controlling Percentage (deducting that Percentage if it is negative);
 - (c) during the Year 2001—2002, the amount in pence per minute calculated in accordance with 72.1(b) above multiplied by the sum 100% and the Controlling Percentage (deducting that Percentage if it is negative).
- (a) The Average Net Retention shall be calculated as the average of the Business Average Net Retention and the Residential Average Net Retention, weighted by the total call minutes to business customers and to residential customers in the Base Year.
 - (b) The Business Average Net Retention shall be calculated as the average, weighted as specified in 72.2(e) below, of the Retentions for Calls to Cellnet and Calls to Vodafone combined from the Licensee's business customers during the Year in question, after deducting from those Retentions the amount of discounts given by the Licensee during the Year in question to its business customers, provided

Status: This is the original version (as it was originally made).

that the deduction shall not exceed the Business Discount Percentage of those Retentions.

- (c) The Residential Average Net Retention shall be calculated as the average, weighted as specified in 72.2(e) below, of the Retentions for Calls to Cellnet and Calls to Vodafone combined from the Licensee's residential customers during the Year in question, after deducting from those Retentions the amount of discounts given by the Licensee during the Year in question to its residential customers, provided that the deduction shall not exceed the Residential Discount Percentage of those Retentions.
- (d) The Business Discount Percentage and the Residential Discount Percentage mean the percentage which the total discounts given by the Licensee to business customers or residential customers, as the case may be, in respect of Calls to Cellnet and Calls to Vodafone in the Year 1997–1998 represent as a percentage of the Licensee's total revenue from its standard tariffs to business customers or residential customers for those Calls in that Year.
- (e) The weighting to be applied for the purpose of 72.2(b) and 72.2(c) above shall be according to the profile of call minutes by charging period in the Base Year for Calls to Cellnet and Calls to Vodafone combined from the Licensee's business customers or residential customers, as the case may be. Where any Retention is in force during a part only of a Year (commencing or ending at a date in the course of the Year), the weighting shall be derived from the profile of call minutes in the corresponding part of the Base Year.

72.3 The Licensee shall not in any of its charging periods apply a Retention for Calls to Cellnet different from the Retention for Calls to Vodafone, except:

- (i) to the extent necessary to enable the Licensee to round to the nearest 0.1 of a penny per minute the charge made by the Licensee to its Subscribers for calls; or
 - (ii) following a request by the Licensee, insofar as the Director may consider to be appropriate, and so direct the Licensee.
- (a) If the Licensee has failed to secure that the Average Retention has not exceeded the levels for the Years 1999–2000 or 2000–2001 specified in paragraph 72.1(a) or 72.1(b) above, the Licensee shall make such adjustments to its Retention or its discounts in the following Year as the Director may, after consultation with the Licensee, consider to be appropriate for the purpose of remedying that failure, and so direct the Licensee.
 - (b) If it appears to the Director that the Licensee is likely to fail to secure that the Average Retention for the Year 2001–2002 does not exceed the level specified in paragraph 72.1(c) above, the Licensee shall make such adjustments to its Retention or its discounts in that Year as the Director may, after consultation with the Licensee, consider to be appropriate for the purpose of avoiding that failure, and so direct the Licensee.

CONTROL OF PRIVATE LEASED CIRCUIT PRICES

73.1 The provisions of Condition 70 (except Conditions 70.2, 70.6, 70.8 and 70.11) shall apply separately to:

- (a) the aggregate of Private Leased Circuit Prices for analogue Private Leased Circuits; and
- (b) the aggregate of Private Leased Circuit Prices for digital Private Leased Circuits of a capacity less than or equal to 64 kbits,

respectively as though the Prices in each such aggregate group of Prices are General Prices except that the Controlling Percentage applicable to each such group (described in Condition 70.9) shall (subject only to Conditions 70.10, 70.14 and 70.15) be RPI.

Status: This is the original version (as it was originally made).

73.2 The amount of a Percentage Change in Private Leased Circuit Prices which has taken place at any time during a Relevant Year is determined by taking the amount of the change in each Private Leased Circuit Price which has taken place between the beginning of the Relevant Year and that time, multiplying that amount by the amount of the revenue reasonably believed by the Licensee to have accrued during the Relevant Financial Year in respect of the service for which that Price is charged, dividing in each case the amounts so produced by the Price charged at the beginning of the Relevant Year for the service to which each such amount relates, and taking the aggregate of the results, expressed as a percentage of all the revenue reasonably believed to have accrued for such services during the Relevant Financial Year.

73.3 The Licensee shall take all reasonable steps to secure that no discrete International Private Circuit Price increases during any Relevant Year by more than RPI.

73.4 References to accrued revenue in Condition 70 are, for the purposes of this Condition, references to the amount of revenue which would be produced before the application of any discounts to the relevant Private Leased Circuit Prices.

73.5 This Condition shall not apply to such extent as the Director may determine upon request by the Licensee.

TREATMENT OF PACKAGES FOR PRICE CONTROL PURPOSES

74.1 This Condition shall have effect for the purpose of securing in accordance with the following paragraphs that:

- (a) no new benefits to the Licensee's customers arising from variations in its charges or manner of charging for Packages are brought into account for the purpose of ascertaining whether the obligation imposed on the Licensee by Condition 70.1 has been satisfied; and
- (b) the Licensee, where benefits (including discounts) in existence on 31 July 1993 are withdrawn, makes compensating reductions in its other prices which are subject to the controls imposed by Condition 70.

74.2 The Licensee shall estimate as at 31st July in each Relevant Year the numbers of its residential customers who take Packages which it has offered in that Year. On the basis of that estimate the Licensee shall calculate, on a weighted average basis, the amounts of accrued revenue which it would have forgone (or gained) in respect of each such Package in the associated Relevant Financial Year (except any revenue attributable to Reference Prices as defined in Condition 70.6) on the assumption that those Packages had been offered to its residential customers in that Financial Year. The aggregate of those amounts plus any increase in revenue forgone pursuant to Condition 41 shall be the Discount Yield for the Relevant Year.

74.3 The Licensee shall send to the Director a forecast of the Percentage Discount Yield as at 31st July immediately preceding each Relevant Year. The Score and the Percentage Discount Yield shall be calculated in the precise manner and provided at times determined by the Director after consultation with the Licensee.

74.4 If in respect of the year ending on 31st July 1997 and any Relevant Year, it transpires (or, in the case of the year ending on 31st July 1997, has transpired) that the Percentage Discount Yield is less than the Score (in the case of the year ending on 31st July 1997, as calculated under this Condition having effect on that date), the difference between the Score and the Percentage Discount Yield shall, at the option of the Licensee (except in the case of the fourth Relevant Year), be either deducted from the Controlling Percentage or added to the Score, or partly the one and partly the other, for the next following Relevant Year, but

for that Year only. In the case of the fourth Relevant Year, the difference shall be deducted from the Controlling Percentage for that Year.

74.5 If in respect of the year ending on 31st July 1997 and any Relevant Year, the Licensee elects (or, in the case of the year ending on 31st July 1997, has elected) to reduce the Percentage Discount Yield below the Score (in the case of the year ending on 31st July 1997, as calculated under Condition 74 having effect on that date), the difference between the Score and the Percentage Discount Yield shall (except in the case of the fourth Relevant Year), if it has not already been deducted, be deducted from the Controlling Percentage for that year (and that year only) and deducted from the Score for that year and each succeeding Relevant Year. In the case of the fourth Relevant Year, the difference shall be deducted from the Controlling Percentage for that Year.

74.6 The Licensee shall furnish to the Director, at such times and in such manner as the Director may request, sufficient accounts, information, estimates, forecasts and returns to enable the Director properly to assess the operation of this Condition and in particular to establish whether:

- (a) any reductions in the Controlling Percentage or additions to the Score which are required by paragraph 74.4 have been properly made; and
- (b) any reductions in the Controlling Percentage and the Score which are required by paragraph 74.5 have been properly made.

PROHIBITION ON CROSS-SUBSIDIES

75.1 Where it appears to the Director that the Licensee is unfairly cross-subsidising or unfairly subsidising:

- (a) the Apparatus Supply Business, insofar as that Business is carried on in the United Kingdom;
- (b) the provision in the United Kingdom of Land Mobile Radio Services; or
- (c) the Supplemental Services Business,

it shall take such steps as the Director may direct for the purpose of remedying the situation.

75.2 The Licensee shall record, except where the Director agrees otherwise, at full cost in its accounting records, any material transfer between any part of the Licensee's business and:

- (a) any of the businesses mentioned in paragraph 75.1(a) to 75.1(c) as soon as reasonably practicable and in any event not later than 1st April 1987; and
- (b) the Supplemental Services Business as soon as reasonably practicable and in any event not later than 1st April 1988.

75.3 The Licensee shall maintain a list of those services agreed under paragraph (c) of the definition of "Network Service" and shall provide a copy of that list to the Director within 14 days of reaching agreement and thereafter within 14 days of any subsequent agreement as to the services comprised in the list, publishing the list at the same time placing as soon as practicable thereafter a copy thereof in a publicly accessible part of every Major Office in such a manner and in such a place that it is readily available for inspection by members of the general public during such hours as the Secretary of State may by order prescribe under section 19(4) of the Act that the register of Licences and final and provisional orders is to be open for public inspection, or in the absence of any such order having been made by the Secretary of State, during normal office hours. The Licensee shall send a copy of such list to any person who may request such a copy.

75.4 For the purposes of this Condition:

Status: This is the original version (as it was originally made).

- (a) “supply” and “provision” include supply or provision in the course of one business of the Licensee for the purposes of another such business notwithstanding that there is no supply or provision to any other person;
- (b) a transfer from one business to another business or a company takes place when any thing (including any service or money) produced or acquired by, normally used in, or otherwise at the disposal of, the first mentioned business is made available for the purposes of the other business or the company; and
- (c) “full cost” in the case of money transferred includes the market rate of interest for that money.

75.5 This Condition shall apply with the omission of paragraph 75.1(a) if and for so long as the supply of telecommunication apparatus by the Licensee does not constitute a monopoly situation within the meaning of section 6 of the Fair Trading Act 1973.

75.6 In considering whether any cross-subsidy of the Supplemental Services Business is unfair, the Director shall have regard to the extent to which the Licensee cross-subsidised that Business for the purpose of satisfying any obligation imposed on it by Condition 2, 40 or 43.

SEPARATE ACCOUNTS FOR CERTAIN ACTIVITIES

76.1 This Condition applies for the purpose of ensuring that the Licensee establishes as soon as reasonably practicable and in any event not later than 1st April 1987 accounting and reporting arrangements sufficient to enable the Licensee’s finances in relation to the Systems Business and the Apparatus Supply Business to be assessed and reported on separately both from each other and from the other activities of the Licensee and for the purposes of ensuring that the Licensee establishes as soon as reasonably practicable and in any event not later than 1st April 1988 accounting arrangements sufficient to enable the Licensee’s finances in relation to the Supplemental Services Business to be assessed separately from the other activities of the Licensee.

76.4 For the purposes of this Condition the Licensee shall be free to treat the Apparatus Supply Business as not including any business relating to the supply of apparatus outside the United Kingdom but when it does so it shall inform the Director.

76.5 In this Condition, references to the costs of any business do not include profits of that business.

- (a) charged from or to any other business of the Licensee together with a description of the basis of the value at which the charge was made; or
