## EXPLANATORY NOTE

*(This note is not part of the Regulations)*

These Regulations restrict the supply of brake linings on safety grounds and give effect to Commission Directive 98/12/EC of 27th January 1998 adapting to technical progress Council Directive 71/320/EEC on the approximation of the laws of the Member States relating to the braking devices of certain categories of motor vehicles and their trailers (“the Braking Devices Directive”). The Directive lays down standards for asbestos-free brake linings. These Regulations are made under section 11(5) of the Consumer Protection Act 1987 and adopt the definition of “vehicle” used in the Road Traffic Act 1988 and in the Road Traffic (Northern Ireland) Order 1995 (S.I. 1995/2994) (N.I.18). The definition includes motor cycles.

Regulation 3, which comes into force on 24th November 1999, prohibits the supply, exposure for supply or fitting to a motor vehicle or trailer of brake linings containing asbestos. This is subject to exceptions for brake linings intended for fitting to pre-1973 vehicles only and clearly so marked or in packaging so marked and for armed forces vehicles. The exception for pre-1973 vehicles will cease to have effect on 1st January 2005.

Regulation 4, which comes into force on 31st March 2001, prohibits the supply, exposure for supply or fitting to a “relevant vehicle” (as defined by regulation 2) of brake linings which do not comply with the standard laid down in Directive 71/320/EEC as amended by Commission Directive 98/12/EC (“the Braking Devices Directive”). This is subject to regulation 5 which permits the supply, exposure for supply or fitting of linings intended for a vehicle first used before 1st September 1999, if they are capable of providing the level of performance required by the version of the Braking Devices Directive applicable to the vehicle when it was first used.

Regulation 6, which also comes into force on 31st March 2001, prohibits the supply, exposure for supply or fitting to a vehicle (as defined by regulation 2) which is not a relevant vehicle of brake linings which are such as to cause the vehicle to contravene the version of the Braking Devices Directive applicable to it when it was first used.

Regulation 7 specifies a 12 months time limit for the bringing of summary proceedings for offences under section 12 (offences against safety regulations) of the Consumer Protection Act 1987.

The Asbestos (Prohibitions) (Amendment) Regulations 1999 (S.I. 1999/2373) (“the Asbestos Amendment Regulations 1999”) also come into force on 24th November 1999. They amend the Asbestos (Prohibitions) Regulations 1992 (S.I. 1992/3067) (“the Asbestos Regulations 1992”). The Asbestos Amendment Regulations 1999 implement Commission Directive 1999/77/EC of 26th July 1999 adapting to technical progress for the sixth time Annex 1 to Council Directive 76/769/EEC on the approximation of laws, regulations and administrative provisions of the Member States relating to the restrictions on the marketing and use of certain dangerous substances and preparations (asbestos).

Regulation 2(8) of the Asbestos Amendment Regulations 1999 substituted a new Schedule for the Schedule to the Asbestos Regulations 1992. The Asbestos (Prohibitions) (Amendment) (No. 2) Regulations 1999 (“the No. 2 Asbestos Amendment Regulations 1999”) also come into force on 24th November 1999. They amend the new Schedule to the 1992 Regulations. The amendments have the effect of removing the derogation from the prohibitions on the importation of chrysotile or products containing it for vehicle brake linings or required solely for their manufacture. The Regulations also have the effect of removing the derogation from the prohibitions on the supply or use of chrysotile and products to which chrysotile has been intentionally added required solely for the manufacture of vehicle brake linings. In addition, a new definition of “vehicle” is substituted for the existing definition. The new definition of “vehicle” is the one used in the Road Traffic Act 1988 and includes motor cycles. The Schedule to the 1992 Regulations now disapplies the prohibitions on the use of chrysotile and products containing it in respect of vehicle brake linings which are supplied or used for fitting to vehicles. The effect of the new definition of “vehicle” is to extend the derogation so that it includes motor cycle brake linings.
