PART III

SCHOOLS' BUDGET SHARES: MAIN PROVISIONS

Determination of budget shares

6. This Part and Parts IV and V apply for the purpose of determining the amount which a local education authority may determine as a maintained school's budget share for the financial year beginning on 1st April 2001.

(8) Section 494 was substituted by paragraph 128 of Schedule 30 to the 1998 Act.

(9) These are the proper practices as referred to in section 66(4) of the Local Government and Housing Act 1989 (c. 42) and, at the date that these Regulations are made, they include the Code of Practice on Local Authority Accounting in Great Britain 2000 (ISBN 0 85299 897 X).

(10) 1984 c. 27, amended by the Local Government Act 1985 (c. 51), Schedule 5, paragraph 4(10).

Allocation of individual schools budget

7. A local education authority shall allocate in the financial year beginning on 1st April 2001 in accordance with this Part and Parts IV and V all of their individual schools budget for that financial year as the budget shares of schools which they maintain.

Timing of determination of budget shares

8.—(1) The amount of a school's budget share for the financial year beginning on 1st April 2001 shall be initially determined by the local education authority before the beginning of that financial year.

(2) A local education authority may decide not to initially allocate all of their individual schools budget in accordance with this Part in the form of budget shares at the beginning of the financial year and instead to retain an amount for the purpose of redeterminations or the correction of errors but such amount must be used for that purpose or distributed to schools as required by regulation 21(4) before the end of the financial year.

Consultation

9.—(1) Subject to paragraph (2), a local education authority shall consult the governing body and head teacher of every school which they maintain about any proposed changes in relation to the factors and criteria that were taken into account, or the methods, principles and rules that were adopted, in their formula under the 2000 Regulations in the financial year beginning on 1st April 2000 (including any new factors, criteria, methods, principles or rules).

(2) Paragraph (1) shall not apply to changes required by regulation 8(2), 11(7), 14(2), 20, 21(4) or 22 or by Part IV.

(3) Consultation under this regulation shall take place in sufficient time to allow the outcome to be taken into account in the determination of the authority's formula and in the initial determination of schools' budget shares before the beginning of the financial year.

(4) The requirement to consult in paragraph (1) can be satisfied by consultation which takes place during the financial year beginning on 1st April 2000 before the coming into force of these Regulations.

(5) A local education authority shall inform all those who were consulted of the outcome of the consultation.

Formula for determination of budget shares

10.—(1) A local education authority shall determine before the beginning of the financial year beginning on 1st April 2001, and after the consultation referred to in regulation 9, the formula which they will use to determine schools' budget shares in that financial year having regard to the factors, criteria and requirements set out in this Part and in Part IV.

(2) A local education authority shall have regard to the desirability of such a formula being simple, objective, measurable and predictable in effect, and clearly expressed.

(3) A local education authority may not use factors or criteria in their formula under this Part which make an allowance, in whole or in part, for—

- (a) any amount included in the school's budget share by virtue of Part IV; or
- (b) any education standards grants, received by the authority pursuant to section 484 of the 1996 Act, paid in respect of capital projects, of an amount determined by the Secretary of State by reference to a formula, and decisions about the spending of which the authority are required to delegate to the governing bodies of schools.

(4) Subject to regulation 31 (additional arrangements approved by the Secretary of State), a local education authority shall use the formula determined under paragraph (1) in all determinations and redeterminations of budget shares in respect of the financial year.

Pupil numbers

11.—(1) In determining budget shares for primary and secondary schools, a local education authority shall take into account in their formula the number of registered pupils at those schools on such date or dates as may be determined by the authority in accordance with regulation 12, weighted if the authority consider it appropriate in accordance with paragraph (5).

(2) For the purposes of paragraph (1), the number of registered pupils does not include—

- (a) pupils in places which the authority recognise as reserved for children with special educational needs or for children in nursery classes; or
- (b) in relation to the funding of boarding accommodation only, pupils in boarding accommodation at boarding schools other than special schools.

(3) An authority may in determining budget shares for special schools, or for primary or secondary schools with places which the authority recognise as reserved for children with special educational needs or for children in nursery classes, take into account in their formula the number of registered pupils at those special schools or the number of pupils in those reserved places at primary or secondary schools on such date or dates as may be determined by the authority, weighted if the authority consider it appropriate in accordance with paragraph (5).

(4) If the authority estimate the number of registered pupils at a school they must consult the head teacher of the school.

(5) A local education authority may weight pupil numbers according to any or all of the following factors—

- (a) age, including weighting according to key stage or year group;
- (b) whether a pupil is provided with nursery education by a school;
- (c) in the case of pupils aged under five, their exact age when admitted to the school;
- (d) in the case of pupils aged under five, whether they have been admitted to the school in excess of planned admission limits agreed with the authority;
- (e) the subject or course of study in the case of pupils in a sixth form; and
- (f) special educational needs.

(6) A local education authority may adjust the number of registered pupils used to determine or redetermine a school's budget share where it is appropriate to do so in order to take into account, wholly or partly, the permanent exclusion of a pupil from the school or the admission of a pupil following his permanent exclusion from another school maintained by a local education authority.

(7) Subject to paragraph (8), a local education authority shall provide in their formula that the average amount per pupil allocated in accordance with regulation 11(1) or (3) in respect of pupils who are—

- (a) in key stage 1 or 2;
- (b) in key stage 3 or 4;
- (c) above compulsory school age,

shall in each case be at least 2.5 per cent. higher than the average amount per pupil initially determined in each of those three cases under the corresponding provisions of the 2000 Regulations.

(8) Paragraph (7) shall not apply in relation to any amount allocated in accordance with paragraph (3) weighted in accordance with paragraph (5)(f) (special educational needs).

Dates for ascertaining pupil numbers

12.—(1) Where the authority determine only one date for the purposes of regulation 11(1) that must be a date which falls—

- (a) before 1st April 2001; and
- (b) in the school year in which 1st April 2001 falls.

(2) Where the authority determine more than one date for the purposes of regulation 11(1) then—

- (a) one of those dates must satisfy paragraph (1) above;
- (b) of the other date or dates—
 - (i) no date may be earlier than the beginning of the school year in which 1st April 2001 falls;
 - (ii) the authority may determine a date or dates which are in the future and estimate the number of registered pupils at the school on that date or those dates.

(3) Paragraphs (1) and (2) (restrictions on choice of dates for the purposes of regulation 11(1)) shall not apply in relation to pupils in nursery or reception classes whom the authority take into account under regulation 11(1) (pupils in nursery classes not occupying places which the authority recognise as reserved for such pupils or any pupils in reception classes).

Pupil numbers: Dual registration

13. Where a pupil is, in accordance with regulations made under section 434 of the 1996 Act⁽¹¹⁾, a registered pupil at more than one school then that pupil shall be treated as being a full-time pupil at each such school unless the authority expressly provide otherwise in their formula.

Places

14.—(1) In determining budget shares for—

- (a) special schools;
- (b) primary or secondary schools with places which the authority recognise as reserved for children with special educational needs or for children in nursery classes; or
- (c) schools with boarding accommodation,

the local education authority may take into account in their formula the number of places which they wish to fund at those special schools, the number of places of the kind described above at those primary or secondary schools or the amount of boarding accommodation which they wish to fund and in the case of paragraphs (a) and (b) above may take account of the special educational needs in question.

(2) A local education authority shall provide in their formula that any amount allocated in accordance with—

- (a) paragraph (1)(a); or
- (b) in so far as it relates to special educational needs, paragraph (1)(b),

in respect of a place at a school shall be at least 2.5 per cent. higher than the amount initially determined in relation to the financial year beginning on 1st April 2000 in respect of a place appropriate to a pupil with the same characteristics at that school under the corresponding provisions of the 2000 Regulations.

⁽¹¹⁾ The relevant regulations, as at the date that these Regulations are made, are the Education (Pupil Registration) Regulations 1995 (S.I. 1995/2089) which remain in force by virtue of paragraph 1 of Schedule 39 to the 1996 Act. The relevant amending instrument is S.I. 1997/2624.

Differential funding

15.—(1) A local education authority shall use factors or criteria which differentiate between different categories or descriptions of schools in so far as the functions of the governing bodies of those schools justify such differentiation but may not otherwise do so except as required or expressly permitted by these Regulations.

(2) A local education authority shall use factors or criteria which differentiate between a school and other schools of the same category or description if the choice that that school's governing body have made under these Regulations regarding particular expenditure funding for which is to be included in their school's budget share, justifies such differentiation.

(3) A local education authority are not required to use factors or criteria in their formula which differentiate between—

- (a) primary and secondary schools, and special schools;
- (b) schools whose pupils are in different age ranges,

but they may do so.

(4) If a local education authority choose to use a particular factor or criteria to delegate funding to all or some of the schools which they maintain, and a school which it is proposed to discontinue during the financial year did not receive funding in accordance with that factor or criteria in the financial year beginning on 1st April 2000, then this regulation shall not require the local education authority to delegate such funding to that school in accordance with that factor or criteria but they may do so.

Additional factors or criteria

16. Subject to regulation 15 (differential funding), a local education authority may, in determining budget shares for schools which they maintain, take into account in their formula, as they consider appropriate, any or all of the factors or criteria set out in Schedule 2.

Budget share adjustments in relation to the financial year beginning on 1st April 2000: Pupil numbers

17.—(1) This regulation applies to the extent that a school's budget share for the financial year beginning on 1st April 2000 was determined pursuant to regulation 11(1) or (6) of the 2000 Regulations other than in cases where pupil numbers were weighted according to special educational needs.

(2) Subject to paragraph (3), to the extent that a school's budget share for the financial year beginning on 1st April 2000 was—

- (a) determined by reference to an estimate of the number of registered pupils at the school; and
- (b) differences between the estimated number of pupils on those dates and the actual number of pupils at the school on those dates were not taken into account in a redetermination of the school's budget share for that financial year,

the local education authority shall determine that school's budget share for the financial year beginning on 1st April 2001 so as to take into account those differences.

(3) A local education authority may determine a school's budget share so as to make such adjustments which are appropriate to take into account, wholly or partly, any increases in pupil numbers during the course of the financial year beginning on 1st April 2000.

(4) In so far as a determination under this regulation would require the amount that would otherwise be the budget share of a former grant-maintained or grant-maintained special school to be reduced, it may not be reduced by an amount greater than the amount by which the school's budget

share for the financial year beginning on 1st April 2000 determined in accordance with regulation 18 (transitional funding) of the 2000 Regulations could have been reduced.

(5) In so far as a determination under this regulation would require the amount that would otherwise be the budget share of a former grant-maintained or grant-maintained special school to be increased, there shall be deducted from that increase any amount for transitional funding determined in respect of the school in the financial year beginning on 1st April 2000 under regulation 18 (transitional funding) of the 2000 Regulations.

(6) A local education authority shall include factors or criteria in their formula which satisfy the requirements of this regulation.

Budget share adjustments in relation to the financial year beginning on 1st April 2000: Non-pupil number factors

18.—(1) This regulation applies to the extent that a school's budget share for the financial year beginning on 1st April 2000 was determined other than pursuant to regulation 11(1) or (6) of the 2000 Regulations or was so determined in accordance with pupil numbers weighted according to special educational needs.

(2) Where—

- (a) there has been a change in the data on the basis of which that determination was made; and
- (b) that change was not taken into account in a redetermination of the school's budget share for the financial year beginning on 1st April 2000,

the local education authority may determine that school's budget share so as to take into account those changes.

(3) In so far as a determination under this regulation would require the amount that would otherwise be the budget share of a former grant-maintained or grant-maintained special school to be reduced, it may not be reduced by an amount greater than the amount by which the school's budget share for the financial year beginning on 1st April 2000 determined in accordance with regulation 18 (transitional funding) of the 2000 Regulations could have been reduced.

(4) In so far as a determination under this regulation would require the amount that would otherwise be the budget share of a former grant-maintained or grant-maintained special school to be increased, there shall be deducted from that increase any amount for transitional funding determined in respect of the school in the financial year beginning on 1st April 2000 under regulation 18 (transitional funding) of the 2000 Regulations.

(5) A local education authority shall include factors or criteria in their formula which satisfy the requirements of this regulation.

New schools

19.—(1) In the case of—

- (a) a proposed school referred to in regulation 1(6);
- (b) a school proposals for the establishment of which have not been fully implemented;
- (c) a school which is the subject of a significant change of character, a significant enlargement of its premises or a transfer to a new site under the 1996 Act; or
- (d) a school which is the subject of a prescribed alteration within the meaning of the 1998 Act,

the local education authority shall include factors or criteria in their formula which enable them to determine the school's budget share so as to take into account the particular needs of the school or proposed school; and in particular may, in any financial year preceding the financial year in which a school first admits pupils, determine the amount of the budget share as zero.

(2) For the purposes of these Regulations, proposals for the establishment of a school have been fully implemented when the number of pupils admitted to the school in each age group has, in the opinion of the local education authority, reached—

- (a) that number of pupils indicated, when proposals for the establishment of the school were published, as the number of pupils to be admitted to each age group when the proposals were fully implemented; or
- (b) if no such number was indicated, such number as the authority may determine.

Transitional funding

20.—(1) A local education authority shall determine the budget share of a former grant-maintained or grant-maintained special school so as to include an amount for transitional funding.

(2) The amount referred to in paragraph (1) is the amount if any by which the school's protected level of funding in respect of the financial year beginning on 1st April 2001 determined by the local education authority in accordance with Schedule 3 is greater than the school's adjusted budget share for that financial year.

(3) For the purposes of this regulation, a school's adjusted budget share is its budget share determined in accordance with this Part and Part V but not taking into account the effect of this regulation and regulations 17 (budget share adjustments: pupil numbers), 18 (budget share adjustments: non-pupil number factors), 22 (excluded pupils), 23, 24 and 25 (additional provisions for redeterminations) and Part IV.

(4) The amount of a school's transitional funding shall not be affected by a net increase during the financial year in that school's adjusted budget share arising out of changes in the numbers of pupils with statements of special educational needs or changes in the needs of such pupils.

(5) A local education authority which maintain a former grant-maintained or grant-maintained special school shall include factors or criteria in their formula which satisfy the requirements of this regulation.

Redetermination of budget shares

21.—(1) A local education authority shall include factors or criteria in their formula which enable them, if they so wish, to redetermine a school's budget share during the course of the financial year to take account wholly or partly of—

- (a) changes during the financial year in the number or estimates of the number of registered pupils (including the substitution of actual numbers for estimates) at the school by reference to which the budget share was determined in accordance with regulation 11(1) or (3) other than in cases where pupil numbers were weighted according to special educational needs;
- (b) other changes during the financial year in the data by reference to which the budget share was determined; and
- (c) changes during the financial year in the amount of the authority's individual schools budget.

(2) This regulation is subject to regulation 20 (transitional funding).

(3) A local education authority shall set out in their formula the factors or criteria that they will use, in redetermining schools' budget shares in accordance with paragraph (1), to allocate the planned expenditure referred to in paragraph 32 of Schedule 1.

(4) Where the local education authority propose to retain part of their individual schools budget pursuant to regulation 8(2) for the purpose of redeterminations or the correction of errors they shall include factors or criteria in their formula which require them to redetermine schools' budget shares

before the end of the financial year so as to distribute to schools the unallocated balance of any such retained amount on the basis of pupil numbers in accordance with regulation 11(1) or (3).

(5) A local education authority shall include factors or criteria in their formula which enable them to adjust the number of registered pupils used to determine or redetermine a school's budget share where it is appropriate to do so in order to take into account, wholly or partly—

- (a) any reduction or increase in the school's budget share under regulation 22 (pupils permanently excluded or admitted following a permanent exclusion); or
- (b) any increase in the school's budget share under this regulation in respect of significant increases in pupil numbers funded by the planned expenditure referred to in paragraph 32 of Schedule 1.

Pupils permanently excluded or admitted following a permanent exclusion

22.—(1) Where a pupil is permanently excluded from a school maintained by a local education authority, the authority shall redetermine the school's budget share for that financial year in accordance with paragraph (2).

(2) The school's budget share shall be reduced by the amount $A \times (B/52)$ where—

A is the amount, in the financial year in which the permanent exclusion takes effect (as defined from time to time for the purposes of section 494 of the 1996 Act⁽¹²⁾ ("the relevant date")), determined by the authority, in accordance with this Part, to be attributable for the full financial year to a registered pupil of the same age and characteristics as the pupil in question at primary or secondary schools maintained by the authority:

For the purposes of this definition the amount attributable to a registered pupil is the sum of the amounts determined in accordance with the authority's formula or regulation 31 by reference to pupil numbers rather than by reference to the number of places at the school or any other factor or criteria not dependent on pupil numbers; and

B is the number of complete weeks remaining in the financial year calculated from the relevant date:

EXCEPT that where the permanent exclusion takes effect on or after 1st April in a school year at the end of which pupils of the same age or age group as the pupil in question normally leave that school prior to being admitted to another school with a different pupil age range, B is the number of complete weeks remaining in that school year calculated from the relevant date.

(3) Where a pupil is admitted to a school maintained by a local education authority ("the admitting school") who has been permanently excluded from another maintained school in that financial year the authority shall redetermine the admitting school's budget share in accordance with paragraph (4).

(4) The school's budget share shall be increased by an amount which may not be less than the amount $D \times (E/F)$ where—

D is the amount by which the authority reduce the budget share of the school from which the pupil was permanently excluded or would have reduced it had that school been maintained by the authority;

E is the number of complete weeks remaining in the financial year during which the pupil is a registered pupil at the admitting school;

F is the number of complete weeks remaining in the financial year calculated from the relevant date.

(12) Section 494 was substituted by paragraph 128 of Schedule 30 to the 1998 Act.

(5) A local education authority shall include factors or criteria in their formula which satisfy the requirements of this regulation.

Additional provisions for redeterminations in relation to financial years beginning on or before 1st April 1999: (1) Former grant-maintained or grant-maintained special schools in the period before they became such schools and (2) Schools which were never such schools

23.—(1) A local education authority may in the circumstances described in paragraph (2) redetermine a school's budget share for the financial year beginning on 1st April 2001 to take into account changes in that school's non-domestic rates liability or to correct errors in data supplied by the head teacher or governing body of the school, by reference to which the following were determined—

- (a) the school's budget share within the meaning of the 1996 Act for any financial year beginning on or before 1st April 1998; or
 - (b) in the case of a school which is not a former grant-maintained or grant-maintained special school, the school's budget share within the meaning of the 1998 Act for the financial year beginning on 1st April 1999.
- (2) The circumstances referred to in paragraph (1) are that—
- (a) such matters have not already been taken into account in any determination or redetermination of that school's budget share within the meaning of the 1996 Act or the 1998 Act or its maintenance grant (as a former grant-maintained or grant-maintained special school); and
 - (b) such redetermination as is proposed could have been made in relation to the preceding financial year in question under the terms of the authority's scheme within the meaning of the 1996 Act in force in that year or, in the case of the financial year beginning on 1st April 1999, the 1999 Regulations.

(3) A local education authority shall include factors or criteria in their formula which satisfy the requirements of this regulation.

Additional provisions for redeterminations in relation to the financial years beginning on 1st April 1999: Former grant-maintained or grant-maintained special schools

24.—(1) A local education authority may redetermine a former grant-maintained or grant-maintained special school's budget share for the financial year beginning on 1st April 2001 to take into account changes in that school's non-domestic rates liability or to correct errors in data supplied by the head teacher or governing body of the school, by reference to which the school's budget share for the financial year beginning on 1st April 1999 was determined if—

- (a) such matters have not already been taken into account in any determination or redetermination of that school's budget share for the financial year beginning on 1st April 1999 or 1st April 2000;
- (b) such redetermination as is proposed could have been made in that financial year beginning on 1st April 1999 in accordance with the 1999 regulations.

(2) In so far as a determination under paragraph (1) would require the amount that would otherwise be the budget share of the school to be reduced, it may not be reduced by an amount greater than the amount by which the school's budget share for the financial year beginning on 1st April 1999 determined in accordance with regulation 18 (transitional funding) of the 1999 Regulations could have been reduced.

(3) In so far as a determination under paragraph (1) would require the amount that would otherwise be the budget share of a former grant-maintained or grant-maintained special school to be increased, there shall be deducted from that increase any amount for transitional funding determined

in respect of the school in the financial year beginning on 1st April 1999 under regulation 18 (transitional funding) of the 1999 Regulations.

(4) A local education authority shall include factors or criteria in their formula which satisfy the requirements of this regulation.

Additional provisions for redeterminations in relation to financial years beginning on or before 1st April 1998: Former grant-maintained or grant-maintained special schools

25.—(1) A local education authority shall, in the case of a former grant-maintained or grant-maintained special school and in so far as required by paragraphs (2) to (4), redetermine that school's budget share for the financial year beginning on 1st April 2001 to take into account changes in data, other than pupil numbers, by reference to which the school's maintenance grant for any financial year beginning on or before 1st April 1998 was determined if such changes have not already been taken into account in any determination or redetermination of that school's maintenance grant or budget share for a financial year beginning before 1st April 2001.

(2) The local education authority shall add or subtract such amount, if any, determined by the Secretary of State in accordance with the provisions of the regulations made under section 244(2) of the 1996 Act in force in the preceding financial year in question and as if any reference to the Funding Agency for Schools was a reference to the Secretary of State.

(3) The Secretary of State may decline to make a determination under paragraph (2) unless—

- (a) he has received by 31st March 2001, a request in writing to make such a determination; and
- (b) the person making the request has provided the Secretary of State by 31st March 2001 with sufficient information about the changed data to enable him to carry out the necessary calculations without further enquiry.

(4) If the Secretary of State considers it likely that the changes in data referred to in paragraph (1) and any consequent change in the school's maintenance grant for that year would have meant that the governing body would have received a larger payment of special purpose grant pursuant to section 245 of the 1996 Act in respect of the costs incurred by the school in respect of Value Added Tax in that year he may add to the amount determined under paragraph (2) an amount which he considers would be equivalent to that increase. Conversely if he considers that the governing body would have been entitled to a smaller such payment he may subtract an amount which he considers would be equivalent to that reduction for the financial year in question.

(5) Where the Secretary of State has confirmed in writing to a local education authority that he does not propose to make a determination under paragraph (2) in respect of a particular school then that local education authority may in the circumstances described in paragraph (6) redetermine that school's budget share for the financial year beginning on 1st April 2001 to take into account changes in that school's non-domestic rates liability or to correct errors in data supplied by the head teacher or governing body of the school, by reference to which the school's maintenance grant (as a grant-maintained or grant-maintained special school) was determined for the financial year in question.

(6) The circumstances referred to in paragraph (5) are that—

- (a) such matters have not already been taken into account in any determination or redetermination of that school's budget share within the meaning of the 1996 Act or the 1998 Act or its maintenance grant (as a former grant-maintained or grant-maintained special school);
- (b) such redetermination as is proposed could have been made in the preceding financial year in question in relation to a school maintained by the authority under the terms of the authority's scheme within the meaning of the 1996 Act in force in that year; and

- (c) any increase or decrease in the amount of the school's budget share to take into account changes in the school's non-domestic rates liability does not exceed the change in the school's net liability in respect of rates.

(7) In so far as a determination under paragraph (5), arising from adjustments relating to the financial year beginning on 1st April 1998, would require the amount that would otherwise be the budget share of the school to be reduced, it may not be reduced by an amount greater than the amount by which the school's maintenance grant for that financial year determined in accordance with regulation 9 (transitional funding) of the Education (Grant-maintained and Grant-maintained Special Schools) (Finance) Regulations 1998(13) ("the 1998 Regulations") could have been reduced.

(8) In so far as a determination under paragraph (5), arising from adjustments relating to the financial year beginning on 1st April 1998, would require the amount that would otherwise be the budget share of a former grant-maintained or grant-maintained special school to be increased, there shall be deducted from that increase any amount for transitional funding determined in respect of the school in the financial year beginning on 1st April 1998 under regulation 9 (transitional funding) of the 1998 Regulations.

(9) A local education authority shall include factors or criteria in their formula which satisfy the requirements of this regulation.

Percentage of "pupil-led" funding

26.—(1) In determining and redetermining budget shares for primary and secondary schools a local education authority shall ensure that their formula provides that at least 80 per cent. of the amount which is their individual schools budget, less the amounts referred to in paragraph (2), is allocated in one or more of the following manners—

- (a) in accordance with regulation 11(1) or (3);
- (b) in accordance with any other factors or criteria using pupil numbers which provide for the same funding for pupils of the same age irrespective of the nature of the school which they attend but such funding for children with special educational needs who do not have statements of special educational needs shall only count towards the figure of 80 per cent. referred to above to the extent that it does not exceed 5 per cent. of the total amount allocated by the authority to primary and secondary schools from their individual schools budget;
- (c) to places in primary schools which the authority recognise as reserved for children in nursery classes;
- (d) to places in primary or secondary schools which the authority recognise as reserved for children with special educational needs;
- (e) for pupils with statements of special educational needs where funding in respect of such pupils forms part of schools' delegated budgets;
- (f) by reference to any or all of the following: the recruitment of, the length, type and subject matter of courses taken by, and the achievements of, pupils in a sixth form at a school; and
- (g) to places for pupils in boarding accommodation at boarding schools other than special schools.

(2) For the purposes of this regulation the following amounts are to be excluded from the local education authority's individual schools budget—

- (a) the budget shares of special schools;

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations prescribe the expenditure which makes up the local education authority's "local schools budget" for the financial year beginning on 1st April 2001.

⁽³⁵⁾ 1974 c. 37.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

These Regulations specify the nature of the planned expenditure which a local education authority may deduct from their local schools budget in order to arrive at their “individual schools budget” for that financial year.

An authority’s individual schools budget is to be divided between the schools which they maintain in the form of budget shares for each school. These Regulations provide the basis on which a local education authority may determine the amount from their individual schools budget to be allocated to each school as its budget share for that financial year.

These Regulations require a local education authority to deal in a scheme prepared by them with specified matters connected with the financing of schools which they maintain.

The main changes from the Financing of Maintained Schools (England) Regulations 2000 (“the 2000 Regulations”) are as follows:

Expenditure on the payment of allowances under section 518 of the Education Act 1996 to pupils over compulsory school age, which is offset by grant from the Secretary of State, is excluded from an authority’s local schools budget (*regulation 4(g)*).

The provisions that were in regulation 11(10) of the 2000 Regulations about provisions in the authority’s formula for a 2.5% increase in the amount per pupil determined under the preceding year’s regulations are modified. Regulation 11(7) of these Regulations now provides that the increase is to be an average amount taken over each of three categories i.e. key stages 1 and 2, key stages 3 and 4 and above compulsory school age.

Regulation 9(2) sets out the circumstances in which an authority are not required to consult on proposed changes to the factors or criteria which they use in their allocation formula. These are essentially circumstances where the Regulations leave the authority with no discretion as to the particular factor or criteria involved.

Regulation 20(4) provides that if there is a net increase during the financial year in a school’s adjusted budget share (used to calculate the amount of transitional funding under regulation 20) because of a change in the number of pupils with statements of special educational needs, or changes in the needs of such pupils, then the amount of the school’s transitional funding is not affected.

Additional provisions regarding the redetermination of budget shares to take into account certain matters relating to preceding financial years are set out in regulations 23, 24 and 25.

Part IV contains provisions about additional amounts, determined by reference to the primary, secondary and special schools maintained by the authority, to be added to the budget shares determined under Part III.

Part V contains a specific provision about the correction of errors during the financial year.

The main changes in Schedule 1, which refers to the expenditure which may be deducted from a local education authority’s local school’s budget, are as follows:

Paragraph 11 is expanded to include arrangements made with a view to avoiding or resolving disagreements with the parents of children with special educational needs.

A new paragraph 27(c) is added to cover expenditure on “Best Value” functions under the Local Government Act 1999 (c. 27) incurred in connection with the authority’s functions in relation to the provision of primary and secondary education.

Paragraph 27(p) has been expanded to refer specifically to the retention of funding to meet costs incurred in monitoring schools’ performance of health and safety duties.

Paragraph 31 has been modified to permit local education authorities to retain funding centrally to finance “emergency” payments to individual schools facing costs which they cannot reasonably be expected to meet from their delegated budgets. The requirement that they should always be unforeseeable items of expenditure has been relaxed.
