2005 No. 281

The Electromagnetic Compatibility Regulations 2005

PART II

APPLICATION

Exclusions

Apparatus for use in a sealed electromagnetic environment

17. These Regulations do not apply to—

- (a) the supply of any apparatus—
 - (i) for which the usual electromagnetic environment is a sealed electromagnetic environment; and
 - (ii) which is accompanied by instructions which state that the apparatus is suitable for use only in a sealed electromagnetic environment; or
- (b) the taking into service of any apparatus in such an environment.
