HISTORICAL COST ACCOUNTING RULES

Preliminary

Fixed assets

General rules

17.—(1) The amount to be included in respect of any fixed asset must be its purchase price or production cost.

(2) This is subject to any provision for depreciation or diminution in value made in accordance with paragraphs 18 to 20.

Rules for depreciation and diminution in value

18. In the case of any fixed asset which has a limited useful economic life, the amount of—

- (a) its purchase price or production cost, or
- (b) where it is estimated that any such asset will have a residual value at the end of the period of its useful economic life, its purchase price or production cost less that estimated residual value,

must be reduced by provisions for depreciation calculated to write off that amount systematically over the period of the asset's useful economic life.

19.—(1) Where a fixed asset investment falling to be included under item B.III of either of the balance sheet formats set out in Part 1 of this Schedule has diminished in value, provisions for diminution in value may be made in respect of it and the amount to be included in respect of it may be reduced accordingly.

Current assets

23. Subject to paragraph 24, the amount to be included in respect of any current asset must be its purchase price or production cost.

24.—(1) If the net realisable value of any current asset is lower than its purchase price or production cost, the amount to be included in respect of that asset must be the net realisable value.

(2) Where the reasons for which any provision for diminution in value was made in accordance with sub-paragraph (1) have ceased to apply to any extent, that provision must be written back to the extent that it is no longer necessary.

Miscellaneous and supplementary provisions

Excess of money owed over value received as an asset item

25.—(1) Where the amount repayable on any debt owed by a company is greater than the value of the consideration received in the transaction giving rise to the debt, the amount of the difference may be treated as an asset.

(2) Where any such amount is so treated—

(a) it must be written off by reasonable amounts each year and must be completely written off before repayment of the debt, and

(b) if the current amount is not shown as a separate item in the company's balance sheet, it must be disclosed in a note to the accounts.

Assets included at a fixed amount

- 26.—(1) Subject to sub-paragraph (2), assets which fall to be included—
- (a) amongst the fixed assets of a company under the item “tangible assets”, or
 - (b) amongst the current assets of a company under the item “raw materials and consumables”,
- may be included at a fixed quantity and value.
- (2) Sub-paragraph (1) applies to assets of a kind which are constantly being replaced where—
- (a) their overall value is not material to assessing the company's state of affairs, and
 - (b) their quantity, value and composition are not subject to material variation.

Determination of purchase price or production cost

27.—(1) The purchase price of an asset is to be determined by adding to the actual price paid any expenses incidental to its acquisition [^{F10}and then subtracting any incidental reductions in the cost of acquisition].

(2) The production cost of an asset is to be determined by adding to the purchase price of the raw materials and consumables used the amount of the costs incurred by the company which are directly attributable to the production of that asset.

(3) In addition, there may be included in the production cost of an asset—

- (a) a reasonable proportion of the costs incurred by the company which are only indirectly attributable to the production of that asset, but only to the extent that they relate to the period of production, and
- (b) interest on capital borrowed to finance the production of that asset, to the extent that it accrues in respect of the period of production,

provided, however, in a case within paragraph (b), that the inclusion of the interest in determining the cost of that asset and the amount of the interest so included is disclosed in a note to the accounts.

(4) In the case of current assets distribution costs may not be included in production costs.

Textual Amendments

F10 Words in Sch. 1 para. 27(1) added (with effect in accordance with reg. 2(2)-(5) of the amending S.I.) by [The Companies, Partnerships and Groups \(Accounts and Reports\) Regulations 2015 \(S.I. 2015/980\)](#), regs. 2(1), **28(3)(d)** (with reg. 3)

28.—(1) The purchase price or production cost of—

- (a) any assets which fall to be included under any item shown in a company's balance sheet under the general item “stocks”, and
- (b) any assets which are fungible assets (including investments),

may be determined by the application of any of the methods mentioned in sub-paragraph (2) in relation to any such assets of the same class, provided that the method chosen is one which appears to the directors to be appropriate in the circumstances of the company.

(2) Those methods are—

- (a) the method known as “first in, first out” (FIFO),
- (b) the method known as “last in, first out” (LIFO),
- (c) a weighted average price, and

(3) Where in the case of any company—

- (a) the purchase price or production cost of assets falling to be included under any item shown in the company's balance sheet has been determined by the application of any method permitted by this paragraph, and
- (b) the amount shown in respect of that item differs materially from the relevant alternative amount given below in this paragraph,

the amount of that difference must be disclosed in a note to the accounts.

(4) Subject to sub-paragraph (5), for the purposes of sub-paragraph (3)(b), the relevant alternative amount, in relation to any item shown in a company's balance sheet, is the amount which would have been shown in respect of that item if assets of any class included under that item at an amount determined by any method permitted by this paragraph had instead been included at their replacement cost as at the balance sheet date.

(5) The relevant alternative amount may be determined by reference to the most recent actual purchase price or production cost before the balance sheet date of assets of any class included under the item in question instead of by reference to their replacement cost as at that date, but only if the former appears to the directors of the company to constitute the more appropriate standard of comparison in the case of assets of that class.

- (b) any such record cannot be obtained without unreasonable expense or delay.

(2) In such a case, the purchase price or production cost of the asset must be taken, for the purposes of paragraphs 17 to 24, to be the value ascribed to it in the earliest available record of its value made on or after its acquisition or production by the company.

SECTION C
ALTERNATIVE ACCOUNTING RULES

Preliminary

30.—(1) The rules set out in Section B are referred to below in this Schedule as the historical cost accounting rules.

(2) Those rules, with the omission of paragraphs 16, 22 and 26 to 29, are referred to below in this Part of this Schedule as the depreciation rules; and references below in this Schedule to the historical cost accounting rules do not include the depreciation rules as they apply by virtue of paragraph 33.

31. Subject to paragraphs 33 to 35, the amounts to be included in respect of assets of any description mentioned in paragraph 32 may be determined on any basis so mentioned.

Alternative accounting rules

32.—(1) Intangible fixed assets, other than goodwill, may be included at their current cost.

(2) Tangible fixed assets may be included at a market value determined as at the date of their last valuation or at their current cost.

(3) Investments of any description falling to be included under item B III of either of the balance sheet formats set out in Part 1 of this Schedule may be included either—

- (a) at a market value determined as at the date of their last valuation, or
- (b) at a value determined on any basis which appears to the directors to be appropriate in the circumstances of the company.

But in the latter case particulars of the method of valuation adopted and of the reasons for adopting it must be disclosed in a note to the accounts.

Application of the depreciation rules

33.—(1) Where the value of any asset of a company is determined on any basis mentioned in paragraph 32, that value must be, or (as the case may require) be the starting point for determining, the amount to be included in respect of that asset in the company's accounts, instead of its purchase price or production cost or any value previously so determined for that asset. The depreciation rules apply accordingly in relation to any such asset with the substitution for any reference to its purchase price or production cost of a reference to the value most recently determined for that asset on any basis mentioned in paragraph 32.

(2) The amount of any provision for depreciation required in the case of any fixed asset by paragraphs 18 to 20 as they apply by virtue of sub-paragraph (1) is referred to below in this paragraph as the adjusted amount, and the amount of any provision which would be required by any of those paragraphs in the case of that asset according to the historical cost accounting rules is referred to as the historical cost amount.

(3) Where sub-paragraph (1) applies in the case of any fixed asset the amount of any provision for depreciation in respect of that asset—

- (a) included in any item shown in the profit and loss account in respect of amounts written off assets of the description in question, or
- (b) taken into account in stating any item so shown which is required by note (14) of the notes on the profit and loss account formats set out in Part 1 of this Schedule to be stated after taking into account any necessary provision for depreciation or diminution in value of assets included under it,

may be the historical cost amount instead of the adjusted amount, provided that the amount of any difference between the two is shown separately in the profit and loss account or in a note to the accounts.

Additional information to be provided in case of departure from historical cost accounting rules

34.—(1) This paragraph applies where the amounts to be included in respect of assets covered by any items shown in a company's accounts have been determined on any basis mentioned in paragraph 32.

(2) The items affected and the basis of valuation adopted in determining the amounts of the assets in question in the case of each such item must be disclosed in ^[F14]the note on accounting policies (see paragraph 44 of this Schedule)].

^[F15](3) In the case of each balance sheet item affected, the comparable amounts determined according to the historical cost accounting rules must be shown in a note to the accounts.]

(4) In sub-paragraph (3), references in relation to any item to the comparable amounts determined as there mentioned are references to—

- (a) the aggregate amount which would be required to be shown in respect of that item if the amounts to be included in respect of all the assets covered by that item were determined according to the historical cost accounting rules, and

- (b) the aggregate amount of the cumulative provisions for depreciation or diminution in value which would be permitted or required in determining those amounts according to those rules.

Textual Amendments

- F14** Words in Sch. 1 para. 34(2) substituted (with effect in accordance with reg. 2(2)-(5) of the amending S.I.) by [The Companies, Partnerships and Groups \(Accounts and Reports\) Regulations 2015 \(S.I. 2015/980\)](#), regs. 2(1), **28(4)(b)** (with reg. 3)

35.—(1) With respect to any determination of the value of an asset of a company on any basis mentioned in paragraph 32, the amount of any profit or loss arising from that determination (after allowing, where appropriate, for any provisions for depreciation or diminution in value made otherwise than by reference to the value so determined and any adjustments of any such provisions made in the light of that determination) must be credited or (as the case may be) debited to a separate reserve (“the revaluation reserve”).

(2) The amount of the revaluation reserve must be shown in the company's balance sheet under a separate sub-heading in the position given for the item “revaluation reserve” [^{F16}under “Capital and reserves”] in format 1 or 2 of the balance sheet formats set out in Part 1 of this Schedule^{F17}....

- (3) An amount may be transferred—
- (a) from the revaluation reserve—
- (i) to the profit and loss account, if the amount was previously charged to that account or represents realised profit, or
- (ii) on capitalisation,
- (b) to or from the revaluation reserve in respect of the taxation relating to any profit or loss credited or debited to the reserve.

The revaluation reserve must be reduced to the extent that the amounts transferred to it are no longer necessary for the purposes of the valuation method used.

(4) In sub-paragraph (3)(a)(ii) “capitalisation”, in relation to an amount standing to the credit of the revaluation reserve, means applying it in wholly or partly paying up unissued shares in the company to be allotted to members of the company as fully or partly paid shares.
