BANKING COMPANIES: COMPANIES ACT INDIVIDUAL ACCOUNTS

PART 2

ACCOUNTING PRINCIPLES AND RULES

SECTION B

HISTORICAL COST ACCOUNTING RULES

Miscellaneous and supplementary provisions

Excess of money owed over value received as an asset item

34.—(1) Where the amount repayable on any debt owed by a company is greater than the value of the consideration received in the transaction giving rise to the debt, the amount of the difference may be treated as an asset.

(2) Where any such amount is so treated—

- (a) it must be written off by reasonable amounts each year and must be completely written off before repayment of the debt, and
- (b) if the current amount is not shown as a separate item in the company's balance sheet, it must be disclosed in a note to the accounts.

Determination of cost

35.—(1) The cost of an asset that has been acquired by the company is to be determined by adding to the actual price paid any expenses incidental to its acquisition.

(2) The cost of an asset constructed by the company is to be determined by adding to the purchase price of the raw materials and consumables used the amount of the costs incurred by the company which are directly attributable to the construction of that asset.

(3) In addition, there may be included in the cost of an asset constructed by the company—

- (a) a reasonable proportion of the costs incurred by the company which are only indirectly attributable to the construction of that asset, but only to the extent that they relate to the period of construction, and
- (b) interest on capital borrowed to finance the construction of that asset, to the extent that it accrues in respect of the period of construction,

provided, however, in a case within paragraph (b), that the inclusion of the interest in determining the cost of that asset and the amount of the interest so included is disclosed in a note to the accounts.

36.—(1) The cost of any assets which are fungible assets (including investments), may be determined by the application of any of the methods mentioned in sub-paragraph (2) in relation to any such assets of the same class, provided that the method chosen is one which appears to the directors to be appropriate in the circumstances of the company.

(2) Those methods are—

- (a) the method known as “first in, first out” (FIFO),
- (b) the method known as “last in, first out” (LIFO),

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (c) a weighted average price, and
 - (d) any other method similar to any of the methods mentioned above.
- (3) Where in the case of any company—
- (a) the cost of assets falling to be included under any item shown in the company's balance sheet has been determined by the application of any method permitted by this paragraph, and
 - (b) the amount shown in respect of that item differs materially from the relevant alternative amount given below in this paragraph,

the amount of that difference must be disclosed in a note to the accounts.

(4) Subject to sub-paragraph (5), for the purposes of sub-paragraph (3)(b), the relevant alternative amount, in relation to any item shown in a company's balance sheet, is the amount which would have been shown in respect of that item if assets of any class included under that item at an amount determined by any method permitted by this paragraph had instead been included at their replacement cost as at the balance sheet date.

(5) The relevant alternative amount may be determined by reference to the most recent actual purchase price before the balance sheet date of assets of any class included under the item in question instead of by reference to their replacement cost as at that date, but only if the former appears to the directors of the company to constitute the more appropriate standard of comparison in the case of assets of that class.

Substitution of original stated amount where price or cost unknown

- 37.—**(1) This paragraph applies where—
- (a) there is no record of the purchase price of any asset acquired by a company or of any price, expenses or costs relevant for determining its cost in accordance with paragraph 35, or
 - (b) any such record cannot be obtained without unreasonable expense or delay.
- (2) In such a case, its cost is to be taken, for the purposes of paragraphs 23 to 33, to be the value ascribed to it in the earliest available record of its value made on or after its acquisition by the company.
