EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations amend regulations relating to the making and recovery of charges in relation to the supply of drugs and the provision of treatment as part of the health service in England, so as to enable the provision of treatment in relation to pandemic influenza without charge.

Regulation 2 amends the National Health Service (Charges for Drugs and Appliances) Regulations 2000, which make provision for charges for the supply of drugs and appliances under the National Health Service Act 2006. The amendment provides that no charge shall be made by a Primary Care Trust, NHS trust or NHS foundation trust when there is a pandemic disease (such as pandemic influenza) which poses a serious risk, or potentially poses a serious risk, to human health (or such a disease is anticipated imminently) and the supply of the drug is in accordance with a protocol relating to that disease as provided for in article 12F of the Prescription Only Medicines (Human Use) Order 1997 or article 8 of the Medicines (Pharmacy and General Sale—Exemption) Order 1980.

Regulation 3 amends the National Health Service (Charges to Overseas Visitors) Regulations 1989 (“the 1989 Regulations”), which make provision for charges in respect of the provision of certain NHS treatment to persons not ordinarily resident in the United Kingdom (“overseas visitors”). Regulations 3(c) of the 1989 Regulations provides that no charge shall be made in respects of services forming part of the health service that are provided for an overseas visitor for treatment in respect of a disease listed in Schedule 1 to the 1989 Regulations. Regulation 3 of these Regulations amends that Schedule to insert an entry for pandemic influenza. The effect is that an overseas visitor who is being treated in a hospital for pandemic influenza will not be charged for any NHS treatment in respect of that condition.

A full regulatory impact assessment has not been produced for this instrument as it has no impact on the private and voluntary sectors.
