EXPLANATORY NOTE

(This note is not part of the Order)

This Order designates two further documents in relation to which certain decisions of the Gas and Electricity Markets Authority (“GEMA”) may be appealed to the Competition Commission under Part 3 Chapter 4 of the [Energy Act 2004](#). Six documents were originally designated by the Electricity and Gas Appeals (Designation and Exclusion) Order 2005 ([S.I. 2005/1646](#)).

The documents designated by article 3 of this Order are the independent Gas Transporters’ Uniform Network Code (available from Gemserv Limited on the website “[www.igt-unc.co.uk](#)”) and the Distribution Connection and Use of System Agreement (available from DCUSA Limited on the website “[www.dcusa.co.uk](#)”). The licences referred to in this Order may be inspected at the offices of the Gas and Electricity Markets Authority, 9 Millbank, London, SW1P 3GE.

The Order also provides for the circumstances in which what would otherwise be an appealable decision is or may be excluded from the right of appeal. Article 4 excludes decisions which satisfy the condition set out in article 5 or 6, or where GEMA has determined that the delay resulting from an appeal would be likely to have a material adverse effect on the availability of electricity or gas for meeting the reasonable demands of consumers in Great Britain.

An Impact Assessment was prepared with respect to the proposal to extend the right of appeal to decisions in relation to the two further documents designated in this Order. A copy can be obtained from the Energy Markets and Infrastructure Group, Department of Energy and Climate Change, 1 Victoria Street, London, SW1H 0ET. Copies have been placed in the libraries of both Houses of Parliament.
