

SCHEDULE 3

PROVISIONS FOR CLASSIFYING DANGEROUS PREPARATIONS

PART II

CONCENTRATION LIMITS TO BE USED IN THE EVALUATION OF HEALTH HAZARDS

Gaseous preparations

6.2 For gases which produce such effects and for which specific concentration limits do not yet appear in Table 3.2 of part 3 of Annex VI of the CLP Regulation, concentration limits laid down in Table VIA, expressed as a volume/volume percentage, shall determine, where appropriate, the classification of the preparation.

The following symbol and risk phrases are assigned:

Carcinogenic categories 1 and 2:	T; R45 or R49
Carcinogenic category 3:	Xn; R40
Mutagenic categories 1 and 2:	T; R46
Mutagenic category 3:	Xn; R68
Toxic for reproduction fertility categories 1 and 2:	T; R60
Toxic for reproduction development categories 1 and 2:	T; R61
Toxic for reproduction fertility category 3:	Xn; R62
Toxic for reproduction development category 3:	Xn; R63

Table VIA

<i>Classification of the substance (gas)</i>	<i>Classification of the preparation</i>	
	<i>Categories 1 and 2</i>	<i>Category 3</i>
Carcinogenic substances of category 1 or 2 with R45 or R49	concentration \geq 0.1% carcinogenic R45, R49 obligatory as appropriate	
Carcinogenic substances of category 3 with R40		concentration \geq 1% carcinogenic R40 obligatory (<i>unless already assigned R45(*)</i>)
Mutagenic substances of category 1 or 2 with R46	concentration \geq 0.1% mutagenic R46 obligatory	

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Classification of the substance (gas)	Classification of the preparation	
	Categories 1 and 2	Category 3
Mutagenic substances of category 3 with R68(**)		concentration \geq 1%mutagenic R68(**) obligatory (<i>unless already assigned R46</i>)
Substances “toxic for reproduction” of category 1 or 2 with R60 (fertility)	concentration \geq 0.2%toxic for reproduction (fertility) R60 obligatory	
Substances “toxic for reproduction” of category 3 with R62 (fertility)		concentration \geq 1%toxic for reproduction(fertility) R62 obligatory (<i>unless already assigned R60</i>)
Substances “toxic for reproduction” of category 1 or 2 with R61 (development)	concentration \geq 0.2%toxic for reproduction(development) R61 obligatory	
Substances “toxic for reproduction” of category 3 with R63 (development)		concentration \geq 1% toxic for reproduction (development) R63 obligatory (<i>unless already assigned R61</i>)

(*) In cases where the preparation is assigned R49 and R40, both R phrases shall be kept, because R40 does not distinguish between the exposure routes, whereas R49 is only assigned for the inhalation route.

(**) R68 here refers to substances classified as mutagenic. Concentration limits for substances required to be labelled R68 but classified as harmful are given in Table IIA.
