

**EXPLANATORY MEMORANDUM TO
THE SMOKE CONTROL AREAS (AUTHORISED FUELS) (ENGLAND)
REGULATIONS 2012**

2012 No. 814

1. This explanatory memorandum has been prepared by the Department for Environment, Food and Rural Affairs (Defra) and is laid before Parliament by Command of Her Majesty.

2. Purpose of the instrument

2.1 This instrument consolidates and revokes five sets of regulations which declare fuels to be authorised fuels for the purposes of Part II of the Clean Air Act 1993. Those regulations are SI 2008/2342, SI 2009/2191, SI 2010/576, SI 2011/715 and SI 2011/2105. Two new fuels (Excel+ Briquettes and Newheat Briquettes) are being added to the list of authorised fuels and an additional product name to an existing authorised fuel (Briteheat briquettes, also known as Stoveheat Premium briquettes).

3. Matters of special interest to the Joint Committee on Statutory Instruments or the Select Committee on Statutory Instruments

3.1 None.

4. Legislative Context

4.1 Section 20 of the Clean Air Act 1993 prohibits the emission of smoke from chimneys in smoke control areas, save from certain “authorised fuels”. It is a defence to a charge of emitting smoke if you can show you used an authorised fuel.

4.2 Section 20(6) of the 1993 Act provides that the Secretary of State may authorise fuels for use in smoke control areas by regulations and these regulations are made in exercise of those powers.

4.3 These regulations add two new fuels to the list of authorised fuels and amend an existing fuel as follows:

- Excel+ Briquettes
- Newheat Briquettes
- Briteheat Briquettes and Stoveheat Premium Briquettes (amendment)

5. Territorial Extent and Application

5.1 This instrument applies to England.

6. **European Convention on Human Rights**

As the instrument is subject to negative resolution procedure and does not amend primary legislation, no statement is required.

7. **Policy background**

- *What is being done and why*

7.1 The Clean Air Act 1993 (a consolidation of 1956 and 1968 legislation) aims to safeguard public health from emissions of smoke. In particular it empowers local authorities to declare smoke control areas in which it is an offence to emit smoke from chimneys. Households in those areas must use an “authorised” smokeless fuel – electricity, gas, or a solid smokeless fuel – or install an “exempt” appliance capable of burning “unauthorised” smoky fuels (house coal or wood, for example) without emitting smoke.

7.2 Since 1956 many local authorities have introduced smoke control areas in the major cities and urban areas. The controls which apply in smoke control areas have helped to significantly reduce concentrations of smoke and sulphur dioxide in those parts of the country.

7.3 The Act provides the Secretary of State with power to authorise fuels for use in smoke control areas. These are fuels which have been tested by the Department against the British Standard test for solid smokeless fuels for domestic use.

- *Consolidation*

7.4 This instrument consolidates five sets of regulations which declare fuels to be authorised fuels for the purposes of Part II of the Clean Air Act 1993. Those regulations are SI 2008/2342, SI 2009/2191, SI 2010/576, SI 2011/715 and SI 2011/2105.

8. **Consultation outcome**

8.1 No consultation is necessary as this does not impose any burdens but is merely the result of technical analysis of the fuel on behalf of the manufacturer. This instrument does not amend the Clean Air Act 1993 but simply consolidates five regulations amending the Smoke Control Areas (Authorised Fuels) (England) Regulations (S.I. 2008/514)

9. **Guidance**

9.1 Guidance on smoke control and fuel which are authorised can be found on the Defra website at:

<http://smokecontrol.defra.gov.uk/fuels.php>

10. Impact

10.1 An Impact Assessment has not been prepared for this instrument as it has no impact on business, charities or voluntary bodies.

11. Regulating small business

11.1 This instrument regulates the authorisation of fuels for use in Smoke Control Areas. It does not regulate small businesses.

12. Monitoring and review

12.1 The order containing the schedule of authorised fuels is usually amended twice a year to include new authorised fuels and amendments to fuels already authorised.

13. Contact

Graham Lott at the Department for Environment, Food and Rural Affairs. Tel: 020 7238 5380 or e-mail: graham.lott@defra.gsi.gov.uk can answer any queries regarding this instrument.
