

SCHEDULE 3

Minimum data and information to be included in a safety report

6. Measures of protection and intervention to limit the consequences of a major accident—
 - (a) a description of the equipment installed in the plant to limit the consequences of major accidents for human health and the environment, including for example detection/protection systems, technical devices for limiting the size of accidental releases, including water spray; vapour screens; emergency catch pots or collection vessels; shut-off valves; inerting systems; and fire water retention;
 - (b) the organisation of alert and intervention;
 - (c) a description of mobilisable resources, internal or external; and
 - (d) a description of any technical and non-technical measures relevant for the reduction of the impact of a major accident.
