- (b) such longer period, not exceeding 90 days from the date on which the person making the request submits the information required under paragraph (2) or (3) as may be agreed in writing with the person making the request.

(7) Where the relevant planning authority considers that due to exceptional circumstances relating to the circumstances of the proposed development that it is not practicable for it to adopt a screening opinion within the relevant period specified in paragraph (6), the relevant planning authority may extend that period by notice in writing given to the person who made the request for a screening opinion.

(8) The relevant planning authority must state in any notice given under paragraph (7) the reasons justifying the extension of time and the date when the determination is expected.

(9) A relevant planning authority which adopts a screening opinion pursuant to paragraph (6) must send a copy to the person who made the request.

(10) Where a relevant planning authority—

- (a) fails to adopt a screening opinion within the relevant period mentioned in paragraph (6); or
- (b) adopts an opinion to the effect that the development is EIA development,

the person who requested the opinion may request the Secretary of State to make a screening direction.

(11) A person may make a request pursuant to paragraph (10) even if the relevant planning authority has not received the additional information which it has sought under paragraph (5).

Requests for screening directions of the Secretary of State

7.—(1) A person who pursuant to regulation 6(10) requests the Secretary of State to make a screening direction must submit with the request—

(2) A person making such a request must send to the relevant planning authority a copy of that request and of any representations made to the Secretary of State.

(3) If the Secretary of State considers that sufficient information to make a screening direction has not been provided, the Secretary of State must give notice in writing to the person making the

request of the points on which additional information is required, and may request the relevant planning authority to provide such information as they can on any of those points.

(4) A person providing additional information pursuant to a notice under paragraph (3) must, where that information is of a type specified in regulation 6(2) or (3), prepare that information in accordance with the requirements of regulation 6(4).

(5) The Secretary of State must make a screening direction following a request under regulation 5(6)(b) or 6(10) within—

- (a) 3 weeks beginning with the date of receipt of the request; or
- (b) where the Secretary of State gives notice under paragraph (3), such longer period not exceeding 90 days beginning with the date on which the person making the request for a screening direction submits the information required under paragraph (3) as may be reasonably required,
but this is subject to paragraph (6).

(6) Where the Secretary of State considers that due to exceptional circumstances relating to the proposed development it is not practicable to make a screening direction within the period specified in paragraph (5), the Secretary of State may extend that period by giving notice in writing to the person who made the request for a screening direction.

(7) The Secretary of State must state in any notice given under paragraph (6) the reasons justifying the extension of time and the date when the determination is expected.

PART 3

Procedures relating to applications for planning permission

Applications which appear to require screening opinion

8.—(1) Where it appears to the relevant planning authority that—

- (a) an application which is before them for determination is a Schedule 1 application or a Schedule 2 application;
- (b) the development in question has not been the subject of a screening opinion or screening direction; and
- (c) the application is not accompanied by a statement referred to by the applicant as an environmental statement for the purposes of these Regulations,

paragraphs (5) and (6) of regulation 6 apply as if the receipt or lodging of the proposal were a request made under regulation 6(1).

(2) Where regulation 6(5) applies by virtue of this regulation the relevant planning authority must, where necessary to ensure that the developer has provided the information referred to in regulation 6(2), make a request for additional information before issuing a screening opinion.

Subsequent applications where environmental information previously provided

9.—(1) This regulation applies where it appears to the relevant planning authority that—

- (a) an application which is before them for determination—
 - (i) is a subsequent application in relation to Schedule 1 or Schedule 2 development;
 - (ii) has not itself been the subject of a screening opinion or screening direction; and

- (iii) is not accompanied by a statement referred to by the applicant as an environmental statement for the purposes of these Regulations; and
- (b) either—
 - (i) the application for planning permission to which the subsequent application relates was accompanied by a statement referred to by the applicant as an environmental statement for the purposes of these Regulations; or
 - (ii) the application is for the approval of a matter where the approval is required by or under a condition to which planning permission deemed by section 10(1) of the Crossrail Act 2008^(a) (Planning) or section 20(1) or 50(5)(a) of the High Speed Rail (London - West Midlands) Act 2017^(b) (Deemed planning permission) and (Enforcement of environmental covenants) is subject.

(2) Where it appears to the relevant planning authority that the environmental information already before them is adequate to assess the significant effects of the development on the environment, they must take that information into consideration in their decision for subsequent consent.

(3) Where it appears to the relevant planning authority that the environmental information already before them is not adequate to assess the significant effects of the development on the environment, they must serve a notice seeking further information in accordance with regulation 25.

Subsequent applications where environmental information not previously provided

10.—(1) Where it appears to the relevant planning authority that—

- (a) an application which is before them for determination—
 - (i) is a subsequent application in relation to Schedule 1 or Schedule 2 development;
 - (ii) has not itself been the subject of a screening opinion or screening direction; and
 - (iii) is not accompanied by a statement referred to by the applicant as an environmental statement for the purposes of these Regulations; and
- (b) the application for planning permission to which the subsequent application relates was not accompanied by a statement referred to by the applicant as an environmental statement for the purposes of these Regulations,

paragraphs (5) and (6) of regulation 6 apply as if the receipt or lodging of the subsequent application were a request made under regulation 6(1).

(2) Where regulation 6(5) applies by virtue of this regulation, the relevant planning authority must, where necessary to ensure that the applicant has provided the information referred to in regulation 6(3)(c), make a request for additional information before issuing a screening opinion.

EIA applications made to a relevant planning authority without an environmental statement

11.—(1) Where an EIA application which is before a relevant planning authority for determination is not accompanied by a statement referred to by the applicant as an environmental statement for the purposes of these Regulations, the relevant planning authority must notify the applicant in writing that the submission of an environmental statement is required.

(2) Where the relevant planning authority is aware that any particular person is or is likely to be affected by, or has an interest in, the application, who is unlikely to become aware of it by means of a site notice or by local advertisement, the relevant planning authority must notify the applicant of any such person.

(3) A relevant planning authority must notify the applicant in accordance with paragraph (1) within 3 weeks beginning with the date of receipt of the application or such longer period as may

(a) 2008 c. 18.
 (b) 2017 c.7.

be agreed in writing with the applicant; but where the Secretary of State, after the expiry of that period of 3 weeks or of any longer period so agreed, makes a screening direction to the effect that the development is EIA development, the relevant planning authority must so notify the applicant within 7 days beginning with the date the relevant planning authority received a copy of that screening direction.

(4) An applicant receiving a notification pursuant to paragraph (1) may, within 3 weeks beginning with the date of the notification, write to the relevant planning authority stating—

- (a) that the applicant accepts the view of the relevant planning authority and is providing an environmental statement; or
- (b) unless the condition referred to in paragraph (5) is satisfied, that the applicant is writing to the Secretary of State to request a screening direction.

(5) For the purpose of paragraph (4)(b) the condition is—

- (a) if the application referred to in paragraph (1) is an application for planning permission, that the Secretary of State has made a screening direction in respect of the development; or
- (b) if the application referred to in paragraph (1) is a subsequent application, that the Secretary of State has made a screening direction in respect of the development on a date after the subsequent application was submitted.

(6) If the applicant does not write to the relevant planning authority in accordance with paragraph (4), the permission or subsequent consent sought is, unless the condition referred to in paragraph (7) is satisfied, deemed to be refused at the end of period referred to in paragraph (4), and the deemed refusal—

- (a) must be treated as a decision of the relevant planning authority for the purposes of article 40(4)(c) (register of applications) of the Order; but
- (b) must not give rise to an appeal to the Secretary of State under section 78(a) of the Act (right to appeal against planning decisions and failure to take such decisions).

(7) For the purpose of paragraph (6) the condition is—

- (a) if the application referred to in paragraph (1) is an application for planning permission, that the Secretary of State has made a screening direction to the effect that the development is not EIA development; or
- (b) if the application referred to in paragraph (1) is a subsequent application, that the Secretary of State has made a screening direction to the effect that the development is not EIA development on a date after the subsequent application was submitted.

(8) A relevant planning authority which has given a notification in accordance with paragraph (1) must, unless the Secretary of State makes a screening direction to the effect that the development is not EIA development, determine the relevant application only by refusing planning permission or subsequent consent if the applicant does not submit an environmental statement and comply with regulation 20(6).

(9) A person who requests a screening direction pursuant to paragraph (4)(b) must send the request to the Secretary of State together with copies of—

- (a) the request to the relevant planning authority under regulation 6(1) and the documents which accompanied it;
- (b) any notification made under regulation 6(5) and any response sent by that person to the relevant planning authority;

(a) Section 78 has been amended by section 17 of the 1991 Act; section 43 of the Planning and Compulsory Purchase Act 2004; sections 196 and 197 of, paragraphs 1 and 3 of Schedule 10 to, and paragraphs 1 and 2 of Schedule 11 to, the Planning Act 2008; sections 121 and 123 of, and paragraphs 1 and 11 of Schedule 12 to, the Localism Act 2011; section 1 of, and paragraphs 1 and 8 of Schedule 1 to, the Growth and Infrastructure Act 2013; article 3 of, and paragraphs 1 and 3 of Schedule 1 to, S.I. 2014/2773; section 30 of, and paragraphs 2 and 12 of Part 2 of Schedule 4 to, the Infrastructure Act 2015; and section 150 of, and paragraphs 1 and 21 of Schedule 12 to, the Housing and Planning Act 2016.

- (d) all documents sent to the relevant planning authority as part of the application;
 - (e) all correspondence between the applicant and the relevant planning authority relating to the proposed development;
 - (f) a copy of any planning permission granted for the development; and
 - (g) in the case of a subsequent application, documents or information relating to the planning permission granted for the development to which the subsequent application relates,
- and paragraphs (2) to (8) of regulation 7 apply to a request under this regulation as they apply to a request made pursuant to regulation 6(10).

EIA applications made directly to the Secretary of State without an environmental statement

12.—(1) Where an application has been made directly to the Secretary of State under section 62A of the Act (When application may be made directly to the Secretary of State), and it appears to the Secretary of State that—

- (a) it is a Schedule 1 application or a Schedule 2 application;
- (b) the development in question has not been the subject of a screening opinion or screening direction; and
- (c) the application is not accompanied by a statement referred to by the applicant as an environmental statement for the purposes of these Regulations,

paragraphs (2) to (8) of regulation 7 apply as if the application were a request made by the applicant pursuant to regulation 6(10).

(2) Where regulation 7(3) applies to an application made under section 62A of the Act (When application may be made directly to the Secretary of State) the Secretary of State must, where necessary to ensure that the developer has provided the information referred to in regulation 6(2), make a request for additional information before issuing a screening direction.

(3) Where the Secretary of State has determined that an application made under section 62A of the Act (When application may be made directly to the Secretary of State) is an EIA application and it is not accompanied by a statement referred to by the applicant as an environmental statement for the purposes of these Regulations, the Secretary of State must notify the applicant in writing that the submission of an environmental statement is required and must send a copy of that notification to the relevant planning authority.

(4) The Secretary of State must notify the applicant of a determination under paragraph (3) within 3 weeks beginning with the date the application was received or such longer period as may be agreed in writing with the applicant.

(5) Where the Secretary of State is aware that any particular person is, or is likely to be, affected by, or has an interest in, the application, who is unlikely to become aware of it by means of a site notice or by local advertisement, the Secretary of State must notify the applicant of any such person.

(6) An applicant who receives a notification under paragraph (3) may, within 3 weeks beginning with the date of the notification, confirm in writing to the Secretary of State that an environmental statement will be provided.

(8) Where—

- (a) a notification has been given under paragraph (3), and
- (b) the applicant does not submit an environmental statement and comply with regulation 20(6),

the Secretary of State must determine the relevant application only by refusing planning permission.

(9) In this regulation, “Schedule 1 application” and “Schedule 2 application” are to be taken to include subsequent applications.

Application referred to the Secretary of State without an environmental statement

13.—(1) Where an application has been referred to the Secretary of State for determination under section 77 of the Act (reference of applications to Secretary of State), and it appears to the Secretary of State that—

- (a) it is a Schedule 1 application or a Schedule 2 application; and
- (b) the development in question—
 - (i) has not been the subject of a screening opinion or screening direction; or
 - (ii) in the case of a subsequent application, was the subject of a screening opinion or direction before planning permission was granted to the effect that it is not EIA development; and
- (c) the application is not accompanied by a statement referred to by the applicant as an environmental statement for the purposes of these Regulations,

paragraphs (3) to (8) of regulation 7 apply as if the referral of the application were a request made by the applicant pursuant to regulation 6(10).

(2) Where regulation 7(3) applies to an application by virtue of paragraph (1), the Secretary of State must, where necessary to ensure that the developer has provided—

- (a) in the case of applications for planning permission, the information referred to in regulation 6(2); and
- (b) in the case of subsequent applications, the information referred to in regulation 6(3),

make a request for additional information before issuing a screening direction.

(3) Where the Secretary of State has determined that an application referred to the Secretary of State under section 77 of the Act (reference of applications to Secretary of State) for determination is an EIA application but is not accompanied by a statement referred to by the applicant as an environmental statement for the purposes of these Regulations, the Secretary of State must notify the applicant in writing that the submission of an environmental statement is required and must send a copy of that notification to the relevant planning authority.

(4) The Secretary of State must notify the applicant of the Secretary of State’s determination under paragraph (3) within 3 weeks beginning with the date the application was received or such longer period as may be reasonably required.

(5) Where the Secretary of State is aware that any particular person is or is likely to be affected by, or has an interest in, the application, and that particular person is unlikely to become aware of the application by means of a site notice or by local advertisement, the Secretary of State must notify the applicant of any such person.

(6) An applicant who receives a notification under paragraph (3) may, within 3 weeks beginning with the date of the notification, confirm in writing to the Secretary of State that an environmental statement will be provided.

(7) If the applicant does not write in accordance with paragraph (6), the Secretary of State is not under a duty to deal with the application and at the end of the period referred to in paragraph (6) must inform the applicant in writing that no further action is being taken on the application.

(8) Where—

- (a) a notification has been given under paragraph (3), and
- (b) the applicant does not submit an environmental statement and comply with regulation 20(6),

the Secretary of State must determine the relevant application only by refusing planning permission or subsequent consent.

(9) In this regulation, “Schedule 1 application” and “Schedule 2 application” are to be taken to include subsequent applications.

Appeal to the Secretary of State without an environmental statement

14.—(1) Where on consideration of an appeal under section 78 of the Act (right to appeal against planning decisions and failure to take such decisions) it appears to the Secretary of State that—

- (a) the application to which the appeal relates (“the relevant application”) is a Schedule 1 application or a Schedule 2 application; and
- (b) the development in question—
 - (i) has not been the subject of a screening opinion or screening direction; or
 - (ii) in the case of a relevant application which is a subsequent application, was the subject of a screening opinion or direction before planning permission was granted to the effect that it is not EIA development; and
- (c) the relevant application is not accompanied by a statement referred to by the appellant as an environmental statement for the purposes of these Regulations,

paragraphs (3) to (8) of regulation 7 apply as if the appeal were a request made by the appellant pursuant to regulation 6(10).

(2) Where an inspector is dealing with an appeal and a question arises as to whether the relevant application is an EIA application and it appears to the inspector that it may be such an application, the inspector must refer that question to the Secretary of State and must not determine the appeal, except by refusing planning permission or subsequent consent, before a screening direction is made.

(3) Paragraphs (3) to (8) of regulation 7 apply to a question referred under paragraph (2) as if the referral of that question were a request made by the appellant pursuant to regulation 6(10).

(4) Where regulation 7(3) applies to an appeal by virtue of paragraph (1) or (3) the Secretary of State must, where necessary to ensure that the developer has provided—

- (a) in the case of a relevant application which is an application for planning permission, the information referred to in regulation 6(2); and
- (b) in the case of a relevant application which is a subsequent application the information referred to in regulation 6(3),

make a request for additional information before issuing a screening direction.

(5) Where it appears to the Secretary of State that the relevant application is an EIA application and is not accompanied by a statement referred to by the appellant as an environmental statement for the purposes of these Regulations, the Secretary of State must notify the appellant in writing that the submission of an environmental statement is required and must send a copy of that notification to the relevant planning authority.

(6) Where the Secretary of State is aware that any particular person is or is likely to be affected by, or has an interest in, the application, and that particular person is unlikely to become aware of the application by means of a site notice or by local advertisement, the Secretary of State must notify the appellant of any such person.

(7) An appellant who receives a notification under paragraph (5), may within 3 weeks beginning with the date of the notification, confirm in writing to the Secretary of State that an environmental statement will be provided.

(8) If the appellant does not write in accordance with paragraph (7), the Secretary of State or, where relevant, the inspector, is not under a duty to deal with the appeal; and at the end of the period referred to in paragraph (7) must inform the appellant that no further action is being taken on the appeal.

- (a) a notification has been given under paragraph (5), and
- (b) the appellant does not submit an environmental statement and comply with regulation 20(6),

the Secretary of State or, where relevant, the inspector, must determine the appeal only by refusing planning permission or subsequent consent.

(10) In this regulation, “Schedule 1 application” and “Schedule 2 application” are to be taken to include subsequent applications.

PART 4

Preparation of environmental statements

Scoping opinions of the local planning authority

15.—(1) A person who is minded to make an EIA application may ask the relevant planning authority to state in writing their opinion as to the scope and level of detail of the information to be provided in the environmental statement (a “scoping opinion”).

(2) A request under paragraph (1) must include—

- (a) in relation to an application for planning permission—
 - (i) a plan sufficient to identify the land;
 - (ii) a brief description of the nature and purpose of the development, including its location and technical capacity;
 - (iii) an explanation of the likely significant effects of the development on the environment; and
 - (iv) such other information or representations as the person making the request may wish to provide or make;
- (b) in relation to a subsequent application—
 - (i) a plan sufficient to identify the land;
 - (ii) sufficient information to enable the relevant planning authority to identify any planning permission granted for the development in respect of which the subsequent application is made;
 - (iii) an explanation of the likely significant effects on the environment which were not identified at the time planning permission was granted; and
 - (iv) such other information or representations as the person making the request may wish to provide or make.

(3) An authority receiving a request under paragraph (1) must, if it considers that it has not been provided with sufficient information to adopt a scoping opinion, notify the person making the request of the points on which it requires additional information.

(4) An authority must not adopt a scoping opinion in response to a request under paragraph (1) until it has consulted the consultation bodies, but must, subject to paragraph (5), within 5 weeks beginning with the date of receipt of that request for a scoping opinion, or such longer period as may be agreed in writing with the person making the request, adopt a scoping opinion and must send a copy to the person who made the request.

(5) Where a person has, at the same time as making a request for a screening opinion under regulation 6(1), asked the authority for an opinion under paragraph (1), and the authority has adopted a screening opinion to the effect that the development is EIA development, the authority must, within 5 weeks beginning with the date on which that screening opinion was adopted, or such longer period as may be agreed in writing with the person making the request, adopt a scoping opinion and must send a copy to the person who made the request.

(6) Before adopting a scoping opinion the authority must take into account—

- (a) any information provided by the applicant about the proposed development;
- (b) the specific characteristics of the particular development;
- (c) the specific characteristics of development of the type concerned; and

(d) the environmental features likely to be significantly affected by the development.

(7) Where an authority fails to adopt a scoping opinion within the relevant period mentioned in paragraph (4) or (5), the person who requested the opinion may under regulation 16(1) ask the Secretary of State to make a direction as to the information to be provided in the environmental statement (a “scoping direction”).

(8) Paragraph (7) applies notwithstanding that the authority may not have received the additional information which it has sought under paragraph (3).

(9) An authority which has adopted a scoping opinion following a request under paragraph (1) shall not be precluded from requiring of the person who made the request additional information in connection with any statement that may be submitted by that person as an environmental statement in connection with an application for planning permission or a subsequent application for the same development.

Scoping directions of the Secretary of State

16.—(1) A person who, under regulation 15(7), requests the Secretary of State to make a scoping direction (“scoping direction request”) must submit with the scoping direction request—

- (a) a copy of the scoping opinion request made to the relevant planning authority under regulation 15(1), including any information supplied with that request as required by regulation 15(2);
- (b) a copy of any notification under regulation 15(3) related to that request and of any response;
- (c) a copy of any screening opinion received by the person in relation to that request and of any accompanying statement of reasons; and
- (d) any representations that the person making the scoping direction request wishes to make.

(2) A person making a scoping direction request under paragraph (1) must send to the relevant planning authority a copy of that scoping direction request, but that copy need not include the matters mentioned in sub-paragraphs (a) to (c) of paragraph (1).

(3) If the Secretary of State considers that the information provided pursuant to paragraph (1) is insufficient to make a scoping direction, the Secretary of State must give notice in writing to the person making the scoping direction request of any points on which additional information is required; and may request the relevant planning authority to provide such information as they can on any of those points.

(4) The Secretary of State—

- (a) must consult the consultation bodies before making a scoping direction in response to a scoping direction request, and
- (b) within 5 weeks beginning with the date of receipt of that request, or such longer period as may be reasonably required, must make a scoping direction and send a copy to the person who made the scoping direction request and to the relevant planning authority.

(5) Before making a scoping direction the Secretary of State must take into account the matters specified in regulation 15(6).

(6) Neither the Secretary of State who has made a scoping direction in response to a request under paragraph (1) nor the relevant planning authority shall be precluded from requiring of the person who made the request additional information in connection with any statement that may be submitted by that person as an environmental statement in connection with an application for planning permission or a subsequent application for the same development.

Procedure to facilitate preparation of environmental statements

17.—(1) Any person who intends to submit an environmental statement to the relevant planning authority or the Secretary of State under these Regulations may give notice in writing to that authority or the Secretary of State under this paragraph.

(2) A notice under paragraph (1) must include the information necessary to identify the land and the nature and purpose of the development, and must indicate the main environmental consequences to which the person giving the notice proposes to refer in their environmental statement.

(3) The recipient of—

- (a) such notice as is mentioned in paragraph (1); or
- (b) a written statement made pursuant to regulation 11(4)(a), 12(6), 13(6) or 14(7),

- (ii) inform in writing the person who intends to submit an environmental statement of the names and addresses of the bodies so notified.

(4) Subject to paragraph (5), the relevant planning authority and any body notified in accordance with paragraph (3) must, if requested by the person who intends to submit an environmental statement, consult that person to determine whether the authority or body has in its possession any information which that person or they consider relevant to the preparation of the environmental statement and, if they have, the authority or body must make that information available to that person.

(5) A planning authority or other body which receives a request for information under paragraph (4) must treat it as a request for information under regulation 5(1) of the Environmental Information Regulations 2004(a) (duty to make available environmental information on request).

PART 5

Publicity and procedures on submission of environmental statements and decision making

Environmental statements

18.—(1) Subject to regulation 9, an EIA application must be accompanied by an environmental statement for the purposes of these Regulations.

(2) A subsequent application is to be taken to be accompanied by an environmental statement for the purpose of paragraph (1) where the application for planning permission to which it relates was accompanied by a statement referred to by the applicant as an environmental statement for the purposes of these Regulations, but this is subject to regulation 9.

(3) An environmental statement is a statement which includes at least—

- (a) a description of the proposed development comprising information on the site, design, size and other relevant features of the development;
- (b) a description of the likely significant effects of the proposed development on the environment;
- (c) a description of any features of the proposed development, or measures envisaged in order to avoid, prevent or reduce and, if possible, offset likely significant adverse effects on the environment;
- (d) a description of the reasonable alternatives studied by the developer, which are relevant to the proposed development and its specific characteristics, and an indication of the main reasons for the option chosen, taking into account the effects of the development on the environment;

- (e) a non-technical summary of the information referred to in sub-paragraphs (a) to (d); and
 - (f) any additional information specified in Schedule 4 relevant to the specific characteristics of the particular development or type of development and to the environmental features likely to be significantly affected.
- (4) An environmental statement must—
- (a) where a scoping opinion or direction has been issued in accordance with regulation 15 or 16, be based on the most recent scoping opinion or direction issued (so far as the proposed development remains materially the same as the proposed development which was subject to that opinion or direction);
 - (b) include the information reasonably required for reaching a reasoned conclusion on the significant effects of the development on the environment, taking into account current knowledge and methods of assessment; and
 - (c) be prepared, taking into account the results of any relevant UK environmental assessment, which are reasonably available to the person preparing the environmental statement, with a view to avoiding duplication of assessment.
- (5) In order to ensure the completeness and quality of the environmental statement—
- (a) the developer must ensure that the environmental statement is prepared by competent experts; and
 - (b) the environmental statement must be accompanied by a statement from the developer outlining the relevant expertise or qualifications of such experts.

Procedure where an environmental statement is submitted to a local planning authority

19.—(1) An applicant who makes an EIA application must submit to the relevant planning authority an additional copy of the environmental statement for transmission to the Secretary of State.

(2) If, at the same time as serving the environmental statement on the relevant planning authority under paragraph (1) the applicant serves a copy of the environmental statement on any other body, the applicant must—

- (a) serve with it a copy of the application and any plan submitted with the application (unless these have already been provided to the body in question);
- (b) inform the body that representations may be made to the relevant planning authority; and
- (c) inform the authority of the name of each body so served and of the date of service.

(3) When a relevant planning authority receives an environmental statement in connection with an EIA application under paragraph (1), the relevant planning authority must—

- (a) send to the Secretary of State, within 14 days of receipt of the statement, a copy of the statement and a copy of the application and of any documents submitted with the application;
- (b) inform the applicant of the number of copies required to enable the authority to comply with sub-paragraph (c);
- (c) forward to any consultation body which has not received a copy directly from the applicant a copy of the environmental statement and inform any such consultation body that they may make representations; and
- (d) where the relevant planning authority is aware of any particular person who is or is likely to be affected by, or has an interest in, the application, who is unlikely to become aware of it by means of a site notice or by local advertisement, send a notice to such person containing the details set out in regulation 20(2)(b) to (k) and the name and address of the relevant planning authority.

(4) The applicant must send the copies required for the purposes of paragraph (3)(c) to the relevant planning authority.

- (d) if planning permission or subsequent consent is to be granted, consider whether it is appropriate to impose monitoring measures.

(2) The relevant planning authority, the Secretary of State or the inspector, as the case may be, must not grant planning permission or subsequent consent for EIA development unless satisfied that the reasoned conclusion referred to in paragraph (1)(b) is up to date, and a reasoned conclusion is to be taken to be up to date if, in the opinion of the relevant planning authority, the Secretary of State or the inspector, as the case may be, it addresses the significant effects of the

proposed development on the environment that are likely to arise as a result of the proposed development.

- (c) consider, in order to avoid duplication of monitoring, whether any existing monitoring arrangements carried out in accordance with an obligation under the law of any part of the United Kingdom, other than under the Directive, are more appropriate than imposing a monitoring measure.

(4) In cases where no statutory timescale is in place the decision of the relevant authority or the Secretary of State, as the case may be, must be taken within a reasonable period of time, taking into account the nature and complexity of the proposed development, from the date on which the relevant authority or the Secretary of State has been provided with the environmental information.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations consolidate with amendments the provisions of the Town and Country Planning (Environmental Impact Assessment) Regulations 2011(e) (“the 2011 Regulations”) and subsequent amending instruments.

(a) OJ No. L 206, 22.7.1992, p.7.
 (b) OJ No. L 20, 26.1.2010, p.7.
 (c) OJ No. L 197, 24.7.2012, p. 1.
 (d) OJ No. L 172, 2.7.2009, p. 18.
 (e) S.I. 2011/1824.

These Regulations also implement amendments to Directive 2011/92/EU of the European Parliament and of the Council of 13 December 2011 on the assessment of the effects of certain public and private projects on the environment^(a) (“the Directive”) which were made by Directive 2014/52/EU^(b).

These Regulations implement the Directive in respect of the town and country planning system in England only. Regulations 60, 61 and 62 extend to Scotland, Wales and Northern Ireland respectively; they enable the Secretary of State to exempt developments having national defence as their sole purpose from the environmental impact assessment (“EIA”) procedures which would ordinarily be applicable under the town and country planning systems in each of the devolved administrations.

The main changes from the 2009 Regulations are:

- to the circumstances in which a project may be exempt from the EIA process;
- to the introduction of co-ordinated procedures for projects which are also subject to assessment under Council Directive 92/43/EEC^(c) on the conservation of natural habitats and of wild fauna and flora or Directive 2009/147/EC of the European Parliament and of the Council on the conservation of Wild Birds^(d);
- to the list of environmental factors to be considered as part of the EIA process;
- to the information to be provided to inform a screening decision and the criteria to be applied when making a screening decision;
- to the way in which an environmental statement is to be prepared, including an amendment to the information to be included in it, the introduction of a requirement that it be based upon a scoping opinion (where one has been obtained) and a requirement that it be prepared by a competent expert;
- to the means by which the public is to be informed of projects which are subject to the EIA process; and
- the introduction of a requirement for decision-makers to avoid conflicts of interest.

These Regulations were notified to the European Commission in accordance with Article 2 of Directive 2014/52/EU^(e).

It is normal practice to make available to Parliament, alongside primary or secondary legislation giving effect to European Directives, a Transposition Note that sets out how the Government will transpose the main elements of those Directives into UK law. The Transposition Note accompanying the Explanatory Memorandum to these Regulations is available from legislation.gov.uk.

A full regulatory impact assessment has not been produced for this instrument as no impact on the private or voluntary sectors is foreseen.
