2022 No. 1406

**The Network Rail (Cambridge South
Infrastructure Enhancements) Order 2022**

PART 2

WORKS PROVISIONS

Streets

Power to alter layout etc., of streets

9.—(1) Network Rail may for the purposes of the authorised works alter the layout of, or carry out any works in, the streets specified in columns (1) and (2) of Schedule 6 (streets subject to alteration of layout) in the manner specified in relation to that street in column (3) of that Schedule.

(2) Without limitation on the scope of the specific powers conferred by paragraph (1), but subject to paragraph (3), Network Rail may, for the purposes of constructing and maintaining any scheduled work, alter the layout of any street within the Order limits and the layout of any street having a junction with such a street; and, without limitation on the scope of that power, Network Rail may—

- (a) increase the width of the carriageway of the street by reducing the width of any kerb, footpath, footway, cycle track or verge within the street;
- (b) alter the level or increase the width of any such kerb, footpath, footway, cycle track or verge;
- (c) reduce the width of the carriageway of the street; and
- (d) temporarily remove any road hump within the street.

(3) Network Rail must restore to the reasonable satisfaction of the street authority any street which has been temporarily altered under this article.

(4) The powers conferred by paragraph (2) must not be exercised without the consent of the street authority, but such consent must not be unreasonably withheld.

(5) If within 28 days of receiving an application for consent under paragraph (4) a street authority fails to notify Network Rail of its decision or refuses consent without giving any grounds for its refusal, that street authority is deemed to have granted consent.

Power to execute street works

10.—(1) Network Rail may, for the purposes of the authorised works, enter upon any of the streets specified in Schedule 7 (streets subject to street works) as are within the Order limits to the extent necessary and may—

- (a) break up or open the street, or any sewer, drain or tunnel under it;
- (b) place apparatus in the street;
- (c) maintain apparatus in the street or change its position; and

(d) execute any works required for or incidental to any works referred to in subparagraphs (a), (b) and (c).

(2) In this article “apparatus” has the same meaning as in Part 3 of the 1991 Act.

Temporary stopping up of streets

11.—(1) Network Rail, during and for the purposes of the execution of the authorised works, may temporarily stop up, alter or divert any street and may for any reasonable time—

(a) divert the traffic from the street; and

(b) subject to paragraph (3), prevent all persons from passing along the street.

(2) Without limitation on the scope of paragraph (1), Network Rail may use any street stopped up under the powers conferred by this article within the Order limits as a temporary working site.

(3) Network Rail must provide reasonable access for pedestrians going to or from premises abutting a street affected by the temporary stopping up, alteration or diversion of a street under this article if there would otherwise be no such access.

(4) Without limitation on the scope of paragraph (1), Network Rail may temporarily stop up, alter or divert the streets specified in columns (1) and (2) of Schedule 8 (streets to be temporarily stopped up) to the extent specified in column (3) of that Schedule.

(5) Network Rail must not exercise the powers conferred by this article—

(a) in relation to any street specified as mentioned in paragraph (4) without first consulting the street authority and in relation to Long Road access track only (as identified in columns (1) and (2) of Schedule 8) St Mary’s School; and

(b) in relation to any other street without the consent of the street authority which may attach reasonable conditions to any consent, but such consent must not be unreasonably withheld;

(6) Any person who suffers loss by the suspension of any private right of way under this article is entitled to compensation to be determined, in case of dispute, as if it were a dispute under Part 1 of the 1961 Act.

(7) If within 28 days of receiving an application for consent under paragraph (5)(b) a street authority fails to notify Network Rail of its decision or refuses consent without giving any grounds for its refusal that street authority is deemed to have granted consent.

Construction and maintenance of new or altered highways

12.—(1) Any highway (including a shared footpath/cycleway) to be constructed under this Order must be completed to the reasonable satisfaction of the highway authority and, unless otherwise agreed in writing between Network Rail and the highway authority in whose area the highway lies, must be maintained by and at the expense of Network Rail for a period of 12 months from its completion and from the expiry of that period by and at the expense of the highway authority.

(2) Where a highway is altered or diverted under this Order, the altered or diverted part of the highway must, when completed to the reasonable satisfaction of the highway authority in whose area the highway lies, unless otherwise agreed in writing with the highway authority, be maintained by and at the expense of Network Rail for a period of 12 months from its completion and from the expiry of that period by and at the expense of the highway authority.

(3) Paragraphs (1) and (2) do not apply in relation to the structure of any bridge or tunnel carrying a highway over or under any railway of Network Rail.

(4) In any action against Network Rail in respect of loss or damage resulting from any failure by it to maintain a highway under this article, it is a defence (without affecting any other defence or the application of the law relating to contributory negligence) to prove that Network Rail had taken

such care as in all the circumstances was reasonably required to secure that the part of the highway to which the action relates was not dangerous to traffic.

(5) For the purposes of a defence under paragraph (4), the court must in particular have regard to the following matters—

- (a) the character of the highway and the traffic which was reasonably to be expected to use it;
- (b) the standard of maintenance appropriate for a highway of that character and used by such traffic;
- (c) the state of repair in which a reasonable person would have expected to find the highway;
- (d) whether Network Rail knew, or could reasonably have been expected to know, that the condition of the part of the highway to which the action relates was likely to cause danger to users of the highway; and
- (e) where Network Rail could not reasonably have been expected to repair that part of the highway before the cause of action arose, what warning notices of its condition had been displayed,

but for the purposes of such a defence it is not relevant to prove that Network Rail had arranged for a competent person to carry out or supervise the maintenance of the part of the highway to which the action relates unless it is also proved that Network Rail had given the competent person proper instructions with regard to the maintenance of the highway and that the competent person had carried out those instructions.

Access to works

13.—(1) Network Rail may, for the purposes of the authorised works—

- (a) form and lay out means of access, or improve existing means of access, in the locations specified in columns (1) and (2) of Schedule 9 (access to works); and
- (b) with the approval of the highway authority, form and lay out such other means of access or improve existing means of access, at such locations within the Order limits as Network Rail reasonably requires for the purposes of the authorised works.

(2) If a highway authority fails to notify Network Rail of its decision within 28 days of receiving an application for approval under paragraph (1)(b), that highway authority is deemed to have granted approval.

Use of private roads for construction and operation

14.—(1) Network Rail may use any private road within the Order limits for the passage of persons or vehicles (with or without materials, plant and machinery) for the purposes of, or in connection with, the construction and operation of the authorised works.

(2) Network Rail must compensate the person liable for the repair of a road to which paragraph (1) applies for any loss or damage which that person may suffer by reason of the exercise of the power conferred by paragraph (1).

(3) Any dispute as to a person's entitlement to compensation under paragraph (2), or as to the amount of such compensation, is to be determined as if it were a dispute under Part 1 of the 1961 Act.

Agreements with street authorities

15.—(1) A street authority and Network Rail may enter into agreements with respect to—

- (a) the construction of any new street (including any structure carrying the street over or under a railway) under the powers conferred by this Order;

- (b) the strengthening, improvement, repair or reconstruction of any street under the powers conferred by this Order;
 - (c) the maintenance of the structure of any bridge constructed under the powers conferred by this Order;
 - (d) any stopping up, alteration or diversion of a street under the powers conferred by this Order; or
 - (e) the execution in the street of any of the works referred to in article 10(1) (power to execute street works).
- (2) Such an agreement may, without limitation on the scope of paragraph (1)—
- (a) make provision for the street authority to carry out any function under this Order which relates to the street in question; and
 - (b) contain such terms as to payment and otherwise as the parties consider appropriate.
