2005 No. 1806

The Hazardous Waste (Wales) Regulations 2005

PART 6

MOVEMENT OF HAZARDOUS WASTE

Consignment codes

Coding standard

33.—(1) It is the duty of the Agency from time to time to designate, and at all times to maintain in force a designation of, a standard (in these Regulations referred to as a “coding standard”), making provision for the composition of consignment codes for the purposes of this Part.

(2) The coding standard must enable each consignment of hazardous waste to be given a unique consignment code.

(3) The standard must make provision for different codes for consignment notes completed in relation to hazardous waste removed by pipeline pursuant to regulation 41, where piping is continuous for more than one quarter.

(4) The standard must make provision for consignment codes to consist of letters, numbers or symbols, or any combination of letters, numbers and symbols.

Consignment codes

34.—(1) It is the duty of—

(a) the producer, in relation to—

(i) a consignment of hazardous waste to be removed from premises at which the waste is produced (other than a ship);

(ii) hazardous waste to be removed by pipeline from premises (other than a ship) situated in a case to which regulation 41 applies; or

(iii) hazardous waste to be deposited within the curtilage of premises at which it was produced;

(b) the master of the ship, in relation to any hazardous waste removed from a ship in a harbour area (including waste accidentally spilled on land adjacent to the ship); and

(c) the consignor, in relation to any other consignment of hazardous waste,

to assign to the hazardous waste a unique code in accordance with the coding standard for the time being in force.

(2) The code assigned pursuant to paragraph (1) is to be the consignment code of the hazardous waste concerned for the purposes of these Regulations.
