(16) Where the National Assembly has carried out an examination of the crop referred to in paragraph 14(a) or the crops referred to in paragraph 14(b), or has carried out an examination of both the crop referred to in paragraph 14(b), it shall inform the applicant whether it is satisfied that the seed used to produce the crop to which the application relates was satisfactory seed to be used for the production of CS seed, and if the National Assembly is satisfied that this is the case, the seed used to produce the crop, and seed from the same seed lot, shall be treated as being seed that has been subject to satisfactory official post control for the production of CS seed.

(17) This paragraph applies to the following categories of seed—

- (a) in the case of an application made under this regulation relating to a crop that has been produced from breeder's seed and from which it is intended to harvest pre-basic seed, to the category of basic seed;
- (b) in the case of an application made under this regulation relating to a crop that has been produced from officially certified pre-basic seed and from which it is intended to harvest pre-basic seed, to the categories of basic and CS seed;
- (c) in the case of an application made under this regulation relating to a crop that has been produced from breeder's seed and from which it is intended to harvest basic seed, to the category of pre-basic seed; and
- (d) in the case of an application made under this regulation relating to a crop produced from officially certified pre-basic seed and from which it is intended to harvest basic seed, to the categories of pre-basic and CS seed.

(18) In this regulation “seed that is subject to official post control” means seed from a seed lot for which a control plot has been sown by or on behalf of the National Assembly, the Secretary of State, the Scottish Ministers or the Department of Agriculture and Rural Development, as the case may be, to determine whether, having regard to the conditions laid down in—

- (a) paragraphs 1, 4 and 6 of Schedule 3, and
- (b) paragraphs 1, 2 and 8 of Schedule 4,

the plants produced in the plot indicate that the corresponding plants in the field are satisfactory plants from which to harvest CS seed.

### **Lodging of field inspection reports and similar documents**

9.—(1) An application to lodge a copy of a document to which paragraph (2) applies may be made to the National Assembly by a registered person.

  - (ii) in relation to a crop produced in the United Kingdom elsewhere than in Wales, by a copy of the document referred to in paragraph (2)(b) except that this need not

be provided in a case where confirmation that the crop meets the conditions for the production of the appropriate category of seed has already been provided to the National Assembly by or on behalf of the Scottish Ministers, the Secretary of State or the Department of Agriculture and Rural Development (as the case may be);

(iii) in relation to a crop produced in another member State, by a copy of the document referred to in paragraph (2)(c); and

(iv) by such other information and documents as the National Assembly may require.

(4) The National Assembly may permit, subject to any conditions that it may impose, an application made under this regulation relating to a crop for which the applicant previously made an application under regulation 8(3) to be accompanied by the following document instead of the field inspection report issued under regulation 8(10) or 8(12), namely a document relating to the crop (whether relating to that crop alone or relating to other crops in respect of which an application has been made by the applicant under regulation 8(3)—

- (a) that states, by reference to the relevant category, the conditions met by that crop;
- (b) that identifies the licensed crop inspector or inspectors who inspected the crop;

- (d) that contains such other information as the National Assembly may require.

(5) Where a document of the type specified in paragraph (4) accompanies an application made under this regulation instead of a field inspection report, the applicant shall produce the field inspection report referred to in paragraph (3) to the National Assembly on demand during the period of three years from the date of the issue of the field inspection report and shall make a copy of the report available to it on request during that period.

### **Re-grading of crops**

**10.—(1)** An application to re-grade a crop for the production of a category of seed to which paragraph (6) applies as a crop for the production of another category of seed (“the new category”) to which that paragraph applies may be made to the National Assembly by a registered person.

(2) An application made under this regulation shall be made in such form and manner and at such time as the National Assembly shall require and shall be accompanied by—

- (a) a copy of the field inspection report previously issued in respect of the crop unless this has previously been lodged with it, and
- (b) such other information as the National Assembly may require for the purpose of determining the application.

(3) Where an application has been made under this regulation in respect of a crop that has not been harvested—

(a) the National Assembly shall, in the case of an application to re-grade a crop as crop to produce pre-basic or basic seed, carry out a field inspection of the crop to determine whether it meets the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of the new category of seed if—

- (i) the previous field inspection report issued in respect of the crop was not issued by it, and
- (ii) the condition and stage of development of the crop permit an adequate examination; and

(b) the National Assembly may, in the case of an application to re-grade a crop to produce CS seed, carry out a field inspection of the crop to determine whether it meets the conditions

laid down in Schedule 3 and Part I of Schedule 4 for the production of the new category of seed if the condition and stage of development of the crop permit an adequate examination.

- (4) If the National Assembly—
- (a) in the case of an application to re-grade a crop as a crop to produce pre-basic or basic seed—
- (i) has carried out a field inspection of the crop (whether in connection with the original application for a field inspection of the crop or in accordance with paragraph (3)),
  - (ii) is satisfied that the crop has been produced by or under the responsibility of the breeder according to accepted practices for the maintenance of the variety, and
  - (iii) that the crop meets or (if the crop has already been harvested) would have met the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of the new category of seed, or
- (b) in the case of an application to re-grade a crop as a crop to produce CS seed—
- (i) is satisfied that the crop has been produced directly from UK, EC or overseas tested officially certified basic seed of a listed variety, or, with the breeder's authority, from UK, EC or overseas tested officially certified pre-basic seed of a listed variety, and
  - (ii) is satisfied that the crop meets or (if the crop has already been harvested) would have met the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of CS seed,
- the National Assembly shall notify the applicant that the crop has been found to meet or (if the crop has already been harvested) it has been found that it would have met the conditions referred to in sub-paragraph (a)(iii) or (b)(ii), as the case may be, and that the application to re-grade the crop has been successful.
- (5) If the National Assembly is satisfied that the conditions specified in paragraph (4) have not been met it shall notify the applicant that the application to re-grade the crop has been unsuccessful.
- (6) This paragraph applies to the following categories of seed—

- (c) seed as CS seed (“a regulation 11(1)(c) seed lot”).

(2) An application made under this regulation shall not be made in respect of seed of a variety that is not listed, or seed of a component of a hybrid variety that is not listed, unless—

- (a) an application for listing of the variety or hybrid variety has been made which has not been withdrawn or finally determined; or
- (b) a marketing extension is in force in respect of the variety or hybrid variety.

(3) An application made under this regulation may be considered by the National Assembly instead of a licensed seed testing station.

(4) If permitted by the National Assembly, an application made under this regulation may be made to it instead of a licensed seed testing station.

- (5) An application made under this regulation—
- (a) shall be made in such form and manner and at such time as the National Assembly may require, and
  - (b) shall be accompanied by an official sample of the seed to be tested and such other information, material, seeds, records, illustrations and other documents as the National Assembly may require.

(6) Following the receipt of an application made under this regulation the licensed seed station (or the National Assembly) in case where paragraph (3) or (4) applies) shall, subject to paragraph (7), test seed taken from the official sample provided under paragraph (5)(b) to determine whether it meets the conditions laid down in Part II of Schedule 4—

- (a) for the category of seed for which the application is being made, and
- (b) unless requested not to do so by the applicant, for any other category of seed to which paragraph (14) applies.

- (a) for the appropriate category of seed, and
- (b) where applicable, for any other category of seed to which paragraph (14) applies.

(8) Subject to paragraph (13), where—

(9) Subject to paragraph (13), where it has been determined, by way of a Schedule 4 germination test, that the official sample taken from a regulation 11(1)(a) or (b) seed lot will not meet the applicable germination condition but the sample is found to satisfy the other conditions laid down in Part II of Schedule 4 for the appropriate category of seed, the licensed seed station (or the National Assembly) where paragraph (3) or (4) applies) shall issue a seed test report to the applicant containing a statement to that effect.

(10) Where (otherwise than in connection with a retest of the seed) the results of a Schedule 4 germination test of an official sample of a seed lot referred to in paragraph (1) are awaited, and, except for the result of that test, the official sample has otherwise been found to meet the other conditions laid down in Part II of Schedule 4—

- (a) for the appropriate category of seed, and
- (b) where applicable, for any other category of seed to which paragraph (14) applies,

the licensed seed station (or the National Assembly) in a case where paragraph (3) or (4) applies) shall, subject to paragraph (13), issue an interim seed test report to the applicant stating that the results of the Schedule 4 germination test for the official sample are awaited but that it has otherwise been

found to meet the other conditions laid down in Part II of Schedule 4 for the appropriate category of seed, and, where applicable, for any other category of seed to which paragraph (14) applies.

(11) Where, following the issue of an interim seed test report under paragraph (10), the tested seed is found to meet the applicable germination condition, the licensed seed station (or the National Assembly) in a case where paragraph (3) or (4) applies shall, subject to paragraph (13), issue a seed test report to the applicant stating that the official sample has been found to meet the conditions laid down in Part II of Schedule 4 for the appropriate category of seed, and, where applicable, for any other category of seed to which paragraph (14) applies.

(12) Subject to paragraphs (9) and (10), where an official sample of a seed lot referred to in paragraph (1) is found not to satisfy the conditions laid down in Part II of Schedule 4 for the appropriate category of seed, the licensed seed station (or the National Assembly) in a case where paragraph (3) or (4) applies shall issue and send to the applicant a seed test report—

- (a) stating that the official sample has been found not to meet those conditions, and
- (b) subject to paragraph (13), in a case where the seed has been tested to determine whether it meets the conditions laid down in Part II of Schedule 4 for any other category of seed to which paragraph (14) applies, stating (by reference to the relevant category) whether the seed has been found to meet the conditions for any such category.

(13) If it appears to the National Assembly that an official sample of the seed lot taken for the purpose of a test in order to ascertain whether it met the appropriate conditions laid down in Part II of Schedule 4 was not taken in accordance with the requirements of regulation 22 the National Assembly may—

- (a) in a case where paragraph (3) or (4) applies, refuse to issue a seed test report in accordance with paragraph (8), (9), (10), (11) or (12)(b), and, in such a case, shall notify the applicant of the National Assembly's decision and the reason for it, or
- (b) in a case where paragraph (3) or (4) does not apply, refuse to issue a seed test report in accordance with those paragraphs and the licensed seed testing station shall comply with that direction and shall notify the applicant of the reason for its refusal to issue the report.

- (b) containing seed harvested from a crop produced in the United Kingdom elsewhere than in Wales—
  - (i) in respect of which the National Assembly has received confirmation by or on behalf of the Secretary of State, the Scottish Ministers, the or the Department of Agriculture and Rural Development (as the case may be) that the crop meets conditions equivalent to those laid down in Schedule 3 and Part I of Schedule 4, or

- (ii) for which a copy of the field inspection report relating to the crop has been lodged with the National Assembly in accordance with regulation 9; or
- (c) imported into the United Kingdom as not finally certified pre-basic, basic or CS seed harvested in another member State and for which the Annex V(C) document relating to the crop from which the seed in the seed lot was harvested has been lodged with the National Assembly in accordance with regulation 9.

### **Lodging of seed test reports**

**12.**—(1) A registered person to whom a final seed test report has been sent shall lodge the report with the National Assembly—

## EXPLANATORY NOTE

*(This note is not part of the Regulations)*

These Regulations apply in Wales and come into force on 18 November 2005. They revoke and replace, with modifications, the Vegetable Seeds Regulation 1993 (S.I. 1993/2008) insofar as they apply to Wales. They also revoke the Vegetable Seeds (Amendment) Regulations 1996 (S.I. 1996/1452) and the Vegetable Seeds (Amendment) Regulations 1999 (S.I. 1999/1863) insofar as they apply to Wales and the Vegetable Seeds (Amendment)(Wales) Regulations 2001 (S.I. 2001/3667), all of which amended the 1993 Regulations. These Regulations also provide that, where there is a requirement for a consent to have been obtained either in accordance with Council Directive [2001/18/EC](#) on the deliberate release to the environment of genetically modified organisms or in accordance with Council Regulation [\(EC\) No 1829/2003](#) on genetically modified food and feed.

The 1993 Regulations implemented the provisions of Council Directive [70/458/EEC](#) on the marketing of vegetable seed (O.J. No. L225, 12.10.1970, p.7, OJ/SE 1970 (III) p.674). That Directive, as amended, was replaced by Council Directive [2002/55/EC](#) on the marketing of vegetable seed (O.J. L193, 20.7.2002, p.33). These Regulations implement the provisions of that Directive.

The Regulations apply to the certification and marketing of vegetable seed of the species specified in Schedule 2 to these Regulations (regulation 5).

The Regulations include provisions that lay down the procedures relating to the certification of vegetable seed in Wales (Part II), including provisions relating to the entry of seed lots (regulation 6), the entry of crops (regulation 7), the field inspection of crops (regulation 8), the lodging of field inspection reports and similar documents (regulation 9), the re-grading of crops (regulation 10), seed testing (regulation 11), the lodging of seed test reports (regulation 12), the re-grading of seed (regulation 13) and the withdrawal of official certification (regulation 14).

The Regulations include provisions that prohibit the marketing of vegetable seed in Wales except for seed that falls into one of the categories listed in Schedule 6 (regulation 15). These categories are defined in Schedule 1. The prohibition does not apply in the case of seed of a category that is not listed in Schedule 6 where an authorisation has been granted for scientific purposes or selection work (regulation 18) or for the market testing (regulation 19) or is authorised by a general licence made under regulation 20.

The Regulations lay down requirements relating to the sampling (regulation 22) and packaging (regulation 23) of seed and the sealing (regulation 24) and labelling of packages (regulation 25) of seed.

The Regulations enable the National Assembly to make arrangements for any person to act under its responsibility in carrying out official measures (regulation 28) and include provisions relating to the charging of fees (regulation 29).

The contravention of these Regulations is a criminal offence (section 16(7) of the Plant Varieties and Seeds Act 1964).

A Regulatory Appraisal has been prepared for these Regulations. A copy of the Regulatory Appraisal can be obtained from the Department for Environment, Planning and Countryside, National Assembly for Wales, Cathays Park, Cardiff CF10 3NQ.
