and shall send the report, or (in a case where the original report is to be retained as a lodged report by the National Assembly) a copy of the report, to the applicant.

(12) Where in the case of an application made to a licensed crop inspector under paragraph (3) the inspected crop is found not to satisfy the conditions laid down in Schedule 3 or Part I of Schedule 4 for the production of CS seed, the licensed crop inspector shall issue a field inspection report to the applicant stating that the crop has been found not to meet those conditions.

- (b) the results of the examination of the control plot show that the plants produced in the plot do not meet the conditions laid down in Schedule 3 or Part I or III of Schedule 4 for the production of the category of seed intended to be harvested,

the National Assembly may take account of the results of that examination when carrying out an inspection of the crop to which the paragraph (1) or (3) application relates and in determining whether it should issue a field inspection report under paragraph (9) or (11).

(14) Where paragraph (15) applies, the National Assembly may carry out its own examination of—

(16) Where the National Assembly has carried out an examination of the crop referred to in paragraph (14)(i) or the crops referred to in paragraph (14)(ii), or has carried out an examination of both the crop referred to in paragraph (14)(i) and the crops referred to in paragraph (14)(ii), it shall inform the applicant whether it is satisfied that the seed used to produce the crop to which the application relates was satisfactory seed to be used for the production of CS seed, and, if the National Assembly is satisfied that this is the case, the seed used to produce the crop, and seed from the same seed lot, shall be treated as being seed that has been subject to satisfactory official post control for the production of CS seed.

(17) This paragraph applies to the following categories of seed—

- (a) in the case of an application made under paragraph (1) relating to a crop that has been produced from breeder's seed or officially certified pre-basic seed and from which it is intended to harvest pre-basic seed, to the category of basic seed, and

- (v) by such other information and documents as the National Assembly may require.

(4) The National Assembly may permit, subject to any conditions that it may impose, an application made under this regulation relating to a crop for which the applicant previously made a application under regulation 7(3) to be accompanied by the following document instead of the field inspection report issued under regulation 7(10) or (12), namely a document relating to the crop (whether relating to that crop alone or relating to other crops in respect of which an application has been made by the applicant under regulation 7(3))—

- (a) that states, by reference to the relevant category, the conditions met by that crop;
- (b) that identifies the licensed crop inspector or inspectors who inspected the crop;
- (c) that states that during a period of three years from the date of issue of the field inspection report, the original report will be produced to the National Assembly on demand and that a copy of the report will be made available to it on request during that period; and
- (d) that contains such other information as the National Assembly may require.

(5) Where a document of the type specified in paragraph (4) accompanies an application made under this regulation instead of a field inspection report, the applicant shall produce the field inspection report referred to in paragraph (3) to the National Assembly on demand during the period of three years from the date of the issue of the field inspection report and shall make a copy of the report available to it on request during that period.

(2) An application made under this regulation shall be made in such form and manner and at such time as the National Assembly shall require and shall be accompanied by—

- (a) a copy of the field inspection report previously issued in respect of the crop unless this has previously been lodged with it, and
- (b) such other information as the National Assembly may require for the purpose of determining the application.

(3) Where an application under this regulation has been made in respect of a crop that has not been harvested the National Assembly shall carry out a field inspection of the crop to determine whether it meets the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of the new category of seed if—

- (a) the previous field inspection report issued in respect of the crop was not issued by it, and
- (b) the condition and stage of development of the crop permit an adequate examination.

(4) If the National Assembly—

- (a) has carried out a field inspection of the crop (whether in connection with the original application for a field inspection of the crop or in accordance with paragraph (3));
- (b) is satisfied that the crop has been produced by or under the responsibility of the breeder according to accepted practices for the maintenance of the variety; and
- (c) is satisfied that the crop meets or (if the crop has already been harvested) would have met the conditions laid down in Schedule 3 and Part I of Schedule 4 for the production of the new category of seed;

it shall notify the applicant that the crop has been found to meet or (if the crop has already been harvested) it has been found that it would have met the conditions referred to in paragraph (c) and that the application to re-grade the crop has been successful.

(5) If the National Assembly is satisfied that the conditions specified in paragraph (4) have not been met it shall notify the applicant that the application to re-grade the crop has been unsuccessful.

Seed testing

10.—(1) Subject to paragraphs (2), (3) and (4), an application may be made to a licensed seed testing station by a registered person for the testing of an official sample of a qualifying seed lot of—

- (a) seed as pre-basic seed (“a regulation 10(1)(a) seed lot”);
- (b) seed as basic seed (“a regulation 10(1)(b) seed lot”); or
- (c) seed as CS seed (“a regulation 10(1)(c) seed lot”).

(2) An application made under this regulation shall not be made in respect of seed of a variety that is not listed, or seed of a component of a hybrid variety that is not listed, unless—

- (a) an application for listing of the variety, or hybrid variety, has been made which has not been withdrawn or finally determined, or
- (b) a marketing extension is in force in respect of the variety or hybrid variety.

(3) An application made under this regulation may be considered by the National Assembly instead of a licensed seed testing station.

(4) If permitted by the National Assembly, an application made under this regulation may be made to it instead of a licensed seed testing station.

(5) An application made under this regulation shall—

- (a) be made in such form and manner and at such time as the National Assembly may require, and
- (b) be accompanied by an official sample of the seed to be tested and such other information, material, seeds, records, illustrations and other documents as the National Assembly may require.

(6) Following the receipt of an application made under this regulation the licensed seed testing station (or the National Assembly in a case where paragraph (3) or (4) applies) shall, subject to paragraph (7), test seed taken from the official sample provided under paragraph (5)(b) to determine whether it meets the conditions laid down in Part II of Schedule 4—

- (a) for the category of seed for which the application is being made, and
- (b) unless requested not to do so by the applicant, for any other category of seed to which paragraph (14) applies.

(7) Where a seed test report has previously been issued by a licensed seed testing station (or the National Assembly in a case where paragraph (3) or (4) applies) in accordance with paragraph (8) (a), (9), (10), (11) or (12) in respect of a seed lot, the licensed seed testing station (or the National Assembly in a case where paragraph (3) or (4) applies) may decide not to test any further official sample of that seed lot for the purposes of paragraph (6) if the information contained in the previously issued report contains sufficient information to enable it (or the National Assembly) to determine that the official sample would meet the conditions laid down in Part II of Schedule 4—

- (a) for the appropriate category of seed, and
- (b) where applicable, for any other category of seed to which paragraph (14) applies.

(8) Subject to paragraph (13), where—

- (a) the official sample is found to satisfy the conditions laid down in Part II of Schedule 4 for
 - (i) the appropriate category of seed, and
 - (ii) where applicable, for any other category of seed to which paragraph (14) applies, or
- (b) the provisions of paragraph (7) apply,

the licensed seed testing station (or the National Assembly where paragraph (3) or (4) applies) shall issue a seed test report to the applicant stating (by reference to the relevant category or categories of seed) that the seed lot has been found to meet those conditions.

(9) Subject to paragraph (13), where it has been determined, by way of a Schedule 4 germination test, that the official sample taken from a regulation 10(1)(a) or (b) seed lot will not meet the applicable germination condition but the sample is found to satisfy all the other conditions laid down in Part II of Schedule 4 for the appropriate category of seed, the licensed seed testing station (or the National Assembly where paragraph (3) or (4) applies), shall issue a seed test report to the applicant containing a statement to that effect.

(10) Where (otherwise than in connection with a retest of the seed) the results of a Schedule 4 germination test of an official sample of a seed lot referred to in paragraph (1) are awaited, and, except for the result of that test, the official sample has otherwise been found to meet all the other conditions laid down in Part II of Schedule 4—

- (a) for the appropriate category of seed, and
- (b) where applicable, for any other category of seed to which paragraph (14) applies,

the licensed seed testing station (or the National Assembly in a case where paragraph (3) or (4) applies), shall, subject to paragraph (13), issue an interim seed test report to the applicant stating that the results of the Schedule 4 germination test for the official sample are awaited but that it has otherwise been found to meet all the other conditions laid down in Part II of Schedule 4 for the appropriate category of seed, and, where applicable, for any relevant category of seed to which paragraph (14) applies.

(11) Where, following the issue of an interim seed test report under paragraph (10), the tested seed is found to meet the applicable germination condition, the licensed seed testing station (or the National Assembly in a case where paragraph (3) or (4) applies), shall, subject to paragraph (13), issue a seed test report to the applicant stating that the official sample has been found to meet the conditions laid down in Part II of Schedule 4 for the appropriate category of seed, and, where applicable, for any other category of seed to which paragraph (14) applies.

(12) Subject to paragraphs (9) and (10), where an official sample of a seed lot referred to in paragraph (1) is found not to satisfy the conditions laid down in Part II of Schedule 4 for the

appropriate category of seed, the licensed seed testing station (or the National Assembly in a case where paragraph (3) or (4) applies) shall issue and send to the applicant a seed test report—

- (a) stating that the official sample has been found not to meet those conditions, and
- (b) subject to paragraph (13), in a case where the seed has been tested to determine whether it meets the conditions laid down in Part II of Schedule 4 for any other category of seed to which paragraph (14) applies, stating (by reference to the relevant category) whether the seed has been found to meet the conditions for any such category.

(13) If it appears to the National Assembly that an official sample of the seed lot taken for the purpose of a test in order to ascertain whether it met the appropriate conditions laid down in Part II of Schedule 4 was not taken in accordance with the requirements of regulation 20 the National Assembly may—

- (a) in a case where paragraph (3) or (4) applies, refuse to issue a seed test report in accordance with paragraph (8), (9), (10), (11) or (12)(b), and, in such a case, shall notify the applicant of its decision and the reason for it, or
- (b) in a case where paragraph (3) or (4) does not apply, direct the licensed seed testing station to refuse to issue a seed test report in accordance with those paragraphs and the licensed seed testing station shall comply with that direction and shall notify the applicant of the reason for its refusal to issue the report.

(14) This paragraph applies to the following categories of seed—

- (a) in the case of an application made under this regulation relating to a regulation 10(1)(a) seed lot, to the category of basic seed, and
- (b) in the case of an application made under this regulation relating to a regulation 10(1)(b) seed lot, other than a component of a hybrid variety, to the category of pre-basic seed.

(15) In this regulation “qualifying seed lot” means a seed lot—

- (b) containing seed harvested from a crop produced in the United Kingdom elsewhere than in Wales—
 - (i) in respect of which the National Assembly has received confirmation of crop approval by or on behalf of the Secretary of State, the Scottish Ministers or the Department of Agriculture and Rural Development (as the case may be) that the crop meets conditions equivalent to those laid down in Schedule 3 and Part I of Schedule 4, or
 - (ii) for which a copy of the field inspection report relating to the crop has been lodged with the National Assembly in accordance with regulation 8; or
- (c) imported into the United Kingdom as—
 - (i) not finally certified pre-basic, basic or CS seed harvested in another member State and for which the Annex IV(C) document relating to the crop from which the seed in the seed lot was harvested has been lodged with the National Assembly in accordance with regulation 8, or

- (ii) not finally certified CS seed harvested in an equivalent third country and for which the Annex II.A(3) official certificate relating to the crop from which the seed in the seed lot was harvested has been lodged with the National Assembly in accordance with regulation 8.

Lodging of seed test reports

11.—(1) A registered person to whom a final seed test report has been sent shall lodge the report with the National Assembly—

- (a) except in relation to seed to which sub-paragraph (b) applies, within one month of the report being issued or within such time as the National Assembly may otherwise allow; and
- (b) in a case where the seed to which the final seed test report relates—

(5) Where the National Assembly has previously provided the applicant with a seed test report list, the list periodically provided to the applicant under paragraph (4) shall list only those seed lots for which the applicant has lodged a final seed test report with it during the period since it last provided the applicant with a seed test report list.

(6) In this regulation “final seed test report” means a seed test report issued in accordance with regulation 10(8), (9), (11) or (12).

the National Assembly shall notify the applicant that the application to re-grade the seed lot has been successful.

(5) Where the National Assembly is satisfied that the conditions specified in paragraph (4) have not been met it shall inform the applicant that the application to re-grade the seed lot has been unsuccessful.

Withdrawals

13.—(1) The National Assembly may withdraw the official certification in respect of a seed lot, or any part of a seed lot, if—
