1.—(1) For the purposes of monitoring under Article 6 of the Community TSE Regulation, a person who has in their possession or under their control the body of a bovine animal that must be tested in accordance with point 3(1) of Part I of Chapter A of Annex III to that Regulation, or the body of any goat aged 18 months or over at death, must—

- (a) within 24 hours from the time when the animal dies or was killed or the body comes into their possession or charge notify the Welsh Ministers; and
- (b) detain it until it has been collected by or on behalf of the Welsh Ministers,

and failure to do so is an offence.

(2) This paragraph does not apply in relation to goats slaughtered for human consumption or killed in accordance with Schedule 4.

Consignment and slaughter of an over-age bovine animal

2. If a bovine animal was born or reared in the United Kingdom before 1 August 1996, it is an offence—

- (a) to consign it to a slaughterhouse for human consumption (whether the animal is alive or dead); or
- (b) to slaughter it for human consumption in a slaughterhouse.

Brain stem sampling of bovine animals

3.—(1) The occupier of a slaughterhouse in which a bovine animal specified in point 2(1) or 2(2) of Part I of Chapter A of Annex III to the Community TSE Regulation is slaughtered must—

- (a) take a sample comprising the brain stem for testing in accordance with point 1 of Chapter C of Annex X to the Community TSE Regulation;
- (b) ensure that the animal from which the sample has been taken can be identified; and
- (c) arrange for the sample to be delivered to an approved testing laboratory,

and failure to do so is an offence.

(2) The Welsh Ministers must, by means of a notice, notify the occupier of a slaughterhouse if an animal comes into any of the categories specified in point 2(1) of Part I of Chapter A to Annex III to the Community TSE Regulation (except in the case of a dead animal consigned to a slaughterhouse with a written declaration from a veterinary surgeon that it falls into one of those categories).

(3) In accordance with point 5 of Part I of Chapter A of Annex III to the Community TSE Regulation, the Welsh Ministers may serve a notice on the occupier of a slaughterhouse requiring them to take a sample from any bovine animal slaughtered there and send it for testing in accordance with sub-paragraph (1).

Approval of laboratories

4.—(1) The Welsh Ministers must approve laboratories to test samples taken under paragraph 3 if the Welsh Ministers are satisfied that the laboratory—

Status: This is the original version (as it was originally made).

- (a) will carry out the testing in accordance with Chapter C of Annex X to the Community TSE Regulation;
 - (b) has adequate quality control procedures; and
 - (c) has adequate procedures to ensure the correct identification of the samples and notification of the test results to the consigning slaughterhouse and to the Welsh Ministers.
- (2) The Welsh Ministers may charge the fees set out in the following table for the initial approval and ongoing quality assessment of a laboratory—

Fees for laboratory approvals and quality assessment

	Fee(£)
Initial approval	29,770
Annual proficiency testing and follow-up inspection for the first year after approval	8,834
Annual proficiency testing from the second year after approval	4,135
Single proficiency test (in the event of a failure in the annual proficiency testing)	1,385
Hourly rate of an inspector (for any additional inspections that are necessary to check for compliance with the matters set out at sub-paragraphs (1)(a) to (c))	87.24

(3) An “approved testing laboratory” (*“labordy profi cymeradwy”*) means a laboratory approved under this paragraph or a laboratory in another part of the United Kingdom approved by the competent authority to carry out the test.

Slaughter of bovine animals over 30 months of age

5.—(1) It is an offence for the occupier to use a slaughterhouse to slaughter for human consumption a bovine animal aged over 30 months unless the Welsh Ministers have approved the Required Method of Operation (“RMOP”) for that slaughterhouse and that occupier.

(2) The RMOP must, as a minimum—

- (a) describe the procedures that will be followed to comply with Part 1 of this Schedule; and
- (b) describe all the systems and procedures specified in Part 2 of this Schedule.

(3) The Welsh Ministers must approve the RMOP if the Welsh Ministers are satisfied that all the requirements of the Community TSE Regulation and these Regulations will be complied with, and the occupier must demonstrate this by means of an assessment of two days' duration in which animals are slaughtered (using bovine animals under 30 months old unless the slaughterhouse is operating for the purposes of Commission Regulation (EC) No 716/96 adopting exceptional support measures for the beef market in the United Kingdom⁽²⁴⁾).

(4) If a bovine animal aged over 30 months is slaughtered for human consumption other than in accordance with the RMOP, the occupier of the slaughterhouse is guilty of an offence.

Retention of products and disposal

6.—(1) In relation to any sampled bovine animal, the occupier of a slaughterhouse, hide market or tannery must, for the purposes of point 6(3) of Part I of Chapter A of Annex III to the Community TSE Regulation and pending receipt of the test result, either—

- (a) retain all carcasses and all parts of the body (including the blood and the hide) that will have to be disposed of in the event of a positive result; or
- (b) dispose of them in accordance with sub-paragraph (2).

(2) For the purposes of points 6(4) and 6(5) of that Part, if a positive result is received for a sampled animal, the occupier must immediately dispose of—

- (a) the carcass and all parts of the body of that animal (including the blood and the hide); and
- (b) unless a derogation has been granted under sub-paragraph (5), the carcass and all parts of the body (including the blood and the hide) of the animal immediately preceding that animal on the slaughter line and the two animals immediately following it,

in accordance with point 6(4) of that Part.

(3) If no sample has been sent to an approved testing laboratory for testing in accordance with paragraph 3 of this Schedule, or if an insufficient test result is received, in respect of an animal required to be tested under this Schedule, the occupier must immediately dispose of—

- (a) the carcass and all parts of the body (including the blood and the hide) of that animal; and
- (b) unless a derogation has been granted under sub-paragraph (5), the carcass and all parts of the body (including the blood but not the hide) of the animal immediately preceding that animal on the slaughter line and the two animals immediately following it,

in accordance with point 6(4) of that Part; and for the purposes of this sub-paragraph an “insufficient test result” means a certification by an approved testing laboratory that the sample sent to the laboratory was not of an adequate quality or was not of a sufficient quantity to obtain a test result.

(4) If a no-test result is received, in respect of an animal required to be tested under this Schedule, the occupier must immediately dispose of the carcass and all parts of the body (including the blood and the hide) of that animal in accordance with point 6(4) of that Part; and for the purposes of this sub-paragraph a “no-test result” (“canlyniad dim prawf”) means a negative result from a sample following multiple rapid testing where such testing was certified as necessary by an approved testing laboratory.

(5) The Welsh Ministers may grant in writing a derogation under point 6(6) of Part I of Chapter A of Annex III to the Community TSE Regulation if the Welsh Ministers are satisfied that the slaughterhouse operates a system that prevents contamination between carcasses.

(6) In relation to any sheep or goat selected for sampling, the occupier of a slaughterhouse, hide market or tannery must—

- (a) for the purposes of point 7(3) of Part II of Chapter A of Annex III to the Community TSE Regulation, retain the carcass and all parts of the body (including the blood and the hide) pending receipt of the test result; and
- (b) in the event of a positive result, immediately dispose of the carcass and all parts of the body (including the blood and the hide) in accordance with point 7(4) of that Part.

(7) In this paragraph the powers of an inspector may also be exercised by a person appointed as such in relation to a hide market or tannery by the Agriculture and Horticulture Development Board.

(8) Any person who fails to comply with sub-paragraphs (1) to (4) or (6) is guilty of an offence.

Compensation

7.—(1) If an animal slaughtered for human consumption tests positive, the Welsh Ministers must pay compensation for the carcase and all parts of the body (including the blood and the hide) of—

- (a) that animal; and,
- (b) if they are destroyed because of that positive result, the animal immediately preceding it on the slaughter line and the two animals immediately following it.

(2) The compensation is the market value, established under the procedure in regulation 11, with the occupier paying any fee arising from nominating and employing a valuer.

(3) Compensation is not payable in any other case.

PART 2

Contents of an RMOP

Animal identification and separation

8.—(1) The RMOP (as defined in paragraph 5(1)) must describe the system that—

- (a) enables bovine animals born or reared in the United Kingdom before 1 August 1996 to be identified and ensures that they are not slaughtered for human consumption;
- (b) enables bovine animals over 30 months of age but born on or after 1 August 1996 to be identified and ensures that they are sampled in accordance with this Schedule; and
- (c) enables bovine animals specified in point 2(1) of Part I of Chapter A of Annex III to the Community TSE Regulation to be identified and ensures that they are sampled in accordance with this Schedule.

(2) It must also describe the system that ensures that animals over 30 months of age are—

- (a) batched together before slaughter separately from those aged 30 months or under; and
- (b) slaughtered in batches separately from those aged 30 months or under.

Brain stem sampling

9.—(1) The RMOP must show that there are —

- (a) sufficient staff trained and competent in the taking, labelling, packaging and dispatch of brain stem samples;
- (b) hygienic facilities for sampling; and
- (c) sampling procedures that do not jeopardise the hygienic production of meat intended for human consumption.

(2) It must describe how health and safety guidelines designed to minimise the risk of exposure of staff to TSE during brain stem sampling and packaging will be complied with.

Correlation of sample to carcase and all other parts of the body

10. The RMOP must describe the system linking the brain stem sample of each bovine animal over 30 months of age to the carcase of that animal and all parts of the body of that animal (including the blood and the hide).

Retention of carcasses

11. The RMOP must describe—

- (a) the system that ensures that all carcasses retained in accordance with paragraph 6(1) of this Schedule are retained either in a sealed or locked chiller or on a sealed or locked rail in an unsealed chiller pending the receipt of the test result;
- (b) the system that ensures that the chronological order in which the animals were slaughtered can be determined; and
- (c) how the occupier will ensure that there is suitable and sufficient chiller space for retaining carcasses for the purposes of this Schedule.

Retention of parts of the body

12. The RMOP must describe the system that ensures that all parts of the body (including the blood and the hide) are retained in accordance with paragraph 6(1) of this Schedule.

Disposal before receipt of the result

13. The RMOP must describe the disposal route for all carcasses and all parts of the body (including the blood and the hide) retained pending receipt of a test result but disposed of before the test result is received.

Other measures following sampling

14. The RMOP must describe the systems in place that ensure that—

- (a) brain stem samples are packaged in accordance with packaging instructions P650 of the European Agreement Concerning the International Carriage of Dangerous Goods by Road (version applicable as from 1st January 2005)(25);
- (b) test results are received, either by fax or by other electronic means; and
- (c) everything required to be disposed of in accordance with point 6(4) or 6(5) of Part I of Chapter A of Annex III to the Community TSE Regulation or under paragraph 6(2), 6(3) or 6(4) of this Schedule is identified and disposed of accordingly.

Removal of vertebral column

15. The RMOP must describe the system that ensures that, in the case of a bovine animal for which a negative test result has been received—

- (a) those parts of the vertebral column that are specified risk material are not removed in the slaughterhouse; and
- (b) the meat containing that specified risk material is consigned to a cutting plant authorised under paragraph 12(1)(a) of Schedule 7 to remove it.

Explanatory Note

Control and eradication of TSE — notification

1.—(1) For the purposes of Article 11 of the Community TSE Regulation, any person who has in their possession or under their control any bovine animal suspected of being affected by a TSE must immediately notify the Welsh Ministers and detain it on the premises until it has been examined by a veterinary inspector.

(2) Any veterinary surgeon who examines or inspects any such animal must, with all practical speed, notify the Welsh Ministers.

(3) Any person (other than the Welsh Ministers) who examines the body of any bovine animal, or any part of it, in a laboratory and who reasonably suspects the presence of a TSE must immediately notify the Welsh Ministers, and retain the body and any parts of it until a veterinary inspector has authorised disposal.

(4) Failure to comply with this paragraph is an offence.

Restriction of a notified animal

2. If an animal is the subject of a notification under paragraph 1, an inspector may serve a notice prohibiting its movement from the premises pending determination of whether or not it is suspected of being affected with TSE.

Slaughter of a suspect animal

3.—(1) For the purposes of paragraphs (1) and (2) of Article 12 of the Community TSE Regulation, if a veterinary inspector suspects that a bovine animal is affected with TSE, they must either —

- (a) kill it on the holding immediately;
- (b) remove its cattle passport and serve a notice prohibiting the animal from being moved from the holding until it has been killed; or

- (c) ensure that its cattle passport is stamped “Not for human consumption” and serve a notice directing the owner to consign it to other premises for killing and prohibiting movement other than in accordance with that direction.
- (2) They must restrict the movement of other bovine animals on the holding in accordance with the second, third and fifth paragraphs of Article 12(1) of the Community TSE Regulation as read with Article 2(1)(a) of Commission Decision 2007/411/EC.
- (3) They may restrict the movement of bovine animals on other holdings in accordance with the fourth paragraph of Article 12(1) of the Community TSE Regulation.
- (4) If the animal is killed on the holding, it is an offence to remove the body from that holding except in accordance with a written direction from an inspector.
- (5) If the animal is not killed immediately, its keeper must dispose of its milk in such a way that it cannot be consumed by humans or animals except its own calf or animals kept for research purposes, and failure to comply with this sub-paragraph is an offence.

Identification and restriction of offspring and cohorts

4.—(1) In accordance with Article 13(2) of the Community TSE Regulation, as read with Article 2(1)(b) and (2) of Commission Decision 2007/411/EC, if—

- (a) a veterinary inspector suspects that a bovine animal is affected with TSE;
- (b) the monitoring of carcasses under Schedule 2 Part 1 or under Annex III to the Community TSE Regulation confirms that an animal is suspected of being affected with TSE; or
- (c) the competent authority of another part of the United Kingdom or another member State notifies the Welsh Ministers that a bovine animal is suspected of being affected with TSE,

an inspector must identify—

- (a) (if the suspect animal is female) all its offspring born within two years prior to, or after, clinical onset of the disease; and
- (b) all its bovine cohorts born on or after 1 August 1996,

and for these purposes the animal’s date of birth is the one shown on its cattle passport.

(2) An inspector must serve notices prohibiting movement of those animals from the holding on which they are kept or where that inspector suspects they may be kept (whether or not this is the same holding as that of the suspect animal) and remove their cattle passports.

(3) If the animals in sub-paragraph (1) cannot be immediately identified an inspector may prohibit the movement of any bovine animal from the holding pending identification.

(4) Movements of restricted animals are only permitted in accordance with regulation 16.

Action following confirmation

5.—(1) In accordance with Article 13(1)(c) of, and point 2 of Annex VII to, the Community TSE Regulation, as read with Articles 2(1)(b) and 2(2) of Commission Decision 2007/411/EC, if it is confirmed that the suspect animal was affected with TSE an inspector must—

- (a) if the animal is female, kill all its offspring born within two years prior to, or after, clinical onset of the disease; and
- (b) kill all the bovine animals in its cohort born on or after 1 August 1996 except where—
 - (i) the inspector is satisfied that the animal did not have access to the same feed as the affected animal; or
 - (ii) the animal is a bull that is kept at, and will not be removed from, a semen collection centre.

- (2) The appeals procedure in regulation 10 applies to a decision to kill under subparagraph (1)(b).
- (3) Where a decision not to kill has been made under sub-paragraph 2(b)(ii)—
 - (a) it is an offence to remove the animal from the semen collection centre, except to kill it; and
 - (b) the owner of the animal commits an offence if they do not ensure that its carcase is completely destroyed.
- (4) If an animal killed under this paragraph is not killed on the holding, an inspector must ensure that its passport is stamped “Not for human consumption” and must direct the owner in writing to consign it to other premises for killing as specified in the direction.
- (5) If the test is negative the inspector must remove all restrictions imposed because of the suspect animal and return the cattle passports.
- (6) When an animal is killed under this paragraph, it is an offence to remove the carcase from the premises on which it was killed except in accordance with a written direction from an inspector.

Death while under restriction

6. If any animal dies or is killed while it is under restriction for any reason under this Schedule, the owner must immediately notify the Welsh Ministers, and retain the body on the premises until they are directed in writing to move or dispose of it by an inspector, and it is an offence not to comply with this paragraph or to fail to comply with a direction under it.

Placing on the market of bovine progeny

7. Any person who places on the market any bovine animal in contravention of Article 15(2) of the Community TSE Regulation and Chapter B of Annex VIII to that Regulation is guilty of an offence.

When compensation is payable

- 8. The Welsh Ministers must pay compensation—
 - (a) when an animal is killed under this Schedule;
 - (b) where an animal is to be killed under this Schedule, and has been valued for the purposes of compensation, but dies (or is killed for other reasons) after valuation; or
 - (c) where an animal is subject to a movement restriction under this Schedule and has to be killed as an emergency and a veterinary surgeon has declared in writing that the animal would otherwise have been fit for human consumption in accordance with Chapter VI of Section I of Annex III to Regulation (EC) No 853/2004 of the European Parliament and of the Council laying down specific hygiene rules for food of animal origin⁽²⁶⁾ in which case compensation is the value of the body (including the blood and the hide).

Amount of compensation payable

- 9.—(1) The compensation is the average price paid in Great Britain for that age and category of animal—
 - (a) for a pedigree animal, in the six months before the date of its valuation; and
 - (b) for any other bovine animal, in the month before the date of its valuation.
- (2) A pedigree animal is one for which a pedigree certificate has been issued by a breeders' organisation or association that fulfils the conditions of Commission Decision 84/247/EEC laying

(3) The Welsh Ministers must categorise animals as follows, and for the purposes of determining which category the animal falls into, the age of the animal is the age, as shown by its cattle passport, at the date on which the notice of intention to kill was served—

- (b) for the individual animal, the market price.

(2) For buffalo or bison, compensation is the market price.

(3) The market price is the price that might reasonably have been obtained for the individual animal from a purchaser in the open market at the time of valuation if the animal was not required to be killed under this Schedule, calculated under regulation 11, with the owner paying any fee arising for nominating and employing a valuer.

Explanatory Note

Notification of TSE

1.—(1) For the purposes of Article 11 of the Community TSE Regulation, any person who has in their possession or under their control any sheep or goat suspected of being affected with a TSE must immediately notify the Welsh Ministers and detain it on the premises until it has been examined by a veterinary inspector.

(2) Any veterinary surgeon who examines or inspects any such animal must, with all practical speed, notify the Welsh Ministers.

(3) Any person (other than the Welsh Ministers) who examines the body of any sheep or goat, or any part of it, in a laboratory and who reasonably suspects the presence of a TSE must immediately notify the Welsh Ministers, and retain the body and any parts of it until a veterinary inspector has authorised disposal.

(4) Failure to comply with this paragraph is an offence.

Restriction of a notified animal

2.—(1) If an animal is the subject of notification under paragraph 1, pending determination of whether or not it is suspected of being affected with a TSE, a veterinary inspector may serve a notice prohibiting the movement of that animal from its holding, and the movement of any other sheep or goat onto or from that holding.

(2) Movements of restricted animals are only permitted in accordance with regulation 16.

Slaughter of a suspect animal

3.—(1) For the purposes of paragraphs (1) and (2) of Article 12 of the Community TSE Regulation, if a veterinary inspector suspects that a sheep or goat is affected with a TSE, they must either—

- (a) kill it on the holding immediately;
- (b) serve a notice prohibiting the animal from being moved from the holding until it has been killed; or
- (c) serve a notice directing the owner to consign it to other premises for killing and prohibiting movement other than in accordance with that direction.

(2) If the animal is killed on the holding, it is an offence to remove the body from the holding except in accordance with a written direction from an inspector.

Movement restrictions

4.—(1) For the purposes of point 2(2) of Annex VII to the Community TSE Regulation, and Article 12(1) of that Regulation, following suspicion of a TSE (whether in a live animal or through the monitoring under Annex III to the Community TSE Regulation), an inspector—

- (a) must serve a notice prohibiting the movement onto or from its holding of any sheep or goat on the same holding as the suspect sheep or goat if the inspector considers that the sheep or goat was exposed to a TSE on that holding;
 - (b) may serve a notice prohibiting the movement onto or from any holding of any sheep or goat if there is evidence that the suspect animal was exposed to a TSE on that holding; and
 - (c) must serve a notice prohibiting movement onto or from a holding where an animal specified in point 1(b) of Annex VII to the Community TSE Regulation is kept or where the inspector suspects such an animal is kept.
- (2) Movements of restricted animals are only permitted in accordance with regulation 16.

Action where TSE is not confirmed

5. If it is confirmed that the sheep or goat was not affected with a TSE, the inspector must, as soon as reasonably possible, remove all restrictions imposed because the sheep or goat was suspected of being infected with a TSE.

Confirmation of TSE in sheep

6.—(1) This paragraph applies if it is confirmed that a suspect sheep, or a body of a sheep monitored under Annex III to the Community TSE Regulation, is affected with a TSE, and BSE is excluded in accordance with the procedure set out in Chapter C, point 3(2)(c) of Annex X, to that Regulation except where the Welsh Ministers decide to exercise the power in paragraph 9(2).

(2) The Welsh Ministers, after—

- (a) carrying out the inquiry specified in Article 13(1)(b) of the Community TSE Regulation and in point 1(b) of Annex VII to that Regulation; and
- (b) sampling the animals to establish their genotype (if this is necessary),

must decide which of the options set out in points 2(3)(b)(i) and 2(3)(b)(ii) of Annex VII to the Community TSE Regulation they intend to exercise.

(3) The Welsh Ministers must then serve a notice on the occupier of the holding informing the occupier of which of those options the Welsh Ministers intend to exercise.

(4) The notice must specify—

- (a) the identity of the animals to be killed and destroyed;
- (b) the identity of the animals (if any) to be slaughtered for human consumption;
- (c) the identity of the animals (if any) that may be retained;
- (d) the identity of any ovum or embryo to be destroyed; and
- (e) the time limit for complying with the notice.

(5) The appeals procedure in regulation 10 applies.

Confirmation of TSE in goats

7.—(1) This paragraph applies if it is confirmed that a suspect goat, or a body of a goat monitored under Annex III to the Community TSE Regulation, is affected with a TSE, and BSE is excluded in accordance with the procedure set out in Chapter C, point 3(2)(c) of Annex X to that Regulation except where the Welsh Ministers decide to exercise the power in paragraph 9(2).

(2) The Welsh Ministers, after carrying out the inquiry specified in Article 13(1)(b) of the Community TSE Regulation and in point 1(b) of Annex VII to that Regulation, must serve a notice on the occupier of the holding informing them that the Welsh Ministers intend to kill and destroy

all the goats on the holding and all embryos and ova from those animals in accordance with Article 13(1)(c) of, and point 2.3(b)(i) of Annex VII, to that Regulation.

(3) The appeals procedure in regulation 10 applies.

Confirmation of BSE in sheep or goats

8.—(1) This paragraph applies if TSE is confirmed in a suspect sheep or goat, or a body of a sheep or goat monitored under Annex III to the Community TSE Regulation, and BSE cannot be excluded by the results of a ring trial carried out in accordance with the procedure set out in Chapter C, point 3(2)(c) of Annex X to that Regulation.

(2) The Welsh Ministers, after carrying out the inquiry specified in Article 13(1)(b) of the Community TSE Regulation and point 1(b) of Annex VII to that Regulation, must serve a notice on the occupier of the holding informing them of the Welsh Ministers' intention to have the animals killed and destroyed, and the embryos and ova destroyed, in accordance with Article 13(1)(c), and point 2(3)(a) of Annex VII to that Regulation.

(3) The appeals procedure in regulation 10 applies.

Confirmation of atypical scrapie in sheep or goats

9.—(1) This paragraph applies if the TSE confirmed in a suspect sheep or goat, or a body of a sheep or goat, monitored under Annex III to the Community TSE Regulation is atypical scrapie, and BSE is excluded in accordance with the procedure set out in Chapter C, Point 3(2)(c) of Annex X to that Regulation.

(2) The Welsh Ministers may decide not to apply paragraph 6 in respect of sheep, or paragraph 7 in respect of goats.

These Regulations, which apply in relation to Wales, revoke and remake with amendments the Transmissible Spongiform Encephalopathies (Wales) Regulations 2006 (S.I.2006/1266 (W.117)), which enforced Regulation (EC) No 999/2001 of the European Parliament and of the Council laying down rules for the prevention, control and eradication of certain transmissible spongiform encephalopathies (OJ No L147, 31.5.2001, p.1) as amended (“the Community TSE Regulation”). These Regulations now implement Commission Decision 2007/411 prohibiting the placing on the market of products derived from bovine animals born or reared within the United Kingdom before 1 August 1996 for any purpose and exempting such animals from certain control and eradication measures laid down in Regulation (EC) No. 999/2001 and repealing Decision 2005/598 (OJ No L 155, 15.6.2007, p.74).
